

THE CHARLOTTE NEWS

THOMAS L. ROBINSON... J. E. DOWD... C. A. GRIFFITH... C. A. MCKNIGHT...

THURSDAY, MARCH 20, 1952

TB HOSPITALS—A STATE RESPONSIBILITY.

SUPT. H. L. SEAY, County Chairman said... McAden, County Attorney Carl Tuller...

Should Mecklenburg County plan to stay in the business of operating a tuberculosis sanatorium? The answer is not easily found...

THE THEORY does not work out in practice, however. The State will have a total of 1,540 beds while the country has 1,650...

It is by design, rather than coincidence, that the county hospitals are found among the more prosperous counties...

Yet this poses an ironical burden of taxation on residents of counties who provide their own TB hospitals...

NEW HAMPSHIRE... NOW MINNESOTA

IT HAS BEEN the habit of Taft supporters to boast of the fact that they were showing a strong popular preference for General Eisenhower...

This little thesis was challenged first in New Hampshire. Eisenhower whipped Taft soundly by remote control...

Now comes the Minnesota primary, with the amazingly strong showing of General Eisenhower in an uneven race with many opponents...

NOT SO NEWSWORTHY AFTER ALL

THE fact that Taft backers "controlled" the N. C. State Republican convention has Tuesday been treated as big news...

Control of the convention by Taftmen was a foregone conclusion. The only interesting question was how completely they would control it...

With so many delegates uncommitted and July still so far off, no one can say with certainty how many votes Taft will get from North Carolina...

WORDS ON WEATHER

BY THE TIME this appears Wiley Sims may be reminding us of another surprise which the Piedmont Carolina March weather has played on us...

The story is told of the Miami Chamber of Commerce spokesman who assured some visitor caught in inclement weather: "Just wait a minute and the weather will change."

Wrongly or not, Mark Twain is credited with the statement that everybody talks about the weather, yet nobody does anything about it.

Like's Return Would Create Bad Precedent

By MARQUIS CHILDS

WASHINGTON. The Senate Foreign Relations Committee has acted wisely in side-tracking the proposal to summon General Dwight D. Eisenhower from Paris to testify on the foreign aid program...

But for an almost equally important reason Eisenhower should not be summoned by the Congress in his job as Supreme Commander of the North Atlantic...

The question of continuing the order, the question posed at the outset of this editorial, is whether the Hunterville hospital is structurally dangerous...

There is no more reason for Mecklenburg County to operate TB hospitals than there is for it to run a mental hospital...

It is for us to decide, and we would encourage the County Commissioners to seek their advice before they make any use of money on the Hunterville hospital.

It is for us to decide, and we would encourage the County Commissioners to seek their advice before they make any use of money on the Hunterville hospital.

Conceivably Eisenhower's appointment to the post of ambassador would have a strong plus for the aid program... But, no matter what testifies, could will be made. This is a political reality that Eisenhower's backers must take into account...

That was why the heat was put on Nebraska's newly-appointed Sen. Flood. Since he is not running for re-election, it had nothing to do with the GOP leadership...

Senate Committee Hearings

SENATE COMMITTEE HEARINGS

HE LOOKS OVER THE MEMORANDUM PORT...

Review Of The Record

How America Got Into Korean War

(An Editorial From The Louisville Courier-Journal)

TWO RECENT speeches by United States Senators on Monday, Feb. 10, 1952, reminded me of a speech by the City Club Forum in Cleveland...

The President sent the Army shooting into Korea a full 36 hours before the U. N. could exercise its world-organization authority...

Distortion And Nonsense

NOW THE SATURDAY EVENING POST cannot be charged with bias in favor of the Truman Administration. Realizing, however, the historical importance of an accurate recording...

Like more tangible commodities, prestige is sellable. General Eisenhower has prestige in the country in overflowing measure...

Drew Pearson's Merry-Go-Round

TWO Capitol cloak-roomers recently have illustrated why the public gets disillusioned over the double-morality standard of Congress.

That was why the heat was put on Nebraska's newly-appointed Sen. Flood. Since he is not running for re-election, it had nothing to do with the GOP leadership...

West Still Divided On Egypt Policy

By THE ALSOP'S

A sudden surface calm now reigns in Egypt. The past few months of calm reigned in Iran a little more than a year ago...

For the first time, the powerful West is in a position to have its opinion become openly influential. Farouk and his able, honest, well-meaning...

There are various reasons why nothing is done. Farouk, fearful of the reaction of his Arab enemies, fears to permit Hillary to enter into negotiations...

An Act Of Leadership

THE chronology in itself is too long for inclusion here. At any rate, after a long and searching meeting in defense and State Department...

The British Foreign Office, moreover, is under serious pressure from the Conservative party's own back-benchers to "stand firm" against the Egyptians...

Quote, Unquote

"THE UNITED NATIONS has the world by the tail," asserts a columnist. We are reminded of the story of a boy who had a cat by the tail...

Hot Potato

THIS was enough for Senator Ferguson of Michigan. He promptly dropped the probe of his fellow member of the Senate club.

However, the charges made by Senator Thomas against Ferguson never have been proved, just as Ferguson's own in-law in the Ferguson family had received presents of fur coats.

There are various reasons why nothing is done. Farouk, fearful of the reaction of his Arab enemies, fears to permit Hillary to enter into negotiations...
