## **Vhat Is** Adequate Air Service?

check of gratitude for services rendered as the years when that ploneering line was sweleping the linear at transport industry hereabouts. But Charlotte's gratitude annot obscure the fact that the time has some for the City to break the absolute inserts at travel monopoly EAL is now shoutly, and understandably, defending. The charlotte Aviation Committee has undertaken the battle, and had and tables which demonstrate the state, and tables which demonstrate the hardequacy of Eastern's present of the charlotte has an and tables which demonstrate the chardequacy of Eastern's present of the charlotte for the charlotte fo

These figures, as the Aviation Committee quickly pointed out, are highly deceptive Apparently Colonel Arnold counted every empty seat leavine Charlotte when he arrived at his figure of 2,175. But were they all available to Charlotte passengers by all available to Charlotte passengers by all available to Charlotte of the Committee—those empty seats also served every clude of the city. A seat leaving Charlotte empty on a north-bound flight, for instance, might very well be reserved for a passenger at Greensboro and would certainly be of littic use to a Charlottean trying to reach Washington.

There are other factors which reduce the affectiveness of Colonel Arnold's argument.

ss of Colonel Arnold's argument.

Thirteen of the 22 daily flights out of Charlotte leave here in the small hours, or arrive at their destination long after dark. What advantage is there in losing a night's sleep to catch a plane for New York at 3 o'clock in the morning when a train, providing a Pullman berth, will put you there at approximately the same time? Who will willingly board a plane to Miami that dumps its passengers at a lonely airport around midnight?

And there is also the seasonal character

around midnight?
And there is also the seasonal character of EAL's business. Empty seats in August by no means guarantee empty seats in December on flights operating between Northern population centers and resort towns in Mami and New Orleans. The air lines make their bixerest profits from long-host manufacture of the space of t

make their biggest profits from some man business, and the spare allocation for midpoints like Charlotte shrinks in direct proportion to the Increasing demand for 
through passage.

There are no figures available, unfortunately, to indicate the number of persons 
who have been unable to obtain seats out 
of Charlotte in the past month. The Aviation Committee believes the number of 
refections even exceeds the 2.400 seats Colroll Arnold claims are scheduled here. Certainly anyone who has tried to obtain a 
reservation lately will agree. Our own most 
recent experience was in August when, 
making a reservation a week in advance, 
we failed to obtain passage on any desirable plane to New York for three consecutive days.

Colonel Arnold cannot understand how 
anybody can say Eastern isn't giving Char-

Colonel Arnold cannot understand how anybody can say Eastern isn't giving Char-lotte adequate service. We, in our turn, can't understand how anybody can call Eastern's service adequate so long as a prospective passenger can't obtain a restrictive vation even when he gives the line a week's

## An Old Suspicion Is Diminished

THE Divorce Mill Case, which was advertised in advance by Ward Blanton as the product of a colossal conspiracy extending from the Department of Justice as the product or a sending from the Department of Justice to the Mecklenburg County Bar Association, turned out to be a very straightforward trial which proved only what every-body knew anyway—that a good many South Carolinians obtain illegal divorces Charlette courts. It was encouraging. outh Carolinians dotain inegal divided in Charlotte courts. It was encouraging, however, for it ended with the conviction of all three principals, despite the fact that one of them pleaded for immunity on the basis of his law license.

The heavy sentences imposed by Judge Armstrong, and the motion that Attorney
there be disbarred made in open court
by Secretary Catinon of the North Carolina Bar, may not put at end to Charhas Bar, may not put at end to Char-lottle's "divorce mill," but they should serve as a warning to those lawyers, honest and otherwise, who have not been too careful the crammining the claims entered by di-vorce-seekers.

There is also reason to be encouraged by the manner in which the North Caro-lina Bar took an active interest in the

case, sending its agents into the county to work with local officials and the SBI in rounding up the evidence presented by the State When any member of the legal profession steps out of line all lawyers are directly and immediately affected, and it is altogether fitting that the Bar Asso-

it is altogether fitting that the Bar Asso-ciation move to clean its own house. Solicitor Whitener also deserves praise for his handling of an extremely difficult to the case. He ignored Blanton's efforts to lead him into strange bypaths, and stuck strictly to the case in hand, forcefully presenting an array of evidence that left the jury no reason to doubt that the accused were guilty as charged. The manner in which he cracked down on missing South Carolina witnesses, having them halled into court to answer to charges of perjury, is also noteworthy, and in sharp contrast to the old days when even defendants answered summons only as they saw if. All told, we would say this case has gone a long way toward restoring public respect

a long way toward restoring public respect for the courts, measurably diminishing the prevailing suspicion that anybody who knows the right people can beat any rap in Mecklenburg County.

# More On Party Loyalty

Editors, THE NEWS:

A MATION of states under a written constitution of seek embodying all the functions and attributes of free local government and yet allogether constitution and the states of the states of the states of the states with the American people. In order to secure such a constitution all powers pertaining to the states were left with the states and the states, while retaining their local power and authority, surrendered the element of sovereignity of the national of the element of sovereignity of the assertion of the element of sovereignity of the several states and the people—a nation supreme in power and function.

In this way, by making the contractions are the states.

In this way, by making the greatest advance in history in the science of government and by establishing the greatest security to liberty for the individual ever known to mankind, America was transformed from a confederation into a nation. As under this constitution and concept national sufficiently is based upon the aggregate will and opinion of the citizens.

based upon the aggregate will and opinion of the citizens. And as co-existent with this form of government each citizen is a civil unit of sovereignty and power, inexorably, in the nature of things, every American inexorably, in the nature of things, every American for political scion. Hence the suffrage, In order to give effect to such a government we in the United States have developed in its greatest perfection party rule, and party responsibility.

By individual action in the precinct meeting; by delegated expression in the country and district conscious. Then the state, conventions. Despite properties of the properties of the country and district conscious. The first has date, convention by primary continuation of the country and district conscious and the man most representative of the party is selected as candidate for the office of President of the United States. He thereby becomes the official head of that party and implement its political properties.

ourceal nead of that party and implement its poll-per causes in Congress, conference with party leaders and as nearly as passible. In face of chara-ing conditions, in conformity with the party plat-form, party policy is declared, is effected, and be-comes the policy of the Administration then in pow-er and of the party which cleeked it. Individual cli-they did not officially intend or in which they did not vote. All citizens who shared in the making of party policy, which means those who did take part with a party, who aspire to a political career, who re-ceive honor or office at the hands of a party, are bound by the acts and policies of that party. It is a covenant.

covenant.

This principle was acted upon by one of the great founders of the Democratic Party when he said. Turn the raseals out. If it is fair to turn a control of the great founders of the Democratic Party when he said. Turn the raseals out. If it is fair to turn a control of the state of the control of the state of the control of the state of the control of the

Senator from North Carolina voted twelve times with the Republicans and AGAINST the Democratic Administration and leadership. Why? Did he believe the Brown of the Senatorial size would undership why and the senatorial size would undership that, a man of senatorial size would undership that, a man of senatorial size would undership that the senatorial size would undership that the senatorial size would undership that the senatorial size would not senatorial size would not be proceed to the senatorial size would not be senatorial size would not senatorial size and the senatorial size which the senatorial size with familiar senatorial size with senatorial size with senatorial size of the senatorial size with size of the senatorial size of the senatori

crait."

Is it any worse in the eyes of Democrats for a Democratic Senator to support for office a "sorry Democrat" than it is for a Democratic Senator to oppose in Congress Democratic measures, a Democratic Administration, and vote with the Republicans?

So It is,
