Russia Wants India At Asia Peace Talks

Demands Raise New Obstacle

GENEVA.—An informed source said today Russia has demanded India be invited to take part in Indochina peace talks coming up here. Such a proposal is certain to throw another obstacle in the path of the Indochina talks.

The source said the Soviets might also even ask that Indonesia and Burma be invited to take part. The United States is understood to be firmly opposed to including India in the talks on the grounds the conference should be held to as small a circle of interested nations as possible.

India's Prime Minister Nehru recently announced in his own parliament in New Delhi a program for an end to the 17-year-old Indochina war, including an immediate cease-fire, a non-intervention pact by the big powers and direct negotiations between the French and the Communist-led Vietminh rebels.

The report of Russia's move to bring India to Geneva came shortly after it was revealed that Vietnam's chief of state Bao Dai had agreed to sit down at the conference with representatives of the Vietminh.

Until the reported new Russian demand, Bao Dai's previous opposition to rebel participation had been the major obstacle preventing organization of the Indochina talks after conclusion of the present debate on Korea.

It was reported earlier the East and West were virtually agreed on including nine parties at the Indochina conference. These would be the United States, Russia, Britain, France, Red China, the Vietminh and the three French-sponsored governments of Viet Nam, Cambodia and Laos.

The talks were to be expanded at all, the United States was reported at the most to favor only in addition to Thailand and Burma to the conference, since those two countries border on Indochina.

Most observers already have written off any chance of a Korean settlement as hopeless. The proposals of the Communists and the West are as far apart as they were in 1948 when the United Nations first approved its plan for unification of the divided peninsula by U. N.-supervised elections.

WELCOMED AT NEW AIR TERMINAL Air Force Site Team In City

By LUCIEN AGNIEL
 Charlotte News Staff Writer

The site selection board for the new Air Force Academy landed in Charlotte at 11:38 this morning and was greeted by a reception committee from the city and the Chamber of Commerce.

A chartered bus stood by to take the group of eight and their hosts directly to the Charlotte site, about eight miles northwest of the city on the Catawba River near Huntersville.

The board is headed by Gen. Carl A. Spaatz and includes: Virgil M. Hancher, president, University of Iowa; Lt. Gen. Hubert R. Harmon, Brig. Gen. Charles A. Lindbergh, Air Force Reserve; Merrill C. Meigs, vice president, Hearst Corp.; and Col. Arthur E. Bourdeau, secretary to the Board. Two other Air Force officers were also in the official party.

The Charlotte site has survived several previous screenings and is known to offer the facilities and qualities which the Air Force requires in the selection of the Academy location.

Among these are: good level terrain; maximum seasonable flying weather; good rail and air facilities.

The board is expected to meet several times in the next few days. It will be held at the city's new Civic Center.

At the meeting, the board will discuss the site's location, its accessibility, and its potential for expansion.

The board's decision is expected to be announced within a few weeks.

up the welcoming group were Mayor Phil Van Every, Chamber President Pat Gilchrist, H. H. Baxter, E. A. Bealy, Eddie S. Dillard, John C. Erwin, E. C. Griffith Jr., George M. Ivey Sr., Jesse W. Page, W. M. Ficklen and J. H. Glenn.

INCOOPERATIVE WEATHER
 The only factor working against Charlotte today was the weather. There was a damp, foggy overcast which twice caused delays in the arrival time. The party was first scheduled to land at 11 a. m. My midmorning, this building might be considered a new arrival time of 11:38 was announced.

An impressive array of Charlotte business and executive tailors followed the group to the airport.

Thought Committee Wanted Only Two

WASHINGTON.—(AP)—James Juliana, an investigator for the McCarthy committee, testified today he ordered the printing of a controversial "cropped" photograph showing Secretary of the Army Stevens and Pvt. G. David Schine alone.

He acknowledged the print was from a more extensive picture showing also Air Force Col. Jack T. Bradley.

Juliana said he had ordered enlargements of both the picture of Stevens and Schine alone, and a picture showing the two with Bradley.

Juliana said he delivered the photograph showing Schine and Stevens alone to the Senate committee investigating the McCarthy-Army row, because he thought that was what the committee wanted, HIS DECISION

Prodded by Chairman Mundt (R-S.D.) as to whose specialty division it was to bring to the investigators the picture showing only Stevens and Schine, Juliana replied:

"That was my decision."

Juliana said he instructed Don Mundy, a staff member of the McCarthy committee, to prepare enlargements.

Juliana was called to the witness chair after Sen. McCarthy had spoken up at the hearings on his row with Army officials and declared that Juliana had altered the picture.

OTHER DEVELOPMENTS
 J. Army Counsel Joseph W. Welch demanded that McCarthy be called to the witness chair as soon as Secretary Stevens finishes his testimony. Mundy told the committee would determine the order of the proceedings.

George Anastase and Mrs. Frances Sims, staff employees of McCarthy, both swore they knew nothing about the "cropping" of the photograph. There was some conflict, however, between their accounts of how the photograph was handled at the staff offices.

Schine, in brief testimony, said that after refreshing his memory overnight he thought he had given an accurate account yesterday of his part in the photo episode. That part was chiefly to furnish the original picture. Schine was accused from the witness chair but is to come back later for more general testimony.

Juliana insisted he was just trying to meet what he considered the wishes of the committee when he supplied the photo of Schine and Stevens alone.

He said he understood committee Counsel Roy Jenkins wanted a photograph of Mr. Stevens and Private Schine. He said these instructions could have come either from Jenkins or Roy M. Cohn, chief counsel to the McCarthy committee, or both.

"I was led to believe that was what you wanted in the hearing," he told Jenkins.

"I didn't know why you wanted it," Juliana, in reply to questioning by Sen. Jackson (D-Wash.) said he was present when Stevens was questioned at length as to whether Stevens had asked to have his picture taken alone "with Dave."

"The word alone meant nothing to me at that time, Juliana replied. When Jackson indicated surprise, See MCCARTHY on page 4-A

French Planes Hit Vietnam Near Fortress

By LARRY ALLEN

HANOI, Indochina.—French pilots flying American-supplied fighters and bombers roared out anew under clearing skies today to blast Vietminh concentrations razing Dien Bien Phu.

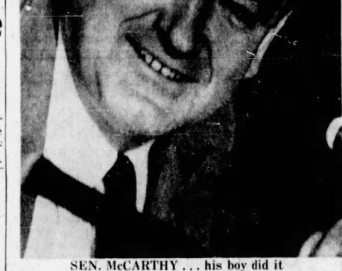

Transport planes resumed their missions of reinforcement. The French high command announced that more parachute troops, ammunition and other war material had been dropped to the fortress.

French commandos made new raids to destroy rebel gun positions and arms caches set up near defense barricades, but no important infantry fighting was under way.

All attempts by the rebel attackers to infiltrate into the main French defense positions were hammered back last night and early today. A French communiqué tersely described the situation at the embattled stronghold as "relatively calm."

Vietminh heavy mortars and artillery continued to pump hundreds of shells into the small patch of French defenses. Answering fire from French jets was centered on encampment of the Communist rebels in forested hills encircling the bastion.

The French also attacked trucks and jeeps arriving from Red China with fresh ammunition and supplies for the besieging thousands.

Two More Housing Officials Suspended

WASHINGTON.—(AP)—Housing that the \$2,500 limit on home-repair administrator Albert Cole today announced suspension of two housing officials in Philadelphia for two periods to \$3,000 and that the repayment period be extended from three to five years.

But this and several other Eisenhower recommendations appeared headed for either drastic revision or a pigeonhole in the Banking Committee.

Sen. Bricker (R-Ohio), a committee member, said in an interview he was "definitely opposed" to any continuation of the depression-spawned home repair program, now running at an annual rate of about one billion dollars.

Sen. Bush (R-Conn.), also on the committee, has indicated he feels the same way.

Capheart said he might agree to continue the present loan level but only if lenders are made partly responsible for loan defaults. He said also the law should be changed to drastically restrict the loans to "legitimate" home repair work, and not swimming pools and tennis courts as witnesses testified some loans were used.

Decision Asked On Segregation

MONTGOMERY, Ala.—(AP)—Adm. John Crommelin today demanded an immediate Senate court decision on school segregation to "defuse what he called a 'statewide belief' in Alabama that the ruling is being held up to help Sen. John Sparkman in his campaign for reelection.

Crommelin, one of three candidates opposing Sparkman in next Tuesday's Democratic primary, sent a telegram to Chief Justice Earl Warren requesting an announcement of the court's decision by tomorrow.

Normally, the tribunal's next decision day is Monday, May 3.

Crommelin, a retired naval air hero whose outspoken criticism of national defense policies got him sidelining by the Navy four years ago, told Warren "the people of Alabama face one of the most crucial political decisions in their history" next Tuesday.

He said his travels across the state have shown that "the citizens of Alabama desire the decision from the United States Supreme Court immediately."

"It is a statewide belief that it is being held up for political reasons and particularly in the interest of Sen. Sparkman who is now under heavy fire from two major opponents."

"Rightly or wrongly, this is not good for prestige of the United States Supreme Court especially in view of court recess and 189-mile walk of one associate justice (Douglas) from Cumberland Gap to Washington to commune with the 'cathartic intensity' about 125 miles northwest of Athens.

Phone Strike Threat Raised

NEW YORK.—An official of the CIO Communications Workers of America says the union may strike "at any time" against the Bell Telephone system.

John L. Crull, CWA vice president, said yesterday in a statement:

"We are still seeking peaceful settlements, even though contracts have expired in some areas. However, this situation can't go on forever."

"We are not ruling out the possibility of a strike at any time."

The union is in dispute with the American Telephone & Telegraph Co. and its subsidiary companies over demands for an unspecified wage increase and company-paid medical and surgical benefits.

Contracts now under discussion include one between Western Electric and 17,000 members of the CWA who install heavy equipment in 42 states and the District of Columbia.

Crull said a strike vote among the installers was "almost unanimously in favor of a walkout."

The installers' contract with Western Electric expires Sunday.

EVENING PRAYER

Father, there is so much that is wrong in the lives of individuals and of nations this world over. And there are so many of us who are living in these conditions changed for the better. Oh, grant us the willingness first to let our own lives be remade. Oh, grant us the grace to seek first Thy holiness and the transforming love of Christ in our own lives. Amen

GOOFY DRIVERS WILL HAVE HEADS EXAMINED

CHICAGO.—(AP)—Those automobile drivers who make you wonder why they don't have their heads examined, are going to.

A psychiatric laboratory is to be set up in Chicago to examine "crazy" drivers, chief justice Edward S. Scheffler of the Municipal Court said yesterday.

"Psychiatrists have found that screwball motorists are really a little off in the head," Scheffler said. "The mental condition can be diagnosed by a laboratory examination."

Scheffler said the laboratory will be part of a central traffic enforcement building for police and courts which will be opened next year.

"We want to ban these nuts from automobiles on our streets and highways or to suspend their driving privileges until the psychiatrists can report a cure," Scheffler said.

"When the laboratory is opened judges will send suspects there for mental analysis."

Scheffler said the "logical suspects" will include the habitual traffic offender, those who repeatedly evade court summonses and those whose traffic conduct is a flagrant violation of common sense and normal judgment.

MEANS' ROBBER Even Takes Pennies

DENVER.—A gunman robbed Hummel's Delicatessen of \$292 last night.

Mrs. Mary R. Hummel, operator of the store, said the bandit had "the most face I ever saw."

She added, "He had a mean disposition. He even took the pennies."

The technicians will serve American Corsairs recently turned over to the French and flown here from the U. S. aircraft carrier Saipan. The Corsairs already are in action.

Severe Earthquake Recorded In Greece

ATHENS, Greece.—Athens observatory seismographs registered today an earthquake of "catastrophic intensity" about 125 miles northwest of Athens.

The epicenter was situated in central Greece near Trikala and Agrafa.
