NOTHING SECRET ABOUT CAR INSPECTION

The Senator himself introduced this sen-

NOTHING SECRET ABOUT CAR INSPECTION

Willen the motor vehicle inspection bill

with the motor vehicle inspection bill

with the press.

Why:

"There's been a good deal of controversy
on the bill." he said. "I don't want the members from the supposed wrath
of constituents, who still resember the
found-up and short-lived motor vehicle inspection law of tive years ago. Possible reorder the with their folks. I don't want then ten
bers to feel that they will be written up in
home town papers before they have a chanceto talk with their folks. I don't want then ten
bers to feel that they will be written up in
home town papers before they have a chanceto talk with their folks. I don't want then to
be embarrassed by the press."

Now that's an interesting line of reasonling. It would seem that the best way of reaching all the folks back home would be via
the press. With reporters at an important
committee meeting, rapid communication is
assured. The legislator of this busy don't want to the reach of the press have the relief to the press.

But most important, motor vehicle legislasourced. The legislator of his busy don't be continued decrease what criticism there is by
pointing up the improvements.

But most important, motor vehicle legislato the press. The press of the press.

CORRELATE THE KOREAN FILE, SENATOR

WE SEE no military merit in Senstor Tart's investigation of the Korean situation. Opposition to the idea aiready expressed by key Democratic leaders, like Senstors Russell and Kefasuver, and Senstor Knowland, policy committee chairman of Tart's own party, assures that the probe would cause a political reckso evershadowing any possible benefits. The inevitable security leaks could be disastrous. Therefore Congress should not grant this latest request of its majority leader.

Senator Russell and Ketsuver, and Senator Knowland, policy committee chairman of Taft's own party, saures that the probe would cause a political ruckus evershadowing any possible benefits. The inevitable security leaks could be disastrous. Therefore Congress should not grant this latest request of its majority leader. Indeed, Congress has already investigated, relinevistigated, probed, surveyed and studied the Korean situation until some Congress mea actually think they are running the war. The big show, of course, was the Macarhum investigation. Currently playing are the Senate Foreign Relations and House Armed Services Committees' investigation of the war. General 'van Fleet, who just returned from his command post in Korea.

A better dies would be for Congress to estified before a Congressional comments of the war. General 'van Fleet, who just returned from his command post in Korea testified before a Congressional comments and the control of the war. General 'Congressional control of the war. Ge

Army Secretary Stevens will go before the Armed Services Committee. Wednesday the House Appropriations Committee gets its chance at Van Fleet. Meanwhile a Senate Armed Services subcommittee has ordered

BENSON'S POSER-MARKETS FOR FARMERS

DEVINOUR OF TWO STATES AND A DEVOLUTE Benson does not induge in caffeine anicottine, or alcohol. That is would probably help the states of the

eral weeks point up just one of his problems, the solution of which will require the wisdom of Solomon.

It is the problem of farm and ranch production. American farmers are turning out food and fibres in staggering amounts.

That is line. There are many should be proporty-clothed people in the case and the production of the control o

one year. Milk production has increased 16 per cent,

Milk production has increased up to tention one year.

The government has millions of dollars worth of dairy products, eggs and grains on hand. It sells wheat at a cheaper plus, escale to get rid of some other plus. Secretary Benson has seen the product of the part of the product his year crop by about 18 per cent. But market ene doubt the cottin farmers. It will comply with the request. As long as they

aren't compelled to restrict production, and are guaranteed a good price, they will produce at record rates.

Ah, some will say, that price support business is the trouble. If farm products dida's have artificial price supports the law of supply and demand would take care of things.

But the example of the beef industry shatters that theory. Beef prices never were summorted Vet they skyrockted. And, as

But the example of the beef industry shatters that theory. Beef prices never were supported. Yet they skyrecketed. And, as Secretary Beason is reminded daily and angrily by farm Congressmen, the beef producer has taken a 30 per cent cut in prices during the past year.

A partial answer takhis problem of production, it would seem, lies in a radical change in American marketing. New oversees markets must be created. This involves a lowering of our tariff barriers and the admission of more foreign goods at low prices, so people in other countries can buy more of our agricultural products.

But if Secretary Benson chooses this course he runs headen into another problem—the reluctance of many Congressmen, particularly in the majority Republican Party, even to renew actifiting reciprocal trade agreements, let alone reduce tariff barriers further.

further.

We take what little comfort we can from
the fact that Secretary Benson is a marketing specialist and a man of good will. He will
need all his talents and traits, and maybe
then some, to find an answer to the problem
which America's efficient farmers have
created.

Merry-Go-Round WASHINGTON
HERE are some little-known facts about
Josef Stalin in his relations with the

Drew Pearson's

USA.

Probably Harry Truman is the only person who ever bawled out Josef Stalin since the day when he became top man in Soviet

Jussia. For years all of Russia bowed before the valer in the Kremlin. His word was law, to one around him ever questioned it, However, the little man from Missouri, newy made President of the United States m 945, gave Stalin a bawling-out which those round Truman have never forgotten. It was as if he were talking to a music critic if a newspaper columnist.

Bowled Out British
opened, Truman took the floor and proceeded to tell Stalin that seasions were goting to begin out and were not no outline
what he proposed doing. Aining his remarks directly at Stalin. he talked with
