The Senate Loses A Courageous Voice

Keeping Secrets In 212 Words Or Less

HISTORY will record that 1958 was the year in which gobbledygood finally triumplied over all conners. It may be recalled that Sen Arthurt V Walkins discovered a tortious 212-word sentence in the government's new-est income lax instructions last March and offered a copy of Shatu-prize Excussite to anyone who could say the same thing more clearly and more briefly. There were more than 600 entries. Not one was actually successful in reducing the gobble. The sentence remains involate to this day, backing in all of its windy and preferencies grandeur. Sen Walkins should have known better. In the first place, the Internal Review of the sentence of the

ANY LOGS LEFT?

NORBERT LAROCHE the Hermit of Newport has announced his intention of leaving Arkanasa presumably for a state more well supplied with undistincted hollow logs—and, all things considered who can biame hin?

First, he was disturbed by hunters who reported his old abdee and manner of drong Second, he was arrested for vagrancy when it was obvious he had a root over his head (his now-lamous hollow log) and a means of support a sack of overripe vegitables.

But the third, and unkindest cut of all from any hermit's viewpoint, came when a sample and lamous documents.

all from any hermits viewpoint, came when a promotion-minded appliance deal-er in Newport hauled the Laroche Log-into his store for advertising purposes and promised, longue in cheek to equip it with everything from air conditioning to door chimes Other Newport business, not to be outdone, keyed their advertisements to the same theme.

tax cut "is only a good device to fight a mild recession while confidence is still strong."

To delay the decision on a tax cut is actually to make the decision.

An erosion of confidence is already under way—affected by mounting inemployment and the uncomfortably large number of recent receiveships.

Logic, then plantly for the conversion of the consequence of a tax cut now—more only if it is subtrained enough on diseasement of the translation of the consequence o
