SATURDAY, DECEMBR 18, 1948

TAX REVALUATION MAY BE SHELVED

LATEST report from East Trade Street, but where the City and County Fathers do business, is that the proposed revaluation of all property in Mecklenburg County will be delayed indefinitely. The reason is the ame one which has been intoned over and over with the monotony of a broken record: they can't decide how the survey is to be paid for mentioned over and over with the monotony of a broken record: they can't decide how the survey is to be paid for mentioned over and over with the monotony of a broken the county and the Commission agreeing that it is budy needed. And no one has raised any serious objection to the cost, a whopping serious objection to the cost, as who serious objection to the cost, as who serious objection to the cost, as whopping serious objection to the cost, as who serious objection to the cost, as we serious object

2328,000.

If the County Commissioners have their way, however, the City of Charlotte would pay, first of all, a flat 2300,00. On top of that, the City would pay 72 per cent of the County's 250,000 of hars, or 314,000. That would make the City's total share \$344,000 while the rural residents would get off with a mere \$55,000. (The cost to the City would per series are taken in January 1.)

The taxpayers have been strangely disin-rested in the whole revaluation matter,

Vause. Area to produce the same amount of exploit these advantages, the project is being shelved, and it may never be brought out again unless public opinion forces some action. It may be that the consolidation survey now in progress will clarify the legal responsibility for tax listing. If so, the taxpayers will have something more than the financial double-talk they're now

schems.

Details of the plan make rather dull reading — like most educational matters—but the over-all project promises interesting things for a region forced to run quick-time to each up with its better-heeled neighbors to the North and West.

quick-time to eaten up with 1st Secter-heeled neighbors to the North and West. Several factors make the program of more than passing interest:

(1) In the first place, many Negro educators in the South agreed with the practical interest of the program of the pr

TV, WE'LL LOVE YOU!

TV, the article reads. Or "video" or some TV, the article reads. Or "video" or some I such term. You are expected to know all about this sort of thing. You know about washing machines and automobiles, you know about airplanes and radios. Why shouldn't you know all about TV or video? It's television, of course. The word comes from the Greek "else-" meaning "far off." The "vision" portion is relatively familiar.

The "tision" portion is relatively familiar. The eitisen crouched alongaide his prewar radio, listening to the snap, crackis, pop, may well consider the name apt. Television appears indeed far off. Visionary, you might say.

The situation is a strange one. Here, in the heart of a thriving industrial area, we beat about in an electronic backwoods. Think of all the disadvantages, how our big city neighbors sneer at us out of the corner of their mouths: "Peasant, rube. Dig city neighbors sneer at us out of the corner of their mouths: "Peasant, rube. Think of it! Never even glimpsed TV! Backward provincial!" And not only are we on the receiving end of insults, we miss — oh, crowning blow! — the point of all those video jokes on radio comedy shows.

shows.

Jokes about the man who stared at the little window in the Bendtx washer for hours before he found out that it wann't a televised version of "Souls at Sea", Jokes about the capitalist who had a television set installed in the back seat of his car and had to take it out because he didn't have room for the bartender and all those bottles.

bottles. But patience, citizens. The information now circulates that Charlotteans will be able to see second-rate re-runs of motion pictures, hashed over vaudeville acts and kitchen demonstrations to their hearts' content next Summer. (Three rahs and a tiger for video or TVI)

Trouble now is that the Federal Communications Commission, which keeps its collective finger on every little molecule of

osone, can't quite determine whether or not television waves bounce. It seems at first that actenitate believed television waves went hurtling off into the wild blue yonder when they passed the horizon; now they aren't sure. Maybe the waves go up a piece and then come down and bounce around. That, they figure, could cause no end of trouble on video screen because it and the trivial of the come down the country of the count

at one time, mayoe.

Think of it, a vaudeville magician pulling a live rabbit out of a pot of chicken cacciatorre being prepared by Mary Margaret McBride or Ma Perkins or whoever it is that gives cooking demonstrations.

But despite all its uncertainties, Charlotteans love TV — or will, if they get half a chance. Come on video, time's a-wastin'.

A Hollywood property man "ages" a sult of clothes in two hours, or six days faster than wearing it coast-to-coast on a bus.—
