He was sentenced to lie imprisonment.

He too has the right to appeal And
the American people have the right to
ask what kind of military justice this is,
which raps a field grade officer on the
knuckles and locks up for life a kid who
probably did no worse.

Facts Don't Support Nixon's Claim

Facets Don't Support

VICE PRESIDENT RICHARD NIXON.

In at least three of his recent campaign speeches, has said:

We're kicking the Communists and fellow travelers and security risks out of the government, not by the hundreds but by the thousands.

It sounds like there's been quite a housecleaning. But let's check his statement before coming to any conclusions. Reports, and admission under press questioning, by government heads indicate the following dismissish by this administration:

Communists—none. Repeat—none.
Former Communists—two. Attorney General Brownell said that at least one former Communist was removed from the Justice Department. Another former Communist was removed from the Justice Department, and the support of the following the support of the s

That claim didn't stand up under examination. The Alsop brothers reported that only 29, not 306 persons were dismissed from the State Department, that most of the 29 were drunks and blabbermouth or men in money trouble and thus, under the new definition, "security risks", and that "not a single case of actual subversion was involved."

actual subversion was involved."

The Washington Star reported that of the 192 employes separated from Navy, only 8 had been fired and 12 suspended as "security risks."

The Washington Post reported that at least some of the persons dismissed from the Post Office Department and VA were separated under normal service provisions, and were not security risks.

Enthemac Civil Service Commission, or Commission, and were not security risks.

Furthermore, Civil Service Commission Chairman Philip Young testified that he knew of no dismissals of Communists or fellow travelers.

Thus it appears that Mr. Nixon ought to replace his stock phrase with one like this:

The Meaning Of The Mergers

The Meaning Of The Mergers

FOLLOW the financial pages of a newspaper and you'll get the picture of one of the most significant business developments of the decade. The headlines tell you that Nash and Hudson became American Motors, that Hilton Hotels took over the Statler chain. Int Textron, American Woolen and Robbins have been talking about combining, that the President Lines bought controlling interest in American Mail Line. In the classified advertising sections of trade magazines you'll see headlines like 'Merger Insided' and 'Textile Mill Wanted.' This seems to be the merger season.

Last week, the length of that season became debatable when Attorney General Herbert Brownell barred the proposed merger of two mammoh industries, Bethlehem Steel and the Youngstown Sheet and Tube Cerporation, on the grounds that it would be in violation of anti-trust laws.

TEN CENTS AN HOUR

IEN CENTS AN HOUR

IF TEACHERS were paid at the same rate per pupil as baby sitters are, the teacher with 35 pupils in a class would earn \$204.75 per year for the exison, according to the colulations were made on the basis of 50 cents per hour, prevailing pay for baby sitters.

If they were paid at the rate of 10 the teacher with 30 pupils would get \$505 per session, according to the colulations were made on the basis of 50 cents per hour, prevailing pay for baby sitters.

If they were paid at the rate of 10 the schools. Ten cents, per pupil per hour sounds little enough—and it is. Yet it so considerably more than most teachers the sound get \$40505 per session. And, a superintendent of Schools with 35 pupil swould get \$40505 per session.
