Couple Of Leaks

Barriner Eccles of the Federal Reserve

Press freedom for the world, an ideal which has won immediate support in the Americas, from the Mexico City conference to North Carolina's General Assembly, is being taken into an international crusade. The chances of victory, from this point, seem remote. For example, the American Society of Newspaper Editors, which has sponsored the movement fathered by Kent Cooper of Associated Press, now has a committee in Moscow, hard at work. It faces an apparently insurmountable harrier.

apparently insurmountable barrier.

The case of Russia alone is enough to suggest the difficulties which lie shead. For the Russian conception of press freedom (and the ideal is written into the Soviet Constitution) is not at all like our own. Like other civil liberates in Russia, press freedom is guaranteed in the conformity with the interests of the working people, and in order to strengthen the Socialist System. In short, it is not guaranteed as an in-alenable right of the individual. The Societ view is that the press should be made free of secro-columnate by capital is, financial or countries are about the constraint of the constraints.
