## Youth Starvation Misses Death In Flooded Monroe

Will Order  
Meters, Ban  
On Rentals  
35-Cent Minimum  
Fare To Be Set

By DICK YOUNG  
Charlotte News Staff Writer  
Agreement to enforce all provisions of the taxicab ordinance and to fix rates for fare meters was reached by the City Council today.

The Council will adopt the necessary amendments to put the law into effect at the specified date at next Wednesday's session.

City Attorney John D. Shaw told taxicab operators, their attorneys and a crowded audience that the Council had agreed to adopt next Wednesday:

1. A resolution postponing until midnight Sept. 30 enforcement of the cab ordinance provision about rental of cabs to individuals.
2. An amendment to the ordinance fixing the meter fare at 35 cents for the first mile and a half and 10 cents for each additional half mile.
3. The new fare would go into effect on September 10.

The Council then nullified contemplated action of the Red Top and Victory Cab Co. to appeal to the State Highway Patrol against why their franchise should not be revoked for alleged violations of the cab ordinance.

Later, as the No. 1 item on the agenda, the City Council announced that it would consider any proposal to prohibit the other proposals will be formally adopted at next Wednesday's session.

Next Wednesday's actions are proposed to end the present discussion although the initial reaction of Keith Beatty, owner of the Red Top Co. was a vocal expression, "We can't do it. Poor people can't afford to pay those rates and we won't have any business."

As a consequence Mr. Beatty said, "I can't see a \$400,000 building under those conditions." He has announced plans for construction of a new terminal at Broadway and Third.

Paul R. Evin, attorney for Red Top, posed the question of rate adjustment. If the law is enforced, he said, "We will have to make adjustments. We will have to work a hard battle on any one and are interested in doing this for the greatest benefit of the community."

Decision on the contemplated action by the Council will be made at the private session that preceded the public session where a map showing the approximate distances for varying fares under the meter system. The map showed that practically all of the city, except on the east and southeast, can be reached from Independence Square for 75 cents, which is the current fare for the newly annexed perimeter.

The 20-cent fare would cover the territory from the Square to the following locations: 20th St. and E. 10th St., 21st St. and E. 11th St., 22nd St. and E. 12th St., 23rd St. and E. 13th St., 24th St.
