#### LET'S BE FRANK ABOUT BOMB BUSINESS

T HIS news conference yesterday the President came out four-square for the case to the public of more information on resease to the public or more information on atomic energy. The authoritative weight be-hind this proposed frankness is now most impressive. Previously two former chairmen of the Atomic Energy Commission, Gordon Dean and David Lilienthal, voiced similar Dean and David Lilenthal, voiced similar views, as did Dr. Robert Oppenheimer, chief architect of the A-bomb. Presumably a move will be made promptly to amend the atomic energy law to permit more discioure. Any reasonable law along these lines is worthy

opport.

The president was not questioned about two other pressing atomic matthe sharing of atomic know-how with naible allies, and the build-up of atomic asible allies, and the build-up of atomic see. He did say that information given American people naturally would be public, and so would be available to lies, with whom a co-operative attitude portant. Of course this public informa-rill be available to the Communists as

country against stomic attack. While no defense can be adequate, more stomic defense will at least act as a deterrent to Red attack. It might even mean the difference between the nation's partial devastation and complete paralysis in event of atomic attack. This immense problem cannot be sweet and

### KNUCKLES AND CHUCKLES—ONLY TWO BITS

THERETL BE a new magazine on the I stands tomorrow. It's the 25-cent Demogratic Digest, a Reeders' Digest-alia compendium of Republican errors, Democratic accomplishments and bipartitan chuckles. It represents the first effort of a major national committee to enter the publishing business, on a continuous, commercial basis. We've just finished reading the first edition, and forecast a successful future for the magazine, under the astute editorship of Clavion Pritchey.

In its 112 pages the magazine covers a rider field than we expected it to. There's 'mystery' entitled 'Death Stalks the New heal' some 25 reprinted cartoons, reports on the learnes, the Air Porce, "tight money" policies, McCarthyism. striving for the governorship, GOP premises last year are compared ruthlessly with GOP performance this year.

Reprinted on the last pages a non-political editorial from the New York Times on the climbing of Mount Everest. We're not quite sure how it rated inclusion. Maybe because of this phrase: "The cup is empty and the heart longs for other still uncharted (and doubtless Democratic, we suppose) realma." In fact, you could say the Dipest ranges from the mandlin to Maddlin, for the cartoonist-turned-writer makes the magnine with a

parody about "Douglas MacFleet".

Most of the humor is at the expense of the Republicans, of course—items like laterior Secretary McKay's reply, when a Congrassman asked what he meant: "I don't know what it means—I didn't write it." But everyone can enjoy the story of a Marine's characterization of an Army withdrawal: "Their cigars went by like tracer bullets in the night."
