TUESDAY, FEBRUARY 14, 1950

person had crossed the threshold of their Charleston home since her husband ruled in 1946 that Negroes have the right to vote in S. C. Democratic primaries. She would get a good deal more public sympathy, however, if she showed herself

ALIBI FOR PREJUDICE

EVEN if you take the most charitable view of Mrs. Wattes Waring, and assume that she is a woman of intellectual honesty and good intentions, you cannot but regret the potential harm that may result from her outbursts.

but regret the potential harm that may re, sult from her outburist.

She made the newspapers several weeks
ago with an address before the Charleston
Negro Toung Women's Christian Association in which she described Southern
white as "full of pride and complacency,
introverted, morally week and flow."

Last week-end, interviewed on a national
radio program, she went turther and (1)
urged intermarriage of whites and Negross, (2) charged that South Carolina is
a "replica of Russia," and among other
things (3) damned the Southern press for
having "sunk below the level of the peojole."

She added that the South needs a "shock treatment", and that she proposes to con-

STRONG DELEGATION NEEDED NEEDED ity interest. And we mention the subjectmerely by way of introducing a few commenta on the local legislative situation. So far, Merklenburg has three strong candidates in the field. Harvey Mortis has announced for the State Benator job, and James B. Vogler and Robert Lassiter Jr. have said they would seek two of the four Nouse seats. All of these men have a rich background of General Assembly if they win their primary battles. There has been speculation about other candidates, and several of the persons mentioned are men of ability. The General Assembly assignment is not a pleasurable one. The work is hard and the pay is a mere pittance. But it offers a great opportunity for valuable service to County and State, and it is the hope of this newspaper that Mecklenburg County for a great opportunity for valuable service to from a full sist of qualified candidates the strongest possible delegation.

FOR many years the eastern counties of North Carolina have had a voice in General Assembly affairs out of proportion to their population and tax contributions. They have done this by choosing able jes-tialors and sending them back to Raleigh term affar they

Although the General Assembly's senior-y rules are not so rigid as those in the % 5. Congress, for example, this combina-tion of ability and long experience has enabled eastern representatives to influ-ence strongly the character of legisla-

tion. There has never been the same com-munity of interest among Piedmont and wastern North Carolina counties. Raleigh seems farther away than Washington, and the events which take place there do not get the same attention as they do in eastern Carolina. We see not quite sure why this is true, We see not quite sure why this is true,

ern Carolina.

We are not quite sure why this is true,

minority interest together than a major-

THE HEART—A DOUBLE SYMBOL

THIS is quite a day for that plump. I pointed symbol: the heart. For centuries now lowers have observed this date. Peb. 14, as an occasion for expressing their affection with Valentines. The substitution of the substitution of

sentiment—will find their way into al-most every home today. It was wise of the American Heart As-sociation to choose this week for the hig push in its February campaign to raise \$5,000,000. The money will be used to help needy heart patients and for research toward new techniques for treating heart disease.

disease.

Perhaps the millions of hearts that will be seen by people all over the nation will call to their attention the tremendous importance of that vital organ.

Heart diseases are responsible for one of every three deaths in the U. S.; rheumatic fever and rheumatic heart disease lay waste the youth of the nation.

Scientists don't yet know the underlying causes of the diseases, but new drugs and new surcical procedures are being put to use in that field. The procram of research and education devised by the American Heart Association promises much toward prevention and cure within the lifetime of many of us

This program can be continued only if public support for research and expanded cardiac programs in all communities is forthcoming.

You may save your own life by con-tributing to the campaign during this National Heart Week.

Actually, Wheaton's miracle isn't un-usual, except for the form it took

waste, except for the form it took.

Was there ever a time when man had so little to attach himself to? Was there ever a time when man seemed to have aroused more fury from the elements of the earth?

Was there ever a time when the firm haven of religion was more attractive to the mass of the people?

The Wheaton students felt the uncer-

use mass of the people?

The Wheaton students felt the uncertainty of their lives, of our lives. Though only a few of them care to explain their motivation, they were all moved by a clearly definable motive: the need for faith in a benevolent superior being in an age of uncertainty.

MOTIVATION OF THE TIMES To a nation accustomed to think of its college crowd as party-trotters in fast con-vertibles, the Wheaton story is puzzling.

NO ONE at Wheaton College in Illinois has been able to explain why 1,500 students called a halt to classes and apparently everything else in order to "testify" at an evangelical meeting in the school's

chapel.

No one has been able to explain how the spontaneous mass confession which began Feb. 8 continued for more than 24 hours with student after student rising to his feet to confess his sins.

et to confess his sins.

Now and then during the long stream (confessions the students called a halt, wheet the windows to air the chapel and mymms. Even the teachers at the lib-ail arts college chipped in. The school has a graduate theology colge but it is not a "Bible College"—and a students who came to the confession rent all theology students.
