The Merry-Go-Round

By Drew Pearson

WASHINGTON
PRESIDENT Truman has now made it clear at Potsdam that he will not be out of the country for a long time...

And the British, by their own admission, despite the fact that he had already been given an appointment, drove up to the palace steps...

British Imprison Greeks

Several miles from the royal palace in Egypt is another testimonial to what Britain considers her right to dominate certain spheres of influence...

It was last fall that the Nazi conquerors were chased out of Greece. But today nearly 7,000 Greeks still are held prisoners by the British in Egypt and East African concentration camps...

British Use UNRRA

Truman might also drop a hint to Churchill that it would be wiser if the British withdrew their intelligence officers disguised as UNRRA workers in Greece...

Egyptian Gates Battered

Street British citizenship has conferred a great deal of what has happened in the Near East. Few people outside Egypt, for instance, have known about the high-backed door that Britain battered down the gates of the royal palace...

When British Ambassador Sir Miles Lampson called on King Fouad with the advice that Mustafa Nahas be made Premier...

The king then called a special meeting of his Cabinet and all the cabinet members, including even Churchill, were invited to attend...

"Carry Your Baggage, Mister?"

"Of course he doesn't like you—he's a withouthand!"

The G. O. P. Plot

By Samuel Grafton

THE Republican Party would have to be made of stone not to be worried by the popularity of President Truman...

It seems to me that another attempt to manufacture an unreal issue can be found in the heavy attacks against the 'silence' of the party days of the Potsdam Conference...

People's Platform Is the Negro To Blame?

By B.F. WYANT, JR.

AN article in the Charlotte Observer in the People's Platform is one thing that the founders of the Negro People's Party...

Clean Up The State Department

By Marquis Childs

WASHINGTON
Because we are inclined to be hardy realize the extent to which partisanship has already become a factor in the State Department...

Drummond goes on to propose two nominees for Undersecretary—Hamilton Fish Armstrong and John Foster Dulles...

Still In Bounds

The City of Charlotte's first three-million-dollar budget (\$3,745,273.82) sent us to the Statistical Abstract to see how our expenditures compared with cities in the 100,000-plus population range...

Hangers-On

When is a Senator not a Senator? So help us it's a burning issue of the day. And we aren't talking about Senators of the Bob Reynolds stripe...

Table with 3 columns: City, Total Ex., Net Long. Total Ex. Net Long. Total Ex. Net Long. Lists cities like Canton, Tampa, Sacramento, Peoria, etc.

If any pattern is distinguishable in this list of ten cities, it is that some of them spend a lot, some of them not so much. It is pretty clearly established, however, with the exception of South Bend...

But what also appears is that we are second from the top when it comes to net long term debt, even though all of the cities except one are larger...

J' Accuse

The fall of France, you see, was an act of God. It was indeed, look to the heavens, the greatest calamity since Henri Petain stands trial. See the mad megalomania as the prosecutor shouts that there are too many Germans in that room...

And there is Gamelin, too. His confession, the Marshal Lyautey was largely in vain. Petain would not lengthen it; Petain betrayed France, calling off the army and led at the Bismarck trials...

The French cabinet was dissolved and the circle of dishonor and the lowest of them all is not on hand at all; Laval is in a Spanish prison. The France of 1940 was not rotten to the core...

Among the little announcements of the In the New Guinea Shamri-La, as told by the resident, Wae and G. I. 3, was roast pork at every meal. Or hardship diet luge...

The Friendship

Lacking even a whispered hint of what really goes on at Potsdam, we suppose we must take heart from the aseptic reports of Associated Press, which inform us that, without less than a week, the country has a new President...

We're firm believers in the frank and unclouded attitude which Harry Truman took with him into the Presidency, and hope it's here to stay...

No matter how he admires our new internationalist, his ability to handle the job and to deal with his bourbon-and-brunch-water, the Marshal would scarcely smile under his mustache and reverse himself on Poland, Romania, the Danubian, German population...

Statesmen At Work

SEN LANGRISH in the Statesman at Work column has been very busy. He has been studying the matter of the operation of General Foods between 1942 and 1944. He has come to the conclusion that the operation of this corporation has occurred since May 1944...

At the time when the Senators of the United States are in session, and doing their best to produce enough food for the Nation, I am blessed that some of the leaders of our commercial and political world should engage in the most important occupation this country has seen in many years...

Quote, Unquote

[T]hat the New Deal we have inherited is not a failure. It is a success. It is a success because it has brought about the greatest social and economic changes in the history of our country...
