TUESDAY, MARCH 10, 1942

Late Arrival Mr. Williams of the NYA jumps for the Bandwagon. Hold everything! Here comes Mr. Aubrey Williams, head-knocker and chief defender of the NYA and he has just made his Great Decision. He has decreed that NYA shall immediately enlarge its war industry training program and for heaven's sake give him another fat appropriation!

Code Nobody Should Be Allowed To Make Money Out of War. War generally produces a large crop of patriots and a small crop of opportunists. Out of the last war, with its lush contracts for cantonments and munitions, came the word profiteer; came also in the post-war reckoning a deep sense of disillusionment and cynical attitude that wars were waged primarily for the benefit of capitalists and the arms-makers.

Curiosity It Killed the Cat and Wore 100,000 Auto Tires Thinner. From all Eastern North Carolina and points west they came, some 250,000 of them, in their automobiles. It was Sunday afternoon, and they had nothing to do. Beside, they were curious to see the destruction wrought by the explosion of the ammunition truck near Selma.

War Time In Summer It Is Likely To Be Unbearable in the South. Most people seem to accept War Time, the daylight saving, in good cheer and philosophically. They are a little vague about the exact benefit it accomplishes, and they are at a loss to know what to do at this season of the year with the heat of the day and the heat which they have gained by starting the day in total darkness.

"Bearable" How Many Dead Germans Can the Master-Race Stand? How many did the Germans say? A million and a half? Make it three millions, then, or four. That's the usual rule: double what the Nazis say they lost and have what they claim to have retained.

Side Glances THE MARCH ON CHINA. The next decade saw Japan on the march, first in Manchuria, then in China. Yamashita, who served a term in the War Office as Chief of Staff, became a military hero and began to talk Nazi-fashion. "War," he said, "is the mother of creation."

Side Glances ERNST UDET LOOKS AT JAP AIR FORCE. In 1939 the late German ace and parachute expert, Ernst Udet, visited Japan and inspected the Japanese Air Force. He is said to have reported to Hermann Goering that the Japanese were, though brave and willing, were no sky-beaters.

Our Greatest Shortage ... MacArthur's New Adversary ... From Time Magazine. GENERAL YAMASHITA, perhaps more than any other Japanese general, represents the extreme pro-German element in Japan. In the Tomiyuki Yamashita's exposure to Germany came early in his career. He was sent to Germany in 1913 by an order to go to Germany and have a look around. Kaiser Wilhelm, then in his final military feather, almost treated him as a guest, but did quite a little chattering about the then fashionable Yellow Peril, but there were many in Berlin who regarded London as the real root of all evil. Among them was a philosopher named Karl Haushofer (now Adolf Hitler's theorist on geopolitics), who had met Yamashita in Japan in 1909 and now befriended him, publicly acclaimed the Japanese as "the Prussian advantage of the war and him home fat with admiration for German militarism."

TODAY'S BIBLE THOUGHT God is your friend, trust Him and venture to do His will; Take my yoke upon you and learn of me, for I am meek and lowly in heart; and ye shall find peace—Matt. 11:29.

Ours to Win Or to Lose ... By Raymond Clapper. A moral, I suppose it is the same with a nation as it is with any of us individually. We have good morale when we are doing something that we know is urgently important, when we know that we are needed and when we know that we are working to full capability. A man can't have good morale if he thinks he is useless, or if he is doing something that does not challenge his full powers. That is why you get so much better results when you can see on his own responsibility and convince him he is being asked to do something that, however small it may be, is nevertheless vital. A messenger boy will take more interest in delivering your message if he understands that some important action depends on prompt delivery. Yes, it has been found sometimes, but the statement is still good on percentage.
