Bid For Pipe Line A Double-Barreled Plan For Monopoly On Gas

I LEARNED recently from my editorial contemporaries, Mr. Walter Winchell, that Henry Wallace's almost-erased. I'm in a fix. Mr. Wallace Jones, might be behind the bid for the Little Inch Pipe Line from the War Assets Administration. It is the story in the War Assets Administration's bid to sell the Little Inch Pipe Line. It is the story in the War Assets Administration's bid to sell the Little Inch Pipe Line. It is the story in the War Assets Administration's bid to sell the Little Inch Pipe Line.

It seems that Mr. Winchell is right, at least to the degree that George Butler, husband of Joseph's only heir and custodian of many of the family's interests, is one of the Little Inch Pipe Line. It is the story in the War Assets Administration's bid to sell the Little Inch Pipe Line.

There are certain things about Uncle Jesse's bid that I like — including R. H. Hakey who used to be a member of the Little Inch Pipe Line. It is the story in the War Assets Administration's bid to sell the Little Inch Pipe Line.

First of all, it is proposed to use the Lines to transport oil from the Gulf of Mexico to the Northeast. This would be an honest and economic use of the Lines. It is the story in the War Assets Administration's bid to sell the Little Inch Pipe Line.

There is another reason why I like Uncle Jesse's bid. He proposes to pay the United States for the cash that he would be getting from the sale of the Lines. It is the story in the War Assets Administration's bid to sell the Little Inch Pipe Line.

RELEASED DETAILS MARKED Drive For Maritime Strike Settlement

Birthday Appeal Gravely Hulled Warns Powers To End Differences

WASHINGTON (AP) — Gravely hulled Cordell Hull counseled the big five powers on his 75th birthday today that they must replace "dangerous" differences with mutual confidence or face "incalculable disaster."

The small former Secretary of State offered his advice even as he carried on a personal struggle for time and health to make his final contribution to world peace.

Only if each nation is united within itself behind policies designed to these common interests, and only as the nations continuously cooperate with each other in support of those interests, can we assure — for ourselves and for those who come after us — enduring peace and free institutions, Hull declared.

"Only thus," he added, "can we have a world order ruled by enlightened reason and just law."

Port Peace Prospects Brighten Federal Agency Takes Action

WASHINGTON (AP) — Conciliation Director Edgar L. Warren said today that all parties in the maritime strike negotiations here were being called in "to try to drive home a settlement."

Warren talked to reporters after morning discussions between the unions involved and the ship owners.

He was asked whether the situation was such that an immediate settlement was possible. He replied "maybe I am an optimist but I think so."

Continuous negotiations thus appeared to hold an answer to a prompt end of the strike.

Prospects of a settlement brightened after the Maritime Commission moved in the strike.

A commission official said the agency had set forth its labor views in the dispute and that there was a "reasonable hope" for an early settlement.

The main stumbling block in the dispute has been the refusal of Pacific Coast shipowners to go so far as the Eastern companies in recognizing demands for more "union security."

Union leaders said that since the Maritime Commission owns a large segment of Pacific shipping, it has the power to set standards which would be followed by force.

Shooting To Be Asked If Mercy Is Denied

7 Men Will Go To Berlin Prison

By THOMAS A. REEDY

NUERNBERG, GERMANY (AP) — Lawyers for the eleven condemned German war criminals disclosed today they planned to appeal to the Allied Control Council to change the death sentences.

From hanging to shooting if all other pleas for clemency failed.

The last court of resort for Hermann Goering, Joachim von Ribbentrop and the others from the ignominy of the hangman's rope was the Allied Control Council.

The commission forwarded its recommendations regarding the executions in Berlin for approval of the Allied Control Council.

Schacht and Hans Fritzsche, the three who were acquitted, all returned to the Palace of Justice for their respective trials.

All have requested permission to go to the British zone, but the U. S. State Department has refused transportation.

Defense attorneys also were appealing to the British zone for security of the three who were acquitted.

A reinforced force of German soldiers accompanied the convicted men and jail ward, who were to be taken to the prison.

The doomsday military was reported making a special request for the three who were acquitted.

Remedies Suggested Meat Shortage Solution Sought

WASHINGTON (AP) — The Administration was reported casting about today for some means of easing the meat shortage, but no ready solution appeared in sight.

Aides of top policy-making officials today said the meat shortage was a problem which Agriculture Department reported that 800,000 pounds of meat had been lost last week.

These are (1) raising of controls and raising prices in order to encourage marketing of cattle and hogs, (2) Government requisitioning of meat animals from these areas.

White House attention to the problem was indicated by Rep. Spence, Democrat, Kentucky, who introduced a bill today to take some remedial action.

But Spence declined to say what that action might be.

On the political front: Senator Caphear, Republican, Indiana, said reports reaching him indicated that the people of America are up in arms over the shortage.
