The AFL asked for a tax to net not less than \$5 to \$6 billion. The CIO called for a rate on "between 85 and 87 percent."

### Gains Made By Other UN Forces

SEUL (AP)—An American tank column blasted its way through a Red trap in a far North Korean mountain range today. Then it rolled northward in a blazing bid to reach the Manchurian border in four days.

Communist opened up on the 11th Regiment of the 1st Division the hillside as the tanks rumbled along a narrow road in northeast Korea. A three-hour battle ended with 125 Communists dead on the hills and Marine Corsairs rocketing the fleeing remnants.

This was about 23 miles south of the Manchurian frontier, commander of the column said his force would reach the border early next week and it fired from Manchuria.

OTHER UNITS GAIN  
Elsewhere on the front: The South Korean Capital Division cleared 3,000 to 4,000 yards forward on the extreme northeast sector.

U. S. Marines pushed mountains around Changjin reservoir in the North Korean mountains. Patrols of the U. S. 24th Division roamed, unopposed more than six miles into North Korea.

American troops heading down the Korean peninsula reported inflicting the biggest defeat of any battle action this week. Red riders retreated by setting a minefield and blowing up a dam. More than 8,000 villagers fled.

Along most of the front Communist forces were being driven back. But they were building up forces in the mountains. A spokesman estimated 100,000 Reds are available in the northwest—17th, 20th and 26th Divisions. American artillery captured by Chinese Communists from Chang Kai-shek's Nationalist army.

Dellegates today took a cautious attitude. They are waiting for the answer to this question: Will the Security Council cannot simply hold its arms in the face of Chinese intervention, the majority view seemed to be that for the moment, a policy of watchful waiting is the most realistic and useful one.

It was learned that not even the U. S. will press for an immediate end to the Korean war. The American way of doing things is to let the alternative might easily touch off World War III.
