And those special interests, he might have added, are not always the recognized lobby groups. Frequently local Chambers of Commerce, usually critical of Federal spending, join in wholehartely when there is a chance to get some new Federal project for their

locality.

An economy-minded Administration, be it
Demorat or Republican, can hold down
budget requests if it chooses. And it frequently is better able to resist pressure from
communities and districts than are individual

NOW IT'S THE TALKATHON

TV IS NOT the only new force shaping this year's election. Now comes the Radio Talkathan, a candidate's endurance contest which gives the voters insight into the man's breakfast menu and sleeping habits, as well as his political views.

test which gives the voters insight into the man's breakfast menu and sleeping habits, as well as his pollicial views.

In 1996 Governor Dewey put in a long stint before the TV camera just before election day, answering questions phoned in. The fact that he is a human fellow rather than an efficient and well-olled machine, finally got across to the voters when he and the missus talked about their kids and running the mansion in Albany. This last-minute projection into the living room was generally considered the key factor in his re-election.

This year a group of enterprising radio and advertising men down in Florida have developed the talkathon—so far limited to radio—and furnish candidates a bundle of services. There are advance men, publicity men. floor managers, production directors. Radio Talkathon—there were corportified the title-hires telephone crews, local and long distable—the control of the contr

Governor Stevenson, who has the facility for packing a storehouse of ideas and philosophy into a 2,000-word speech, will care for the technique. But—and this will make both of them ponder—ti appears to be a vole-getter. Personally, we'll take a solid 15-minute political speech, then switch to Groucho or Young Doctor Valone if we feel like entertainment or trvia. The fact that a candidate likes his eggs over light is not really important. But when he tells voters in his own voice that he eats ham 'n eggs, likes cowboy movies and reads biography, they are reassured that he is one of them. The candidate and voters are then in tune—and the reasured that we is one of them. The candidate and voters are then in tune—and the public says "I'll vote for that man." So get set for a lot of buncombe—before element—before with meaning the probably know more irrelevant information about candidates than we have any use for.

The states are encouraged to enter into such agreements with the Attorney General since, if they do, they will receive financial assistance for the use of their election facilities and services.

These agreements would provide for a payment which is limited to not more than 20 cents for each vote cast in a Presidential-preference primary. The Attorney General would be given the responsibility for carrying the bills provisions into effect. In cooperation with the states, he could make such determinations as qualifying deadlines, primary dates, terms of agreements with the states, how binding the primaries are to be upon the delegates, etc.
