QUIBBLING OVER DETAILS

QUIBBLING OVER DETAILS

If will be especially tragic if the proposed fact-finding report on the Duke-BRT bus dispute is blocked at this late stage by petty disagreement over procedural matters.

Much has been accomplished in the past week's truce. The company and the union have generally agreed on all provisions of the fact-finding proposal except the method of appointing the panel members.

Mayor Shaw's original suggestion was that the chairmen of the N. C. Public Utilities Commission and the S. C. Public Exervice Commission each appoint one board member. The two board members would, in turn, select the third member. This proposal was accepted by the company, it was rejected by the company. It was rejected by the company in the dependent of the company in the the method of appointing the panel members.

Mayor Shaw's original suggestion was that the chairmen of the N. C. Public Board of the N. C. Public State of the N. C. Public St

the main issue.

Perhaps the mayors who are meeting in Charlotte today will unite behind one of the three suggestions, or come up with an entirely new one. We hope so, for it is utterly unsupportable that a breakdown in these negotiations should occur over such a minor detail.

to work from doing so.

This strike has made mockery of labor
union responsibility.

The UMW members have flouted the authority of their own national officials, and
of the national government.

They have laughed at contract obligationa by shutting down those independent
mines whose owners had already signed
up new contracts on terms dictated by
Mr. Levis.

They have organized riot and goon
misses.

They have destroyed property, committed assault and mayhem, and senerally
violated the regular criminal laws of the
land.

THE COAL STRIKE ENDS In any event, the agreement on contract terms, welcome as it is, simply puts off until some future date a national decision contracts as the state of the state o

AFTER many months of playing the orange of the control of the cont

called for an immedia report on conrace regolation.

Then he sent a message to Capitol Hill,
asking authority for Pederal seture of the
mines as a last effort to get the mines
back into operation.

That did the trick. In the span of a few
hours, John L. Lewis and representatives
of more than half the soft coal producers
suddenly became "able and wilting" to
suddenly became "able and wilting" to
suddenly became "able and wilting" to
up some ground; at. The producers gave
up some ground; at.

What brought things to a head in a
hurry was the unanticipated decision by
Judge Keech Thursday that the Uskw and
its officers were not guilty of contempt
of court, because the Justice Department
hand served to the provide to and
hand been relytication and the Congress
had been relytication and the

hands. Fresident Tuman started casting about for another, about for another. Whether seizure would have improved the atmosphere for sincere collective barragaining is a matter of speculation now. There is every reason to believe that the Taft-Hartley injunction threat was a deterent to any agreement, in that it stiffened the resistance of the producers and angreed the miners. And there is reason to believe that seizure and government-faced wages would have stiffered the will of the miners and angered the producers.

violated the regular criminal laws of the land. And while they were doing all this, many thousands of other workers were laid off their jobs, and many millions of innecent Americans were beginning to experience acute discomfort and hardship. This great coal strike, which has lasted intermittently since last July, has sounded the death knell for the Taft-Hartley Act. Mr. Truman's repeated denunciation of the law encouraged the UMw members to ignate the weather of the think the was finally forced to use Taft-Hartley, it was totally ineffectual. The President has accomplished, by propagassids and by delay, what he could consider the property of the property of the could be supplied to the property of the think of Lab Lardey. week when Harry Westcott was sworn in to replace Robert Grady Johnson as a member of the Commission, the Governor really cut loace in his best Haw River dislect:

"It burns my soul to see you dragging your feet on this thing." he told the stunned Commissioners, adding that "You owe it to the people and to yourselves to turn in your resignations if you feel you cannot deliver."

The Governor's propensity for tongue-lashings is too well known to need mentioning here. What is unusual about this particular cussing-out is that four of the present five Commissioners have been appointed or reappointed by Mr. Scott.

Prost. The Governor's proposition of the present five Commissioners have been appointed or reappointed by Mr. Scott.

"Obstructionis," tactle of this irritation at "obstructionis," tactle of the commissioners in the Governor hold cliented the first of the commissioners in the Governor hold himself partly to blame?

From The Greenville (Miss.) Delta Democrat-Times

HOW COME AN AA CHAPTER?

JUST to toss a few more coals on the al-ready amouldering fire, we'd like to ask for an honest answer to a question which plagues us. We don't understand how it is that Greenville has a chapter of Al-

It is that Greenvine has a chapter of Ai-coholics Anonymous.

This, it seems to us, is silly.

Everyone knows that Greenville is located in dry Mississippi, in a dry state. There is no liquor, No liquor, therefore there can hardily be alcoholics. How come the local chapter?

hapter?

Maybe it is that all the alcoholics have

moved into Greenville from other states. moved into Greenville from other states.

That would provide part of the answer except that it seems to us that if they presently live in a dry state, there would be no need for the AA chapter. After all, there is no temptation in our desert.

But only last Sunday, a Dallas speaker talked to a large group in Greenville, all interested in a problem of alcoholism. We just don't understand why all the interest in a problem that couldn't possibly apply to our region.
