You Poor Kid. All Those Unruly Sheep To Look After

RFC To Be Subject of More Congressional Investigation

By MARQUIS CHILDS

WASHINGTON (AP)—It would not be possible under present law. Nevertheless this seems to be the attitude of the RFC...

SEN. J. WILLIAM FULLIGHT of Arkansas intends shortly to introduce a bill to amend the operation of the Reconstruction Finance Corp. Fullight suspects that the RFC is a "black box"...

This new inquiry will take on added importance in the light of the RFC's record in carrying out its mandate...

SEN. FULLIGHT said the RFC would become a "black box" if it were not kept under close supervision...

to the Fair Deal. No one expects him to vote against the Fair Deal...

There has been much discussion about what to do with Sugaw Creek and its odors and disgusting appearance...

Each man has not yet announced for the nomination. The trend in Mecklenburg is to become, and it will become under favorable circumstances in the near future...

(a) Through traffic from the north for Albemarle, Monroe, Waxhaw, etc. would be diverted from Tryon Street over the Boulevard...

It is a pleasure to work with you and your staff through the year and we are especially grateful at this time.

(b) Odors would be confined, and the present sewage treatment plant would be expanded...

A BACKWARD STEP

WHEN the House of Representatives voted last year to curtail the vast and often-abused power of its Rules Committee, it was generally hailed as a progressive move designed to insure the passage of democratic programs in Congress...

The committee's power stemmed from the system whereby all bills cleared by other Congressional committees had to go to the Rules Committee for approval before they reached the floor...

A by-passing procedure was adopted by the House in 1949 which provided a way for such legislation to be removed from the committee after 21 days...

Now an abortive effort has been launched to wipe out his by-passing procedure and restore to the committee its previous power...

The immediate objective is to block much of the Administration's Fair Deal program, especially the Fair Employment Practices Act...

Such a backward step can not be condoned, however meritorious the objective. We need at least one national forum where all major legislation can be debated...

The Southern Baptist Convention last year decided to establish a new seminary in the West and one in the East...

The Chamber of Commerce has taken the lead in preparing a brief setting forth Charlotte's many advantages...

The fact that Charlotte is the center of a vast Baptist population and that North Carolina has more than 600,000 Baptists...

Charlotte's historic position as a church center also will be an important factor in the City's presentation...

REDEVELOPMENT GAINS MOMENTUM

IT IS highly gratifying to THE NEWS that urban redevelopment has suddenly gained great momentum in North Carolina...

IN DEFENSE OF LOITERING

IF liberty and the pursuit of happiness—and the freedom to "loaf" when time and economic permit: we have the right to be self-evident truths and are somewhat dismayed at plans now afoot in the Queen City to tighten up the local ordinance against loitering...

Letting, say the City Solicitor, the City Manager and the City Attorney, means to stand about or move slowly about, or to spend time idling, among other things...

Who we understand City Solicitor Lane's notion is this new action: it is true that there are many fine streets and that Lane is correct in wanting to remove them...

But there are also gentle souls among the populace who are pleased to "loiter" in urban street corners for no other purpose than observation of the activities of a species of animal known as homo sapiens...

90 VS. 50 VS. 23 PER CENT

THE South's almost 4-to-1 voluntary vote in favor of rigid cotton planting controls no doubt will be hailed in Washington as an unambiguous answer to many farm organization charges that American farmers do not want the light controls implied in nearly all Federal support programs...
