Taft-Lewis Wins in Senate

Barden Bill Is Attacked By Lesinski

N. C. Lawmaker Answers Charge
By BARNEY L. LIVINGSTONE
WASHINGTON — (AP) — Deep-seated differences over Federal aid to education erupted in Congress today following a bitter wordy exchange yesterday between Reps. Barden (D-N.C.) and Lesinski (D-Mich.).

Barden countered in a prepared statement with a charge that Lesinski had made "a false statement" unsupported by fact.

After the House returns yesterday the substitute "is dead."

The Senate measure would make available \$200,000,000 a year in grants to assist the states.

Barden's substitute also provides \$5 per pupil but makes other sharp differences.

It provides that the money may be spent only for "current expenditures" especially prohibiting expenditures for transportation and health and welfare activities.

Jane Out-Sweaters Lana In Photographers' Eyes

JANE GREER... first of the year.

Although it was ten years ago that Lana Turner was crowned the "Sweater Girl of 1949" in a photo finish.

Her 71-year-old elder statesman said the need for such a plan never was "greater" because "the cold war is as total as actual war."

Burch's text was prepared for graduating engineers commemorating the 25th anniversary of the Industrial College of the Armed Forces.

"Additional delay," he warned, "is a needless gamble with out-national security—a needless invitation to disaster."

Test Runs To Be Made Over Tracks

Soviets Resume Station Control

By RICHARD K. O'MALLEY
BERLIN — (AP) — Berlin's 83-day rail tieup came to an end today as strikers went back to their jobs and the Soviet-directed management resumed control of the West Berlin stations.

Traffic did not resume immediately. The management prepared to direct test runs over the tracks which will begin this afternoon.

The four occupation powers meanwhile are ready for another try at breaking Germany's economic blockade.

The meeting adjourned after 65 minutes of discussion of committee machinery needed. Another meeting is scheduled for Tuesday.

At the big Berlin sea station where most of the strike violence occurred, Western U.S. union men trudged stily back to their jobs.

They worked alongside of men who did not go with them when they struck the full-time railroad police and strikers.

HITTING THE HIGH NOTES

Mountain people took their folk ballads and fiddle tunes to the Crawford family hit in the air.

They said privately that they might go for it if it could be accomplished without legal risk.

Publicly, the operators and Lewis would not even discuss the plan. The operators planned to hand their formal answer to Lewis when the bargaining conference resumes here this afternoon.

There were reports that some sort of a counter-proposal would be offered by the busy-browed union leader.

Meanwhile, hope for avoiding a strike in mines of the Southern Coal Producers Association faded rapidly.

Injunctions And Plant Seizure Kept

Truman Forces Suffer Defeat

WASHINGTON — (AP) — The Senate today approved the plan of Sen. Taft (R-Ohio) for Government to use both injunctions and plant seizure in dealing with national emergency strikes.

The vote was 56 to 40. It broke this proposal into the Truman Administration's bill at the climax of a bitter scrap over the plan to use both injunctions and plant seizure.

The acceptance of the Taft plan altered the Administration's bill still further toward the thrust of the Taft plan.

The preliminary to acceptance of the Taft plan was the vote on the Truman Administration's bill.

After the preliminary vote on the way, Sen. Taft (R-Mo.) announced his support of the Taft plan.

Both sides went to extraordinary efforts to get every vote they could for the Taft plan.

Senators supporting it contended the President has "unwarranted powers to act when the national health and safety are threatened."

Mobilization Plan Lack Hit By Baruch

WASHINGTON — (AP) — Bernard Baruch today attacked the mobilization plan to take today to Berlin to have ready a stand-by for total mobilization for a possible new war.

"The 71-year-old elder statesman said the need for such a plan never was 'greater' because 'the cold war is as total as actual war.'"

Burch's text was prepared for graduating engineers commemorating the 25th anniversary of the Industrial College of the Armed Forces.

"Additional delay," he warned, "is a needless gamble with out-national security—a needless invitation to disaster."

Northern, Western Groups Cool

Rejection Of Lewis Plan Seen

By HAROLD W. WARD
WHITE SULPHUR SPRINGS, W. Va. — (AP) — Coal operators of the north and west today cooled their hopes to reject today John L. Lewis' offer to forego a strike next month in return for a three-day work week.

The operators took a vote on the question yesterday in a private session in a hotel in Pittsburgh.

There was little doubt of their answer — that they could not agree because of the legal risks they fear that if they work the union in limiting the work week, they will run the chance of government action under the anti-trust laws, on the ground it would restrain trade.

But many operators here and elsewhere seemed to like the idea.

GOP Official Quits With Blast At Chairman Scott

WASHINGTON — (AP) — Vice-Chairman Thomas E. Coleman quit the Republican Strategy Committee today with a blast at GOP National Chairman Hugh D. Scott Jr. for failure to keep the group "moving alive."

"The responsibility must be yours," the vice-chairman said.

Coleman's step was a blow to party "harmony" that Scott has been publicly stressing since he was elected to the post of confidence and faith in a fourth infatuation with the GOP National Committee in Omaha.

Laundry Dye Blamed For Deaths Of Four Babies

LAKE WALES, Fla. — (AP) — A strange illness that turned newborn babies a bluish tint at times caused the death of a fourth infant today, one of the babies still under treatment.

Mrs. Bree Kelly, superintendent of Lake Wales Hospital, said doctors believe the attacks were caused by poisoning from a laundry dye.

Closing Arguments Presented

Cases For & Against Coplon Stated

By ASSOCIATED PRESS
Closing arguments in Judith Coplon's spy trial brought sharply conflicting testimony today.

Judge Albert L. Reves gave each side two hours for final arguments. The Government was due to have the last word this afternoon. The case is expected to go to the jury tomorrow.

Scott had called for the view into today for the first time since its organization April 24. Coleman said in his letter to Scott that he believes the strategy group "has merit because it combines Republican men and women experienced in politics on state and national levels into a small enough group to be effective."
