

U.S. Calls For Ban On Nuclear Stockpile

Missile Control Is Urged

UNITED NATIONS, N. Y. (AP)—The United States submitted to the U. N. today a new five-point disarmament plan which would include a ban on further stockpiling of nuclear weapons. It also calls for international control of space missiles.

MAJOR POINTS

1. That an agreement be reached under which all future production of fissionable materials shall be stockpiled exclusively for non-weapon purposes, under international inspection.

2. That nuclear test explosions be limited and later banned, if an agreement is reached to control the stockpiling of fissionable materials. Pending such an agreement, the United States would be willing to work out a system for advance notice and limited international observation of such tests.

3. That the armed forces of the United States and the Soviet Union be limited to 2,500,000 each and those of Britain and France to 750,000 each, if the nations concerned can agree on progressive establishment of an inspection system. This would include aerial inspection, as proposed by President Eisenhower at the summit meeting, and ground inspection at key points, as proposed by Premier Bulganin.

4. That the testing of all space missiles, including earth satellites, space platforms, be placed under international control to insure that their future development is limited to peaceful purposes.

5. That an international inspection and control system be installed progressively to guard against surprise attacks. This would be supervised by an international agency which would be established concurrently with the beginning of the program.

6. That the testing of all space missiles, including earth satellites, space platforms, be placed under international control to insure that their future development is limited to peaceful purposes.

7. That an international inspection and control system be installed progressively to guard against surprise attacks. This would be supervised by an international agency which would be established concurrently with the beginning of the program.

8. That the testing of all space missiles, including earth satellites, space platforms, be placed under international control to insure that their future development is limited to peaceful purposes.

9. That an international inspection and control system be installed progressively to guard against surprise attacks. This would be supervised by an international agency which would be established concurrently with the beginning of the program.

10. That the testing of all space missiles, including earth satellites, space platforms, be placed under international control to insure that their future development is limited to peaceful purposes.

11. That an international inspection and control system be installed progressively to guard against surprise attacks. This would be supervised by an international agency which would be established concurrently with the beginning of the program.

12. That the testing of all space missiles, including earth satellites, space platforms, be placed under international control to insure that their future development is limited to peaceful purposes.

13. That an international inspection and control system be installed progressively to guard against surprise attacks. This would be supervised by an international agency which would be established concurrently with the beginning of the program.

14. That the testing of all space missiles, including earth satellites, space platforms, be placed under international control to insure that their future development is limited to peaceful purposes.

15. That an international inspection and control system be installed progressively to guard against surprise attacks. This would be supervised by an international agency which would be established concurrently with the beginning of the program.

16. That the testing of all space missiles, including earth satellites, space platforms, be placed under international control to insure that their future development is limited to peaceful purposes.

17. That an international inspection and control system be installed progressively to guard against surprise attacks. This would be supervised by an international agency which would be established concurrently with the beginning of the program.

18. That the testing of all space missiles, including earth satellites, space platforms, be placed under international control to insure that their future development is limited to peaceful purposes.

19. That an international inspection and control system be installed progressively to guard against surprise attacks. This would be supervised by an international agency which would be established concurrently with the beginning of the program.

Was Teacher's Flogging Part Of Chain Reaction?

By JULIAN SCHEER
Charlotte News Staff Writer
(First of Two Articles)

CAMDEN, S. C.—I opened the door. . . he was a bloody mess. . . if you look at him hard his nose bleeds. . . it was mostly from his nose and where they had struck him about the face. . . it was a horrible thing. . .

Some say Camden is gripped during the next session of court starting in February. SEIZED WITH FEAR? Some say the community has been seized with "fear." . . . If there is not terror or fear here, there is surely apprehension and anxiety. Or, if nothing

more, there is much talk, rumors and soul-searching. . . . There can be no real definition today — for each person seems to have his own interpretation. . . . Many responsible citizens, including Mayor Henry Savage Jr., say the Hutchins flogging, nothing to do with it. . . . Many responsible citizens, including Mayor Henry Savage Jr., say the Hutchins flogging, nothing to do with it. . . .

Seek Channel 9

By EMERY WISTER
Charlotte News Staff Writer
Piedmont Electronics & Fixture Corp., a losing applicant for the long-sought television channel 9, today asked the Federal Communications Commission to "reverse itself" and award it the channel.

Under FCC law, the appeal had to be filed no later than today. . . . George M. Ivey Jr., chairman of the board of the Carolina Television Corp., the other losing applicant, said he did not know if attorneys for his firm had filed such an appeal but indicated they will likely do so. . . . H. H. Everett, president of Piedmont, said this morning the

petition which his firm filed "should not delay establishment of a new television service in Charlotte." . . . He pointed out Piedmont is not asking the FCC to order WSOC to halt construction of its new station. . . . He pointed out Piedmont is not asking the FCC to order WSOC to halt construction of its new station. . . .

USED AS MOTIVE . . . If, indeed, the Hutchins case was not a race case, the "excuse" of race feeling was used as a "motif." . . . Still some citizens brush aside the whole matter as "personal" and say the other "events" have nothing to do with the Hutchins flogging and the incidents here in the past few months are not related. . . .

Doctor Held For Death Of Elderly 'Dahlia Lady'

EASTBOURNE, England (AP)—Dr. John Bodkin Adams was accused today of enslaving a wealthy 81-year-old widow by turning her into a drug addict. . . . The prosecution outlined its case against the highly respected 57-year-old bachelor physician at a hearing in this genteel seaside resort where many old people come to spend their last days. . . .

Prosecutor Melford Stevenson suggested the defense may take the line that the doctor merely was easing the death of a woman already dying. . . . He told how Dr. Adams was accused by the Scotland Yard detective Dec. 10 during the investigation of the death of the widow, Mrs. Edith Morrell. . . .

Dr. Adams received a Rolls Royce and a valuable chest of antique silver under Mrs. Morrell's will. . . . The doctor also had been trying to get Mrs. Morrell to leave a locker box full of jewelry which she kept at her bank. . . .

GO ON QUIETLY . . . There is no law against such a meeting at a private institution, and the meetings were going on. . . . See FLOGGING on page 2-A

One Killed, 14 Injured In Alaska Fire

FAIRBANKS, Alaska (AP)—Nearly 50 persons escaped by leaping into nets or climbing down shabby ladders in 51-below-zero weather yesterday as a midday fire sent clouds of acrid smoke swirling through the city's largest apartment building.

One man died and 14 others were injured, including two women whose spines were fractured as they leaped into fire nets. The others were overcome by smoke or suffered cuts.

More than 300 persons were trapped in the new nine-story Northward Building. Although the fire was confined to the basement, heavy clouds of smoke swept up elevator shafts and stairwells to fill the halls and seep into apartments.

Stanley A. Davis, apartment manager, said, "nobody who stuck to their rooms was in danger." The building, largest in Fairbanks is fireproof, he said.

The only known death came to a man who sought to escape by climbing to the building roof, only to find the door locked against him. He died on the stairway. Firemen identified him as William Stebbins, owner of a bar and a prominent West Coast restaurant owner.

One woman lost her heavily-bundled 6-month-old baby seven floors to a hot below and then jumped after her. Both escaped serious injury.

The 23rd-apartment Northward has a population of about 700. Nearly half of the tenants had left the building to attend church or go to work.

Fire Chief E. B. Woodcock said damage to the building would amount to \$10,000 or \$15,000.

Guards' Duty 'Compulsory'

WASHINGTON (AP)—The Army today defied strong opposition from the National Guard and ordered compulsory six months active duty training for all new Guardsmen.

Secretary of the Army Wilber Brucker announced that the new policy will become effective on April 1. He said it had been recommended by the Chief of Staff, Gen. Maxwell D. Taylor, over the "non-concurring view" of the National Guard Bureau.

The National Guard Assn., which speaks for the 400,000 members of guard units in the states and territories, last week denounced the Army training plan.

Maj. Gen. Ellard A. Walsh, president of the Guard Association, told a reporter today that the Army and the Pentagon "might as well face the fact that they have not heard the last word" on the issue from the states and that the Guards' strong opposition will be taken to Congress, where the matter will be settled.

SERVES NOTICE

Walsh, serving notice that he has called for a meeting of Guard officials and commanders from all the states and territories, said the Defense Department has failed to "sell" its six-months training program for reservists and now is trying to "foist it on the Guard."

Heretofore, new members of the National Guard could volunteer to take six months active duty training, and several thousand have done so since the fall of 1955 when the new reserve program started.

But this training was purely voluntary for new Guardsmen just as it was for pre-draft youths who signed up as reservists and thus exempted themselves from the draft.

Humphrey Bogart Dies Of Cancer

By JAMES BACON

HOLLYWOOD (AP)—Humphrey Bogart, one of the movie's greatest talents and certainly its most non-conforming non-conformist, died today of cancer of the esophagus. He was 50.

As late as Saturday night, Bogie was still Bogie. Talking optimistically with friends, between customary scotches, he gave no sign the end was so near.

But Sunday morning he sank into a coma from which he never revived. The end came at 2:10 a.m. with one final deep sigh. At his bedside was his wife, Actress Lauren Bacall.

CHILDREN ASLEEP

Asleep nearby in the sprawling Holyby Hills manse were the two Bogart children, Stephen, 8, and Leslie, 4.

And thus cancer killed off the academy award winning star. His physicians said it was a spread of the original malignancy that brought on death.

Unlike most victims of cancer in the throat area, Bogart's voice was not affected. Until the final coma, it was the same old Bogart bark that used to make the toughest screen hoodlums drop the toughest.

Bogart, though dying, had been comfortable in his last days. A recent operation had removed some scar tissue on a nerve and given him much relief.

FUNERAL PENDING

Funeral arrangements, still pending, called for burial Wednesday or Thursday at Forest Lawn Memorial Park in nearby Glendale, final resting place of many movie greats.

Mrs. Bogart asked that money be sent to the American Cancer Institute in his memory.

Bogie, the movies' favorite "tough guy" never would admit publicly that cancer would beat him.

"I'm a better man than I ever was," he told this reporter just a few weeks ago.

Even after the state of his health had become the prime

—SHE'LL BE BACK IN A YEAR—

New York Mother Leaves Tots For 'The Man In Love'

NEW YORK (AP)—Four small children are in a welfare home today, abandoned in a church by their mother who said she was "going away with the man I love."

Police identified the mother as 32-year-old Mrs. Eleanor Hyans, who had been separated from her husband and was living on relief.

HUMPHREY BOGART

cocktail hour topic in the movie colony.

If Bogart knew he was going to die, he never let on to friends.

A New York newspaper recently printed that death was imminent and when other papers and wire services called to check it was Bogart himself who answered the phone with a caustic:

"What are the ghouls saying about me now?"

Although Bogart, on-screen and off, talked like a gangster he actually was Park Avenue born.

His father was a physician and his mother a noted magazine illustrator.

Bogart himself had attended Andover Academy—one of the nation's finest prep schools. But he got into the theater early on Broadway. It was hard to imagine that Bogart was the originator of the famous line: "Tennis, anyone?"

He had started out as a patent leather juvenile complete with blue blazer and white flannel pants. He still carried in his wallet his first notice, written by the late Alexander Wolcott.

It read: "The performance of Humphrey Bogart could be described mercifully as inadequate."

Perhaps his greatest stage success was as Killer Duke Mantee in "The Petrified Forest."

Charles Santoro, 26, contacted police after reading of the abandonment in newspapers.

Santoro, a carpenter with two children of his own, was turned down, temporarily at least, in a bid to care for his sister's children.

ALARM SENT OUT

He told police of a man with whom his sister had been keeping company. Authorities later identified him as 19-year-old Robert York, an auto mechanic and nighttime law student. They sent out a several-state alarm for him.

The alarm was directed in particular to Texas authorities, police said, after they learned the youth had talked of seeking employment in Texas oil fields.

THIEF TAKES DOOR

DETROIT (AP)—Charles Trimiew, 23, of Detroit, heard a noise at the side door of his home. He investigated and found the door was gone. Then he saw a man running down an alley with it.

With near-zero weather, Trimiew said he is anxious to get his door back.

Evening Prayer

O God, help us to accept the privilege of bringing everything to Thee in prayer. This would we know the peace which Trust in Thee brings to our hearts, Amen.

TIED TO TREE

He was carried off, he later related, to another part of Kershaw County where he was tied to a tree and "flogged."

He was being whipped, he was told, because of views he had expressed before a Lions Club meeting concerning segregation.

"We know you, Guy Hutchins," one of the hooded men allegedly said.

A week later six men were arrested, later released on bond, and a trial will be held during the next session of court starting in February.

As a result of the flogging incident, the harsh glare of publicity has been cast upon South Carolina, Camden and Kershaw County, and even on the South itself.

The case has led to a deep impression on the community.

Under FCC law, the appeal had to be filed no later than today. . . . George M. Ivey Jr., chairman of the board of the Carolina Television Corp., the other losing applicant, said he did not know if attorneys for his firm had filed such an appeal but indicated they will likely do so. . . . H. H. Everett, president of Piedmont, said this morning the
