BETTER LOYALTY PROGRAM NEEDED

E ACH PASSING WEEK makes it ever clearer that one of President-elect Eisenhower's first and most important tasks is to have the whole U. S. logstly program reviewed by a non-partian group of eminent Americans to eliminate the many imperfections in the structure.

But nowhere in the interview does 'Mroris say whether or not the State Department made such loyalty reports. Now the report of a Federal grand jury which has been investigating subversity.

ni its many months of work, the McCarran in its many months of work, the McCarran internal security subcommittee never an-swered the key question—whether or not the State Department, the Executive Office, or any responsible U. S. agency ever sade Secretary-General Trype Lie to obtain U. S. scentily. Secretary-General Trype Lie to obtain U.S. security clearance, on every American who applied for a U.N. job. That, it seems to us, its important in fixing responsibility for the presence on the U.N. **staff of any subversives: If no such request was ever made to Mr. Lie, he can hardly be held responsible if American Communists have infilizated the U.N. since he has utterly nodlegal authority to decide whether any American is loyal or not.

In a lengthy question-answer interview with the editors of U. S. News & World Report, Robert Morris, counsel for the sub-committee, seems to relieve Mr. Lie of any blame. Asked if the U. S. Government has any control over the assignment of individuals to fill the American quota of U. N. jobs, Mr. Morris replied:

That is a question on which the sub-"That is a question on which the sub-committee has not yet potten all the facts. It It is known that the U.N. asks the State to Department for loyally reports on all U. S. citizens working or applying for work at the U.N. The clear implication of this would be that the U.N. before it hires an American citizen, tries to obtain the re-

In one piece, the report says that in some instances 'the State Department did supply adverse reports against u. S. citizen in the U. N., but the U. N., falled to take action." Yet a State Department statement says that of 20 persons fired or suspended by Secretary-General Lie. 24 had been given: an unlavorable loyalty report.

Where does that leave us: We den't know. This much is certain. Understanding Asia By Carlos P. Romulo

(From a speech delivered before the Asia Institute, New York).

THE Marco Polo tradition of looking at Asia and its peoples has run its course. Equally out-moded is the habit of regarding Asia merely as a source of wealth and as an outpost of power for others. But nove dangerous han either is the more recreat attitude of regarding Asia as a poor relation at the banquesting table of the West.

WE HAVE spent a good deal of time the last few days trying to defect some significance in the formation of a new selfact of the control of th

To understand Asia, it is necessary, first of all, to realize that many of its problems will not yield to pat and eary solutions. One such solution is smbodied in the common notion that Asia must somehow be sayed. Saved from Communism. we are told. But saved for what ends? In whose interest? And by what measure.

To these questions we have so far no clear answers. It is not wholly certain that it is pro- possed to save Asia for freedom. It is not entirely clear whether it is meant to save Asia in the interest of its own peoples. Nor is it unmistakably plain that the intention is to save Asia by means other than military.

Drew Pearson's Rhee's Life Spent Fighting For Koreans Merry-Go-Round

POLITICS is not supposed to be on the agenda of General Eisenhower's Korean' trip. But the first person he will meet in Korea is garded, cantankrous President Syngman Rhee, here to millions, despot to a few, and the man who has kept the light of Korean independence burning for half a century. Ruse has seen to it, well us advance of the President-letty witil, that he is put on the political hot spot. For Rhee has told the people of Korea that Eisenhower has comp to liberate their country.
