Victory In The Gymnasium?

WE gather, after considerable study of the dispatches from Washington and The Bronx, that America will score a prest victory if Ambassador Gromuko, who has already taken one brisk stroll, can be prevailed upon to keep his country recreased on that sub-committee of the Parlament of Man now sitting in the Hunter College symnasium. On the other hand, we are fold, it will not represent a defeat for America if he keeps on walking.

From the beginning it has seemed to use too heavy a burden to place upon the finding UNO, which was established to preserve the nace, not to create it. American in the Market of the second of the secon

America if he keeps on walking.
There seems to be a rather brisk rubbing of official hands over the position in which we, with the assistance of Britain and the faceless small nations on the Security Council, have placed Soviet Russia Russia has been guilty of a ruthless disregard for the sovereign rights of Iran, and if she allows the Iranian matter to be brought before the Council her sins will be made up to the the council of the Council and on out of the UNO, her refusal to face the investigation will be construed as an admission of her guilt.

That, of course, is fine, but we That, of course, is fine, but we wender what Jimmy Byrnes plans to do one Russia's guilt has been established one way or the other? Suppose, for instance, Ambassador Gromyko finally agrees to the hearing of Iran's case but refuses to agree to any action the Security Council might contemplate? What do we do then?

The United States, with Britain's not particularly enthusiastic backing, has insisted on making the Iranian cause herewn. It is, of course, a good excuse for a

too heavy a burden to place upon the fledgling UNO, which was established to preserve the peace, not to create it. American insistence on bringing the matter beican insistence on bringing the matter be-fore the Security Council, obviously weighted in her favor, has the effect of making the cause of world peace window dressing for our private contest with Rus-sia. Regardless of how thoroughly Iran's rights have been trampled by the Soviet Union, the plous protests of America and Britain, heavily interested in Iran's oil, are subject to suspicion.

It is quite possible that we will win a preat diplomatic victory in the Hunter College symmalium. It is also possible that we will destroy the tender promise of concil peace through the confederation of he nations of the world. The most im-portant, and depressing, lesson of the Ira-alian dispute thus far is the demonstration nian dispute thus far is the demonstration that the United States and Great Britain now view UNO as the Russians have always viewed it—as an arena where the great powers struggle to establish and maintain the precarious balance that means uneasy peace.

The Caste System Is Also Horizontal

THE army, undertaking a full-dress in-vestigation of its caste system, is calling up its most profound critics as witnesses, citizens like Bill Mauldin, the Stars & Strikes cartoonist, and Joe Mc-Carthy, Yank's old managing editor. These professional spokeamen for the downtrod-den G.I. are eloquent, of course, and they will probably have many revealing tales to tell, stories of discrimination in the sisoric Club Bar, of the G.I.'s who were evicted from Claridge's in London, the Crillon in Paris and the Excelsior in Rome, of Pear echelon generals who splashed lly in private swimming pools while their enlisted men had to share a public

Time, we think, could be saved by introducing in evidence a copy of the new magazine, Selute, which is currently being produced by the ex-editors of Yank. Out of uniform, with their civil libertles fully restored, these young gentlemen are now venting the spleen pent up during their years of arduous service. In their first issue they got almost as nasty with their ex-officers as they did in the average edise-efficers as they did in the average edi-tion they published while still under war department censorahip. They announced, for instance, thist General Elsenhower is paid \$2,000 a year in salary plus a special allowance of \$5,000, implying that this stagegring sum is far too high. They pub-lished a cartoon showing ex-officers labeled Prehop, Hap, etc., at work in a filling sta-tion. They noted with awe that one of their staff members actually liked of-ficers.

The reports of these journalists, who were apparently awfully busy furthering their private careers by duty in the Public Relations Office when the army was reunding up enlisted men to be commissionally and the commission of the

sioned as line officers (75 per cent of World War II officer personnel came from the ranks) are valid, we suppose. From their furlined foxholes in New York, Lon-don, Paris and Manila they saw and were don. Paris and Manila they saw and were part of that strange, unreal and frequently disgusting pseudo-military life that existed in the rear echelons. They are certainly well qualified to report on the unequal distribution of liquor, girls and private haths.

baths.

Having noted and filed these familiar complaints from the articulate democrats of the service command, the investigating committee can get down to its real business. Is the caste system necessary to maintain discipline in that vital area, forward of the liquor, the women and the private baths, where the army carries out its primary function. the slaughter of the enemy? They will note the workings of a horizontal caste system as well as a vertical one. The major general at the front lives in far less luxury and in far greater in-security than the private first class at Communications Zone headquarters; the minor privileges accorded rank in combat are matched with terrible responsibilities.

To properly investigate these matters,

are matched with terrible responsibilities.

To properly investigate these matters, we suggest that the committee call all the wearers of the Congressional Medal of Honor. Live CMH men are scarce, of course, and it may be necessary to dip into the wearers of the Distinguished Service Cross to obtain a quorum. If these men, who fought alongside the colonels and capitalis and lleutenants of the infantry, the air forces and the armored force echo the criticisms of rear echelon commandos who were prevented from dining with the colonels and capitalis and lieutenants of the service command, then the army will have real cause for worry.

Speaker Harris And-An Old Ghost

TIKE a voice out of the past, Speaker's Roy Harris of the Georgia House of Representatives appeared before the Co-lumbia Rotary Club to warn that abolition of the white primary will return Georgia and South Carolina to the chaos of Reconstruction, with bloodshed as a certain

Mr Harris it will be remembered is a sort of official voice of Georgia reaction, who has stood foursquare against his state's considerable social and economic progress under Governor Arnall. He has voiced his dire prediction, which carries considerable weight because of his office, in his own state, giving great encouragement, we suppose, to Georgia's active Klan and to the red-gallused followers of old Gene Talmadge. He now seems bent upon inflicting it upon the neighbors.

He was moved to invoke his ancient ghosts by the recent Federal Court decision which held that Georgia can no longer exclude. Negroes from her Democratic primaries. The invalidity of his fears has been demonstrated by the calm acceptance of that court ruling in all parts of the state. The Atlanta Journal recently published a roundup of editorial commentation the Georgia press on the subject, soding with pleasure that even the weeklies and small dailles, published in the districts where racial feeling has always run hich and unashmed, were undisturbed at the except of wholessle enfranchisement of Georgia's Nexroes. A good many Georgia ditors, in fact, saw the arrival of the segro at the ballot box as a happy deviating that the state of the state's decaying political structure. He was moved to invoke his ancient

Bill Mr. Harris, tilting with the shadows reated by his own imagination, expresses be fear the Negroes will unite and seize to palitical power in the South, making

necessary another reign of terror to restore the status quo. He ignores the fact that there has been no more unity among Negro voters in North Carolina, Virgini and the other states where they are allowed to vote, than there has been among white voters. If they ever do unite to rout the white politicians it will be, as The Columbia Record notes, because of the natural fear generated by such ill-con sidered and incendiary blasts as that de livered in the South Carolina capital by the Speaker of the Georgia House.

"There may be bloodshed if he continues to warn of it." The Record remarks. "for such warnings have a way of creating a state of mind that will result in bloodshed. But it need not be so."

Mr. Harris' crey of wolf may be sincere, or it may be a revival of the ancient prac-tice of using the threat of Negro domination as a guarantee against the political progress that might cost him his job. In either event it is deplorable.

In a forthcoming film a \$35,000 fur coat Is never worn by Rita Hayworth but is dragged negligently along behind. One re-calls that Miss Mae West got the same effect by asking Beulah to peel her a grape.

Holding forth last evening on the great crisis which confronts us, the old rounder bespoke a revival of the spirit of the herey pioneer, who somehow pulled through on gray bread and green whisky.

A film producer believes the public will be ready in 1950 for serious treatments of the war as history. No Mata Harl hav-ing emerged in the great conflict, it will of course be necessary to invent one.

Relief In Sight

People's Platform

Another Spending Spree?

THE public is somewhat confused in regard to registering and avoiding in the bond election: the right way is for everybody to register and vote. If the ones in authority would inject a little common mane and a whole less nearness in our school system they would not need any bonds. They are running busses circross all over the county hauling children from one school to another vacating ones building and jampacking another. There are children that have missed part and very often all of the text and the land of the text and it is the county of the land in the control of the land in the control of the land in the control of the land in th the first recitation because of the long haul. If the children were a little more evenly distributed and every school had the same number of grades, the children, teachers, and parents would all take more

children, teachers, and parents would all take more interest.

This is not the time to jump into big debts. The country is topsy turvey. We are going through a crazy period, Won't anybody tell or can't they tell read to the country and two the country is topsy turvey. We are going through a crazy period, Won't anybody tell or can't they tell raise it around 50 cents for the country and twice that for the city.

The farmers don't need another collar acided to their laxes, we don't have the body and twice that the company of the country and twice came, which most surely will, they will be selling people out for taxes. The public had better wake up and put a stop to this wild recities spending before spending spree—build three buildings for another spending spree—build three buildings for the high school, add more miles to the loy ride, want to teach everything from spriculture to go on another cannot be considered the control of the stuff. If a child gets a good high school education and wants anything more he will manage to get it. Loat year there was nine agriculture teachers it would have been cheaper for the state to have paid their way in college than to support the interachers. If the bonds carry they won't be half paid until they will want that much more for another spree.

—J. F. YOUNGEBLOOD

spree.

J. F. YOUNGBLOOD

NOTE: The exact extent of the tax increase necessary to cover the proposed City-county band issue is difficult to determine. A committee of Innancial experts is at work now, and definite figures will be announced prior to the bond election.—Eds, TER NEWS.

Anti-Balfour Declaration

Anti-Balfour Declaration

CHARLOTTE

IN a recent statement on Palestine which will probably go down in history as the Anti-Balfour declaration, Mr. Bevin, the British Foreign Secretary, asserts that the cause of the Palestinian Arabs has become a matter of keen interest to their 90 million co-religionists in India.

I do not know whether the views expressed by the all-India Moslem League in favor of the Arab claims on Palestines are abared by their 90 million co-religionists in India. But what is certain is that these views cannot be reconciled with the so-called Parkstan Policy pursued by the League with regard to the political future of India. It is well known that the leaders of the League with the world of the Moslem minority, to the rule of a Hindu majority. They have been persistent in their demands for a separate Moslem state in India. Is it not obvious that the dangers of the Moslem minority in India? The recent outbreaks in Cairo and the port of the Moslem minority in India? The recent outbreaks in Cairo and the Declaration of the Moslem minority in India? The recent outbreaks in Cairo and the Moslem league is denying the elementary right of the Moslem league is denying the moral basis of their own political claim in India.

The Digital control of the Moslem minority in Denying the relementary right of the Moslem league is denying the moral basis of their own political claim in India.
