#### THE EMPTY STOCKING IS HANGING OUT

AT HAS BECOME one of the finer tradi-lations of the community to announce the opening of This Niews Emply Stock-ing Eard on Thanksgiving Day, For the This property of the Community of the pan between Thanksgiving, when we are conscious of and grateful for our good fortunes, and Christmas, when the act of sharing with others expresses the true spirit of the season.

And so, for the 22nd time, the Empty Stocking was hung out yesterday. As in the nast, we lieve it it you good people

spirit of the season.
And so, for the 22nd time, the Empty Stocking was hung out yesterday. As in the past, we leave it to you good people of the community to full it if you so desire. You have never yet let down the needly people, young and old, in our midst. And we are confident that you will not let.

The Empty Stocking Fund came into being in the dark days of the Great Depression. It was designed originally to bring some small measure of joy and cheer to the thousands of children whose jobless, hopless parents were unable to give big Christmas parties for the kids, where they got toys, fruits and goodies, and small gifts. Later food baskets for the whole family were distributed on Christmas morning by scores of volunteers.

Over the years, we came to realize that something was missing. And it was pretty important. The missing element was the full participation of the family, not only in the receipt of some modest gifts, but also in the planning and anticipation of Cartes and the planning and anticipation of Cartes and the planning and anticipation of Cartes and the planning and anticipation of the planning and anticipation of dis-tributing cash gifts instituted.

tributing cash gifts instituted.

It is our belief that the best possible plan has been worked out. The Christmas Bureau is operated by the United Community Services with an advisory board of community leaders. The Bureau screens carefully the list of recipients in order to be sure that the need exists and to avoid duplication and overlapping. The Bureau also makes an effort to see that the people who get the money use it wisely.

Although The News is the Instrument

wisely.

Although The News is the Instrument for collecting the money and the Christmas Bureau the agency for distributing it, the Empty Stocking Fund is your program. Because of your gifts, it has brought warmth and cheer to many thousands of needy persons in the past 21 years. Now you have another opportunity to know the real joy of sharing with others.

### SECRECY LIMITS PEOPLE'S RIGHT TO KNOW

CTATE SEN. Arthur Kirkmap of High Point is a stocky man with a firm jaw. an independent mind, and the courage of his convictions. In the 1983 session of the General Assembly, he was one of a minority voting against the "secreey" law. This week he had more to say on the subject.

speaking to a Winston-Salem addience that-included Sen. Calvin Graves and Repedier William F. Womble, both of whom voted for the secrecy bill. Senator Kirkman called the measure one of the three most important—and worst—measures passed by the Legislature.

by the Legislature.
"North Carolina is, as far as I know, the only state in the union with such a law on its books and the legislators' action had, and will continue to have for a long time to come, an impact on the state's political and financial affairs," he said.

aw on its books and the legislators' action
ad, and will continue to have for a long
and, and will continue to have for a long
time to come, an inpact on the state's potical and financial affairs," he said.
The secrecy Dill authorized the approriations committee and its subcommittees
bold executive sessions while preparing
the annual spending Bill. Senator Kirsau emphasized two aspects of the measre that were overlooked during the detie on the bill.

Members of the General Assembly, he said, sowed seeds for the impasse between news reporters and assembly that provoked sentiment for the bill. "I think it was a calculated impasse," he said.

aid. As was a canaraca and a said.

2. Not only was the general public shut out of the budget deliberations, but "Fewer members of the General Assembly had access to and knowledge of the appropriations bill than any previous Legislature in the state's history." Kirkman admitted that there are times when legislature investigative investigations may properly be closed. But he then laid down a principle to which this newspaper subscribes fully:

"When it somes to openions of what's

## SAUSAGE, POLES AND THE COLD WAR

COUPLE of "country" boys who is write editorials for the disensions Dan't News and Sanford Heanth are having themselves a time reminiscing about ways to make ports assusage and new to use it in the cold war. What started them off wat the visit of a Tiku reporter to the mountain home of Cpl. Ed Dickensen, who decided he preferred West Virginia to North Korea. The reporter moted, in Ma Dickenson's frying pan, a "fat slab of sausage".

Ma Dickenson's frying pan, a "fat slab of sausage". Ho-bo-bo, came the guffaw from Greensbore. Who ever heard of a "slab" of sausage! The Hanaza nodded agreement, told sight how sausage should be made, adding that if the recipe were followed and the product served at Pannunjom it would aweeten the temper of the Chinese Communists, improve the outlook of the North Koreans and "diminish the fury of the Poles".

Apparently the Hanaza doesn't know much about Poles. And neither paper knows much about Poles. And neither paper knows much about sausage.

Up in the north country, young farm lads eye with suspicion the fragile "rings" at lies hard telling at the season Green.

Or "ropes" of Greensboro-Sanford type sausage, For real sausage to them is bluster, which they helped make by carrying to a mowbank and string rapidly a skillet of blood from a freshly-killed hog. Then mom anded the head met and seasoning, encased the work in narrow cloth, sacks and in due time it was served up in generous slabs, if you please, alongside a string of the same shall be supported by the same shall be same shall be supported by the same shall be sam

### BEAUTY AND POWER OF WORDS

WHAT are the 10 most beautiful words in the English language?

Dr. Wilfred Funk, the man who writes dictionaries and poetry, thinks they are

which are tunny and wertury payen by
melody melody

ebody ought to write a poem using se words. It might be good, and it ould be pretty. of the finest workmen in words was dio Hearn. In a letter to a friend

ghostly flusions of words,
"Because they cannot hear the whispering of words, the rusling of processions of
letters, the dream-flutes and dream-drums
which are thinly and weirdly played by

to make them feel;"
When his friend replied that people would not buy his books. Hearn replied that he never expected to make money but that he never expected to make money but that he wrote "for beloved friends who can see the color in words, can smell the behocked with the fine effish electricity of abooked with the fine effish electricity of words. And in the elernal order of things, words. And in the people."

We can't add snything to that
