Not For Us If Carolinas Get More Gas

Because of Rurality . . . Whew

Not only do we believe that Coleman Roberts is doomed to failure in his plan to have the Carolinas removed from District 1 under gasoline rationing; we believe he should be denied. For, if the

District I under gasonine rationing; we believe he should be denied. For, if the Carolinas be rural states which should be classed in the same group with the Western states, then church is out. Every other Southern state can prove with equal ease that it is predominantly rural, and hence needs more gasoline. No, this plea is not one which takes any cognisance of the difficulties of transportation, And, we hasten to add, it will not add to the prestige of the Carolinas to have this plea brutted about at the time when the pinch is really on gasoline, because of new millitary requirements. To a point, Hardle Lary requirements, To a point, Hardle for our former blasts against gasoline rationing.

for our former blasts against gasoline rationing.

At its all very well to do the best possible by Carolina motorists, but we cannot see them as one with more important than motorists in other Eastern States. And we do not see them as of any importance at all, when stacked up-against military requirements. We believe Mr. Roberts is able to present a set of facts: he can be denerged upon for

Attesion Armies, ricease vote,
Are On Point of Freeing Russia

By the end of this week, the Red
Armies may be no more than 100 miles
from the Polish and Rumanian bordera.
They plunge forward several miles each
day, wreaking new vengance, inflicting terrible wounds. The homeland is
being rescued at a rapid rate. We now
face the time that Russia will reposreceive the control of the receive and the reposproach there original territory. We approach the original territory we approach the homeland is solution chainplons and Red-batters of the receive and
What will happen when the Red conyreaches the border? Either way, there
is a fear, a school for alarm.

If Russia halts suddenly at the bordera, there will be hundreds to jump up,
shouting warnings that we are to be
left holding the bag, that we should
never have trusted these Communista.
On the other hand, if the Russian
armies plunge shead, deeply into the
Balkania and Poland, there will, be
screams that the Reds are now gobbling
up small sovereign states. It will be said
that this Russia, this acourge of Communism, will soon overrun Europe.
There will be no satisfying these
thick-headed critics; they will be with
up to the state of the receiver of the receiver of the reterior of the reterior

rould function in Washington, not London.

In London, it was figured, the Ceusell would be too much under the thumb of old world diplomacy, would be deminated by the British and Russians. FDR has always remembered the way in which his old chief, Wodrow Wilson, had croully when he went to Europa, 56 he wanted these initial manageurs kept in a fresher New World atmosphere.

Little Nations Out

Little Nations Out

Nothing was said about it at the White House, but another original U. S. proposal, planned for the Moscow meeting, was altered by Secretary Rull atter he got over there. This was the plan to have smaller nations sit in with the Big Four on the newly created Diplomatic Council. Behind this were two ideas:
(1) It is only fair to permit co-operation by smaller nations; (2) Smaller nations, especially Latin Americans, are usually to be found on the more idealistic side and backing up the U. S. A. In order to mould public opinion and permanent peace machinery we may need a lot of small nation support.

Inside fact is that U. S. plans for Moscow.

may need a lot of small nation support.

The whole thing is a panic flight from reality. We not estimate the control of the cont

The mood is a chipper, heedless mood, a willing-ness to go to hell in a wheelbarrow so long as there are good chances for re-selection along the way. It is the mood of evasion. Everybody is going to have his own way; the farmer will have his higher prices, the worker will have, his higher wages, the taxpayer will avoid rate increases, the Congressmen will be re-elected, and only the Treasury will capsies.

We feel we must make sense in the world, but that we are not under the same compulsion at home. Our first act in the almost perfect world will be to raise the price of butter ten cents. No aggressor is going to be allowed to interfere with us while we hlow up our own house.

Our world plan calls for a century of peace; our domestic plan does not go beyond one rouring weekend. We seem billed in one sye, short in one leg: poor equipment for managing the straight, hast road to the fitting.

Side Glances

"The doctor was here this morning—he took temperature and some books, flowers and magazines for his office!"

From Congress

Inflation Comes

By Raymond Clapper

WASHINGTON

THE danger of wild inflation is increased by the action of a cosilition of Democrats and Republicans in Congress to stop payment of food substitution is trying to check the rising cost of long. Such the Administration is trying to check the rising cost of long. Such rising the producers in certain lines of foodstuffs to encourage larger production without higher prices to the consumer.

It is a subject ore which barbershop argument can continue indefinitely. The question is whether to yield to more rapid in-fiction of prices, or whether to continue the reargumal relief magainst it. Subsidies, the Little Steel Fermula, price control, ration-ing are all prakes against the tremendous momentum of infistion that comes from the war. When 11,000,000 men are put into uniform, and more than half of our production facilities are given over to and more than half of our production facilities are given over to all postages of goods and manpower, and abundance of spend-ing power create a relimites force for inflation.

About all we can hope to do is to throw obstacles in the way, slow it down, fight for time, give no ground without a struggle. That is ... what the Administration is trying to do now on food subsidies. The trouble is that large groups such as cattle growers, and dairy interests, want to get rid of all Government controls. They want the lid off prices. They are tighting to end the subsidies now. They have lined up the big farm organisations, the Farm Federation and the National Grange. Retail grocers are joining in.

Thus powerful political pressure has been created on Congress.

Expublicans have Joined in. Several Republicans on the Banking

Committee were undertood to have favored continuing subsidies,

the several republicans of the Republicans of the Banking

Hean Leader of the Resise, they went the pressure of the Resise.

It is not the several republicant the Resise of the Resise in the very large of the Resise. They went the resistance of the Resise in the very large collect all the traffic will bear. That's the game that is about to be put over in Washington.

in wasnington.

The Democratic chairman of the House Banking Committee, Réary B. Steagall, was buttered by the opponents of subsidies. They permitted a provision to go into the repeal legislation continuing subsidies on vegetable oils and fats. That takes care of the peanut growers in Steagail's district. Having been assured subsidies for his growers, he had no further interest in other subsidies and turned against the Administration. That's the kind of a fight it is.

A minority group on the House Banking Committee is effering Congress an alternative. This group includes Wright of Pennsylland, Honwayer of Oklahoms, Ford of California, Fattana of Tenas, and State of Pennsylland, State of Pennsylland, Barry of New York. It suggests with the State of Pennsylland Barry of New York. It suggests with the State Way and Barry of New York. It suggests for the Administration of the Pennsylland State of Pennsylland State

This minority says that the only protection sgainst increased wages a maintenance of the present price structure. The Administration says without standings it cannot had the Steel Wage Formula. One says without school seems persuasirs. What happens if we knock of the standard of the standard structure in the same persuasirs.
