WILSON STORM

Sen. Smith Warns That U. S. Aid Not Limitless

By LYNN HEINZLERING
BEN, Switzerland (U.S. Sen. Willis Smith (D-N.C.) told political leaders of 23 countries here today that American aid to the free world is not limitless.

"I believe the people here ought to know what we have economic problems and that we have a tremendous debt," Smith told some 350 delegates to the conference of the Interparliamentary Union.

"He said more than 80 per cent of the United States' budget for the past two years was devoted to 'items of foreign aid and defense.' He said the American people 'wished to play their part, but we must take to the attention of every one of you that there is a limit to the part we can play.'"

"It is not the United States against Russia," Smith said. "It is the free world against slavery. It is freedom against tyranny. I welcome to the side of freedom people of every nation. But may I say that all over Europe I find a tendency to be too nationalistic."

The senator said he had noted this nationalistic tendency particularly in countries where there are refugees. Many of these refugees cannot find jobs, he said, because as foreign nationals they are unable to obtain work permits.

He has been on a tour investigating the refugee problem. He made a particular plea in the Gaza strip under conditions he described as inhuman.

The senator expressed his pleasure at being in Switzerland.

New Rate Schedule Asks 10-Cent Fare

RALEIGH (AP)—The Duke Power Company moved today to boost its bus fares in five cities—Charlotte, Durham, Salisbury, Winston-Salem and Greensboro.

The company filed a new rate schedule with the State Utilities commission under which ride tokens, which sell at three for 25 cents, would be eliminated.

This would leave a straight 10-cent cash fare in effect in the five cities except for school children for whom the fare is four ride tickets for 25 cents and which Duke did not ask to be changed.

The new rates will become effective on Oct. 1 unless the commission orders the bus suspended pending holding of a public hearing. Usually the commission orders a hearing in such cases.

The Duke Company got its last bus fare increase on Aug. 12, 1949.

Witness Trouble Blamed For Failure In Case

WASHINGTON (AP)—A Justice Department attorney testified today that one reason the Government never prosecuted a fraud charge against Norman E. Miller and Associates, Inc., of Detroit, Michigan, was that the witnesses dropped out of the picture.

Franklin Knack, who gave that explanation in a House investigating committee, said he believed Norman E. Miller—who headed the Detroit concern—was responsible for "difficulties" in which several Government witnesses disappeared.

One witness went to an insane asylum for a time and another was charged with bigamy, Knack related.

Knack was before a House Judiciary subcommittee, which is making a general inquiry into the operations of the Justice Department.

Knack was before a House Judiciary subcommittee, which is making a general inquiry into the operations of the Justice Department.

Evening Prayer

"Give, we pray, to administrators of business affairs a fresh sense of their privilege; save them from the subtle sins of self-seeking and self-importance; and offer them the supreme happiness of converting prosperity into human welfare, and business life into a witness of thy beneficent purpose for the world. Rescue them from the double life which threatens them. — of business in occasional hours of worship — that they may maintain consistency of faith and practice; not slothful in business, fervent in spirit, serving the Lord, rejoicing in hope, patient in the tribulations which beset each business career, and in their daily conduct of their difficult tasks continuing steadfast in effective, even if unspoken prayer. Amen."

From Rutherfordton To Charleston Two N.C. Boys On Nover Canoe Trip

RUTHERFORDTON—Two teenagers who left in a catamaran-covered canoe near here last Sunday should paddle their way to Charleston by tomorrow.

After a week of resting, fishing and a night-sleeping in Charleston, David Vause, 18, and Jimmy Towery, 17, will return to Rutherfordton with their parents and get ready to enter Duke University as freshmen Sept. 11.

Guided by a road map, a compass and the assurance of the U. S. District Engineer's Office in Charleston that the trip would be safe, the boys set off on the Broad River at Cluffside, the nearest point to Rutherfordton.

USING THREE RIVERS

Following the Broad, in which they hit some rocks and smashed a few planks, to Columbia, they switched to the Congaree, then into the Cooper and on to Charleston.

VENGEANCE COMES FIRST

Stevenson Promised Negroes' Support

By RICHARD MORIN
NEW YORK (AP)—Rep. Adam Clayton Powell, Negro Congressman who once said he expected Negroes to boycott the Democratic National ticket, said today after conferring with Gov. Adlai Stevenson that "we are now ready to back him to the limit."

Powell, New York Democrat, and a dozen other Negro leaders from Atlantic seaboard areas, visited the Democratic Presidential nominee today.

Powell said Stevenson promised to make "a strong pronouncement" on the question of segregation in Washington.

The Congressman told correspondents after the conference: "We are entirely satisfied on the entire civil rights issue now."

"We feel the whole question has been spelled out. There can be no argument as far as the Negro voters are concerned—or for that matter any other minorities. We are ready to back him to the limit."

Powell said the group came to see Stevenson to have him "spell out" his position on the civil rights and allied issues.

He said following Stevenson's speeches here yesterday that they were thoroughly satisfied.

Powell said Stevenson promised to make "a strong pronouncement" on the question of segregation in Washington.

Gaston Man Is Wounded

STANLEY — A Gaston County man identified as Fred Mullis was shot and seriously wounded today just outside Stanley's city limits.

An hour and a half after the shooting, police arrested D. Boone Crisp on the Mecklenburg County side of the Catawba River near Holly, in connection with the crime.

Mullis was reported shot by a 38 caliber automatic pistol after he and Crisp had ridden outside of Stanley in Mullis' car.

Mullis was taken to Memorial Hospital in Charlotte, where it was reported that he would undergo surgery during the afternoon.

Police Chief Ralph Handzel said that Crisp was arrested at the home of his brother, Rollins Crisp, near the river in Mecklenburg County.

He quoted Crisp as admitting doing the shooting. Crisp gave as his reason "domestic troubles," according to the Chief.

The pistol which was used in the shooting was found in the woods near the scene of the crime, Handzel said.

The bullet which hit Mullis entered his right side and went through his body.

Hurricane Gaining In Speed And Power

MIAMI, Fla. (AP)—The erratic Atlantic storm developed into a full fledged hurricane today as it swirled towards the Atlantic coast with increasing speed and intensity.

Aircraft checking the course of the storm located the center near latitude 28.0 north and longitude 76.5 west, or about 280 miles east of Melbourne, Fla., at 11 A. M. (EST).

The Weather Bureau said the Upper Florida East Coast, Georgia, and South Carolina were in the path of the hurricane at present.

Storm warnings were displayed from Vero Beach, Fla., north to Wilmington N. C.

The advisory warned all interests to stand by for further advice and "possibly hurricane warnings this afternoon and tonight."

The Weather Bureau said Hurricane Able was moving west-northwest about 18 miles per hour; with strongest winds estimated at about 75 miles per hour.

SLIGHT INCREASE

"It has shown a slight increase and has a more definite center," the advisory said.

"Further intensification may occur during passage over the Gulf Stream and movement is expected to continue at about the present rate and direction with a tendency to curve more to the northwest as it approaches the coast."

The storm had contained hurricane force winds—75 miles per hour or more—over a small area on Wednesday, but the center was not well defined. Winds decreased somewhat yesterday.

The Weather Bureau said the approach to the Gulf Stream, a broad current to 60 miles wide flowing northward off the Florida Coast, might lead to further intensification.

"This storm offers a definite threat to the Upper Florida Peninsula, Georgia, and South Carolina," said Grady Norton, chief storm fore-caster at the Miami Weather Bureau.

"Indications are it should come inland along the coast sometime before tomorrow morning," he continued.

"We have ordered storm warnings up now to give people plenty of time to get set for the blow," he said. "Strong winds may be felt along the coast tonight."

"The storm was moving northwest 'pretty fast, about 18 miles per hour and ship reports indicate it might be increasing in intensity.'"

Red Capital Smashed In Record Raid

SEOUL (AP)—Allied warplanes record-smashing numbers today pounded Pyongyang and left the reeling North Korean capital wrapped in great clouds of smoke and torn by explosions and fire.

Four Allied nations sent a record 1,403 sorties (individual flights) against the city in three waves of land and carrier-based fighters, bombers and S-2 Superfortresses sprayed 32,000 rounds of machine-gun bullets on the area, the Air Force said.

Today's first wave of jet and prop-driven planes battered Communist anti-aircraft defenses, which pilots said threw up a heavy curtain of flak. Other waves concentrated on stockpiles, barracks, industries and airfields used to build up the North's military.

The U. S. Air Force said last night U. S. jet fighters destroyed 100 Communist anti-aircraft batteries, 100 anti-aircraft guns, 100 anti-aircraft searchlights, 100 anti-aircraft radar sets, 100 anti-aircraft communication systems, 100 anti-aircraft observation posts, 100 anti-aircraft searchlights, 100 anti-aircraft radar sets, 100 anti-aircraft communication systems, 100 anti-aircraft observation posts.

Like Aide Raps Adlai's Stand On Filibusters

By JAMES DEVLIN
NEW YORK (AP)—Sen. Henry Cabot Lodge Jr. today denounced as a "pious increase piece of double talk" Gov. Adlai E. Stevenson's statement last night against congressional filibusters.

The Massachusetts senator, who was chairman of Gen. Dwight D. Eisenhower's presidential campaign advisory committee, said the Democratic candidate had controlled the Senate for four years and had "done nothing about it."

Stevenson said yesterday that if elected President he would use whatever influence he might have to get the Senate to change its rules under which filibusters are killed by civil rights legislation.

The Democratic presidential nominee said "the sound of tireless voices is the price we pay for the right to hear the music of the free."

Stevenson said he was not a moment at which democracy must prove its capacity to act. "Every man has a right to be heard, but no man has the right to strangle democracy with a single set of vocal chords."

Lodge told a news conference at Eisenhower's headquarters that the Democratic presidential nominee had said last night in a speech that he was proud to have Sen. John I. Sparkman of Alabama as a running mate and only hoped that he could keep up with him.

Declaring Sparkman expressed strong opposition to a civil rights program in Mobile, Ala., speech April 17, 1950, Lodge said Stevenson "can keep up with him all right, but he is as far as he's going on civil rights."

"Lodge, holding the news conference after breakfasting with Eisenhower, said the general had expressed himself very strongly in favor of curbing filibusters."

"It is for every man's sake that will promote civil rights without defeating its own purpose," Lodge said.

Meanwhile, Eisenhower closed himself with his staff to work on a speech which he said might well produce the "fireworks" his supporters have demanded. He was expected to spend these next three days concentrating on speeches he will deliver on a Southern trip starting Tuesday.

OUR WEATHER

Partly cloudy today and partly cloudy with scattered showers Saturday and Sunday.

High Temperature yesterday 82 degrees

Low Temperature expected today 55 degrees

Low Temperature this morning 57 degrees

Low Temperature expected tonight 50 degrees

Sunrise 5:53 A. M.; Sunset 6:53 P. M.

Misty clouds. Scattered light showers this afternoon and tonight. Moderate showers and rain windy Saturday.
