FRENCH TRIP TO MOSCOW POSTPONED

'Atmosphere' Not Favorable After U. N. Vote

By HARVEY HUDSON
PARIS (AP)—The French Foreign Office announced today the proposed visit of Premier Edgar Faure and Foreign Minister Antoine Pinay to Moscow has been postponed.

The Foreign Ministry said the French government thought it preferable to put off the visit to a later date. The explanation was that the government considers, in view of recent events in the United Nations and the reaction of French opinion, the atmosphere is not favorable now for a trip of this type.

The trip had been scheduled for Oct. 14-15.

WITH MAJORITY
Russia voted with the majority last Friday in a 28 to 27 vote in the U. N. General Assembly to debate troubles in Algeria. France insists Algeria is an integral part of France and assembly debate about it would be a violation of the U. N. Charter provision barring interference in the internal affairs of any member state.

As a result of the vote, the French government withdrew its delegation to the assembly, and also its permanent delegation, but kept one foot in the U. N. door.

The cabinet last night announced withdrawal of its U. N. delegation and an end to participation in all activities of the international organization except those of the Security Council, its Disarmament Commission and subcommittee and its Military Staff Committee.

But the communists left the door open for France's return and avoided any mention of withdrawal from the U. N. as a whole. By remaining in the Security Council, France kept her preferred position as one of the five veto-holding permanent members.

The cabinet, meeting in full-session with President Rene Coty in the chair, decided to withdraw the U. N. delegation after nine members of the delegation returned to Paris.

Weather Clear For Today's Series Game
NEW YORK (AP)—"Fine, sunny early fall weather" was forecast by the U. S. Weather Bureau for today's sixth World Series game.
