Leaky Hull Of Weston Says The Two Things Most Often Opened By Mistake Are Your Wallet And Your Mouth.

Green Light Given Friendship Forest

In a four-hour session at City Hall yesterday, the city commission approved the 1976 budget proposal with no zoning changes, voted unanimously to continue the Bicentennial Forest of Friendship project and listened to an hour presentation on a traffic safety study for Atchison.

The city planning commission recently voted 4 to 1 in approving a recommendation that the Bicentennial project be suspended until a program of maintenance has been developed by the city.

Barber Rites To Be Held Thursday

Herbert H. Barber, 79, 801 South Fourth street, retired stamp and civil service clerk at the Atchison post office, was dead on arrival at a St. Joe hospital yesterday afternoon.

He was en route to St. Joe to see a doctor when he suffered an apparent heart attack as the car was near St. Joe, Ernest Wilson, retired postal employee, was driver of the car and Mrs.

HERBERT H. BARBER

Barber was with him. They called an ambulance and he was taken on to the hospital.

Funeral services will be held Thursday at 2 p.m. at the Sawin-Dyer chapel, 1001 S. Main street. Pastor of the First Baptist church, officiating. Burial will be in the Effingham cemetery with military services conducted by Fleming Jackson, Section Post No. 6 of the American Legion.

The family will receive friends from 7 to 8:30 p.m. Wednesday at the mortuary. They suggest memorials may be contributions to the First Baptist church, and may be left at the mortuary.

Mr. Barber was born April 26, 1896, at the Barber farm on route 3, a son of John W. and Amy Briggs Barber. He was graduated from the Effingham High school and served in the Army during World War I.

He and the former Addie Bagby were married Feb. 15, 1919, at Leavenworth.

Mr. Barber retired in 1960, at the Atchison post office where he was employed for 33 years.

He was a long time active member of the First Baptist church.

U.N. Begins Session After Negotiations

UNITED NATIONS, N.Y. (AP) — Weary United Nations delegates unanimously adopted a lengthy declaration designed to bridge the gap between rich and poor nations after working long into the night to complete economic negotiations before the start of the regular 1975 General Assembly this afternoon.

Red-eyed diplomats returned to the assembly hall to close out the 17-day special economic session this morning after their third consecutive all-night meeting.

They agreed to adopt the declaration — aimed at changing the international trade, investment and aid systems to improve things for the devel-

the city approved a change in the Woodlawn urban renewal plan and indicated it favored a zoning change on the east side of Woodlawn Avenue. The proposed change from light industrial to general commercial zone will be possible after a 14-day protest period, according to discussion yesterday.

The commission also acted to give Chuck Fisher a conditional guarantee on certain lots for redevelopment under the Community Development program. Fisher reports that he is interested in building 20 new single family homes here if his proposal is approved by the Department of Housing and Urban Development under the provisions of Section 8, a rent subsidy program.

An appeal from A.E. Soph, Jr. for a patio wall on city right-of-way near Twelfth and Parallel was denied by the commission yesterday. The city's order for removal of the wall was related.

The city governing body approved a recommendation to alter city ordinances to permit peddling and soliciting in the mall area by local non-profit organizations. This activity had been prohibited on the downtown mall.

A recommendation to rezone the south half of the 200 block of North Fifth street received commission endorsement yesterday. The change is from civic center to general commercial and will permit completion of remodeling work at the Harcourt-Arensberg Mortuary, 208 North Fifth street.

The city commissioners accepted a planning commission recommendation for rezoning from light industrial to single family for

Open House At AHS On Thursday

Parents and patrons of Atchison Junior-Senior High school are invited to attend open house Thursday from 7 to 9 p.m. at the school, Mrs. Beverly Hager, assistant principal and director of activities, announced this morning.

Students will bring home the invitation and their class schedule today. Mrs. Hager said, "We urge parents to come for the evening, to get acquainted with the teachers and gain an insight into what is being taught in classes their sons and daughters attend."

Open house will begin with a general assembly at 7 o'clock in the school auditorium. William McMillin, principal, will welcome the guests and they will be entertained by the AHS Stage Band and the Ninth Grade Chorus, directed by Corvin Ellis and Bill Krusemark respectively.

Parents will then be free to visit whatever classrooms they wish. Keynotes and Student Council members are serving as guides.

Everyone is invited also to enjoy "socializing" in the cafeteria after touring the building and visiting classes.

Enrollment Gain For Benedictine

Benedictine College has recorded its first increase in enrollment in the past seven years according to figures released from the college today.

Father Gerard General, president, announced 977 students are attending Benedictine this fall. Last spring enrollment was 894. Enrollment last fall was just above 850.

Freshman class enrollment this year was set at 341, the largest in Benedictine's history. Last year's freshman class numbered 277. The increased enrollment includes 63 additional resident students.

In all, Benedictine has an estimated 415 new students on campus this fall. The new student figure represents an increase of 105. Benedictine registered 310 new students last fall.

By ROBBIE CURRY

Congresswoman Martha Keys came to Atchison to get some feedback from her constituents, and nearly 100 residents showed up at a "town meeting" in the county courthouse last night to give her just that.

The Democrat from the second district fielded questions dealing with deficit spending, the defense budget, gun control, New York City's financial plight, taxes, and congressional recesses, among other topics.

Keys returned to Kansas while Congress is in recess for the Jewish holiday of Yom Kippur.

The country's \$70 billion deficit was a primary source of concern and conversation at the meeting, causing Keys to defend Congress against the accusation that it is to blame for the huge deficit.

"The official budget request comes from the President. He sent us a request of \$52 billion. Congress, in lieu of the recession, had to include tax cuts and stimulation to the economy," she maintained.

Keys pointed to an "economy which has thrown people out of jobs" as the primary cause of the deficit. She also blamed previous administrations for conducting the Vietnam War without taxing the American people in order to pay for it, and the recent quadrupling of oil prices.

Defense spending came under attack by Keys, who pointed to the B-1 bomber and the Trident programs as programs which have proven to be fiscally and militarily unsound. Keys said she supported defense spending cuts of two billion and troop reductions of 76,000 men.

U.S. security is more threatened by the new

Ford Calls Busing Last Resort Tactic

WASHINGTON (AP) — President Ford said today he believes the federal courts apparently have not taken sufficient notice of 1974 legislation that would make forced busing of school children a last resort tactic.

At the first news conference he has held in his Oval Office, convened on short notice, Ford also questioned reports that the United States has agreed to supply F-16 fighter bombers and Pershing missiles to Israel for

(Continued on page 9)

Clemency Program Expires

WASHINGTON (AP) — President Ford's Clemency Board has ended its work after processing claims for 15,468 applicants out of an estimated 123,000 eligible men.

The board's tenure expired at midnight Monday under the law that authorized its creation to enable men convicted of draft evasion or punished for desertion in the Vietnam war to earn presidential pardons.

Ford issued an executive order Monday delegating the Justice Department to tie up the loose ends of the board's work. This involves principally giving final recommendations to Ford on 910 applicants for whom more information is needed, board spokeswoman Nita Nicholas said.

But the White House said 51 per cent are being given outright pardons and 43 per cent pardons conditioned on public service job assignments gener-

CONGRESSWOMAN MARTHA KEYS answered questions from Atchison residents at a "town meeting" at the Atchison county courthouse last night. Keys, a Democrat representing the Second District, was in Kansas while Congress recesses for the Jewish holiday of Yom Kippur. Approximately 100 persons attended the meeting. — Globe photo.

Okay Food Project For AHS Students

Permission to operate a food concession in the Teepee area of the Atchison High school and three of its students, Clarence Tidale, Steve Todd and April Carskaddon, elaborated on plans.

The concession would be open at specific times during the day, and would provide food items and drinks, such as orange juice, for students.

There are 27 students in the class which plans a number of other fund raising projects to pay for costs of the trip. Their plan is for all class members to go to Mexico.

William Sellers, assistant superintendent of schools, discussed the scope and costs of the food service program for the schools in the district.

He said the food service is serving more than 1,200 meals each day of school, or approximately 100 meals more than last year, and that 453 free meal applications and 114 reduced price meal applications were approved as of Sept. 15.

Sellers said federal aid for each lunch served amounts to 12.25 cents, state aid amounts to 2 cents, additional federal aid for each reduced price meal is \$4.40 cents.

Cash in lieu of federal commodities is 11 cents a meal, for reduced price meals, 5 cents at elementary schools, 20 cents for secondary school, 20 cents for reduced meals.

Total costs for meals is 70.25 cents for elementary, 72.25 for secondary, 89.25 cents for reduced price meals, and 78.75 for free meals.

Sellers said the estimated number of meals to be served during the 1975-76 school year is 216,000, and based on \$2,700 budgeted for clerical, custodial, teacher supervision and utilities, the cost to the district will average 10.51 cents

Quiz Keys On Major Issues

WASHINGTON (AP) — The Central Intelligence Agency spent nearly \$3 million developing and maintaining a supply of deadly poisons and sophisticated devices for using them, Director William E. Colby testified today.

He told a Senate committee that one device for using the poisons was a silent dart gun that could kill without leaving a clue about the cause of death.

Colby told the Senate Intelligence committee that work on the poisons began in 1952 in an effort to replace cyanide suicide capsules used by agents in World War II.

He offered no explanation why the agency had developed poisons in quantities which Chairman Frank Church, D-Idaho, said were capable of killing hundreds of thousands of people.

The CIA director acknowledged that some of the most deadly poisons — shellfish toxin and cobra venom — had been kept in the agency since World War II in order to destroy such substances. A total of 27 lethal and incapacitating agents were discovered earlier this year at a CIA laboratory.

Not all the poisons were kept in violation of the presidential order, Colby testified. However, he added, "we have no need for this type of thing at this time."

Ruth Parrett Dies; Rites Thursday

Mrs. Ruth C. Parrett, 50, 109 Kansas avenue, former nurse at the Atchison County Nursing Home, died last night at the Atchison hospital. She suffered a heart attack in 1972, and her activities had been limited since.

Funeral services will be held Thursday at 11 a.m. at Trinity Episcopal church with the Rev. Max Tracy, rector, officiating. Burial will be in Sunset Memory Gardens.

Members of the family will receive friends from 7 to 8:30 p.m. Wednesday at the Stanton Mortuary. They prefer that the memorial service be contributions for the Atchison County Nursing Home and may be left at the mortuary.

Mrs. Parrett was born Sept. 29, 1924, at Leighton, Pa., a daughter of Edward J. and Caroline Leimberger. She attended grade school in Leighton.

The family later moved to Sayre, Pa., where she attended high school and was graduated from the Robert Packer Hospital School of Nursing.

She moved to Atchison in 1946, to live with her sister, Mrs. William (Betty) Clark, now of Sarasota, Fla.

From 1946-48 she worked as a nurse at the Atchison hospital under the direction of Miss Isabel Patton and attended classes at Mount St. Scholastica College.

She and Edwin R. Parrett of Atchison were married May 17,

(Continued on page 9)

Peron Cabinet Members Quit

BUENOS AIRES, Argentina (AP) — Acting President Italo Luder has begun a shakeup of President Isabel Peron's government, but the meaning in terms of government policies is not yet clear.

The government announced Monday night, less than 36 hours after Mrs. Peron flew to a month's rest, that Luder had accepted the resignations of Interior Minister Vicente Damasco, Defense Minister Jorge Goyari, Mrs. Peron's press secretary and her private secretary.

There was speculation that the other members of the cabinet had also submitted their resignations.

Luder, who is president of the Senate, named Foreign Minister Angel P. Roldo to replace Damasco and Tomas Vettero, an official in an earlier Peron government, to be defense minister.

The new foreign minister was not immediately named.

There was no indication, however, whether Luder had any ideas for checking the country's runaway inflation and rampant terrorism, or for easing the

(Continued on page 9)

first public hearing by the eight-month old intelligence committee, Colby said only two instances could be found in which poisons had been used operationally.

The first use of the poison occurred in 1960 when U-2 spy plane pilot Francis Gary Powers carried a tiny dart lit coated with shellfish toxin during his flight over the Soviet Union. Powers was shot down by the Soviets, but he did not use the poison to take his life.

In the second operation, agents fed guard dogs a meal

treated with an incapacitating drug while conducting a clandestine operation in Southeast Asia, Colby said.

The poisons and weapons to use them were developed in a joint project with the Army at Fort Detrick, Md., but all of the funding was provided by the CIA, according to Colby's testimony.

As an example of one of the weapons developed in the project, Colby produced an electric dart gun resembling a 45-cal-

Kissinger Discusses Oil, Aid To Israel

ORLANDO, Fla. (AP) — Secretary of State Henry A. Kissinger said today that another increase in foreign oil prices could seriously jeopardize U.S. relations with oil producing countries and endanger efforts to stabilize global economy.

Speaking at the Southern Governors Conference here, Kissinger also said the Ford administration will ask for more than \$2.2 billion or \$2.3 billion in aid to Israel this year.

Kissinger told the governors that Arab oil producers are moving in the direction of an other jump in petroleum prices. Quick action by the United States and its industrial allies is necessary to head off the increases, he said.

"We are prepared to shape new constructive relations," with the producing nations, the secretary went on, "but another new oil price rise would seriously jeopardize" those efforts.

The secretary told the 17 governors attending the conference that all nations "have an interest to avoid this," particularly the lesser developed countries who have neither the natural nor financial resources to handle the cost jump.

Although he stopped well short of repeating the limit that American military forces might be used to prevent another oil embargo, Kissinger nevertheless spoke in strong terms concerning manipulation of oil supplies by producing countries.

"The United States," Kissinger said, "cannot entrust its economic and political destiny to decisions made elsewhere."

The answer, he said, is quick and determined action by Congress and the White House and by the United States and its industrial partners to establish a comprehensive policy for conserving oil and other energy sources while developing alternative supplies.

Turning to the Israeli issue, Kissinger said that a final figure has not been determined,
