WE WONDER ABOUT MCGRANERY

THE American people: we feer, will time they have another political back as a construction of the people of the pe

country". After all, he told his inquisitors, "I think we are all against ain here, gentlemen."
What he may have meant is that he will co-operate with Senators McGrarm, The Nevadan had reservations as the Nevadan had reservations as the Nevadan had reservation as the Nevadan had reservation as sometimes, and the Nevadan had reservation as the Nevadan had reserved as the Nevadan had reserved had reserved as the Nevadan had reserved had

Mr. McGranery hardly attempted to an-

swer Mr. Difworth, except to point out that the latter was a member of Americans for Democratic Action. The thought that they were getting testimony from a member of the ADA, a liberal, anti-Communist orga-ization including a number of Congressmen as members, apparently enraged Sanator K-Carryan and some of his colleagues, who forthwith denounced Mr. Dilworth as prob-ably subversive.

McCarran ano some own because, and forthwith denounced Mr. Dilmorth as probably subversive.

There were other charges, raised against Mr. McGranery, which raise some question as to his fitness for the nation's No. 1 legal position, such as one of his rulings denying right of counsel to a defendant in a crisinal case. Yet, as this evidence was produced, Senator McCarran's stitude changed from one of extreme reservation to open embrace, and by the time the nomination reached the Senate floor Senator McCarran was predicting a great administration for

embrace, and by the time the nomination reached the Senate floor Senate of McCarran was predicting a great administration for this "honest, sincere, God-fearing official" and defending him in detail.

This could mean thay Senator McCarran has worked out a deal with Mr. McGranery similar to the one the Senator made with the Attorney General McCrath. Senator McCarran, who seems to have an almost functical desire to control the Justice Department, by this deal with Mr. McGrath became the only Senator who had full access to FBI files. The establishment of a similar agreement could have decided Senator McCarran in favor of the new Attorney General. If Mr. McGranery does really intend to relean out some deadwood, out of sincere desire or because of political motivation, Bell Des if for a rough time. On patient legal teachers with the senator of the new Attorney General teachers are such time. The properties of the properties of the properties of the properties for considerable improvement in the Justice Department, at least before January, are dim.

It was a distressing display by the House.
The issue raised by the AMA was entirely false. The Gevernment, as the insurer, has the full right to lay down the rules that would govern applications for premium relief by disabled persons, the same right that a private insurance company exercises. To call this "secialized medicine", is to abuse

The House—and the AMA—merit the strongest possible rebuke from the American people for this hand-in-hand conspiracy to defeat a worthy piece of legislation on entirely false grounds.

Obviously the board could do nothing about dams already under construction. but it reversed its position on the projects in the planning stage, declaring itself against "all Federal expeditures in this area or elsewhere, save only those designed to promute national defense and to furnish necessary governmental services."

Light is breaking through the clouds in TVA land. Maybe there is some hope for the taxpayers in other parts of the country.

"It just is," admitted the old man.
