A Few Chosen Court Cases Of Last Week To Ponder

A fifth thing that passes understanding tase our Latters column to leaked it is the way of the law with its offenders. Take, now, the case of the three white men, well known about town and two of them to strangers to trial, whom County Rolletto Realize margin into the Solicitor McAulay snared into his court a month ago on a charge of

solicitor Macaulay shared into his court a month ago on a charge of conspilary.

The reidence, mostly documentary, satabilaned to Judge Howard's satisfaction that two of them bought and sold liquor in a common enterprise, that the same two were maintenance of the satisfaction of the same two were maintenance that the same two same prise, that the same two were main-staining nulsances, that all three were violating. State law by selling liquor without a license, and that all three fraudulently manipulated su-temobale titles to evade lading them to the law. He fined them \$100 and costs, with an alternative sentence of six months in jail. They appealed. Last week their case was not-proaced in Superior Gourt, which meant that they went scot-free on the same charge. Not, mind you,

meant that they went scot-free on the same charge. Not, mind you, that they shouldn't have been turned loose. Supplicion, no matter how stoul, is insufficient ground for punishment. The benefit of doubt is the accuseds. But he has that benefit in all courts.

Take the case of Jim Massey. 'King of Charlotte's Harlem' and a convicted liquor law violator. County officers searched Jim's place on April 29 and found a few pints of Judge Howard astutely gave him a twelve-month sentence on the roads, suspended on condition that roads, suspended on condition that he violate no law, particularly the liquor laws, for a period of time? Subsequently, the Rurals went back to_Jim's place and found 150 pints. It tooked had for Jim, since his suspended sentence could be imposed out of hand, without the right of appeal. But see what happend. Six City police officers testified to Jim's good character, but had to admit that he sometimes sold liquor. His latterneys niesded "double tennardy". attorneys pleaded "double Jeopardy" that he had had the 150 pints at the time of the first seizure and that the raiders had overlooked it. Solici-tor McAulay seemed to have no great satisfaction in his case, and so there was nothing left for Judge Kirkpat-rick, subbing for Judge Howard, to do. Jim went free.

Some Questions For The Council

Deer Bir:

Judge Sims of the City Court says in making his report on the Police Department, the did so on the own initiative, no one detailed to him or knew of its contents. This statement is not questioned. But is it not passing strange that it cold him two vers to discover that Chief Pittman is entirely inefficient and that he mode his wonderful discovery at the very moment the political sensines of Chief Pittman needed such a report to outs them? Quite a conficience on say the least. Judge Sima is saking that his salary be increased. No dough he is entitled to an increase in salary. For a men who is able to serve as judge of the City Court and at the Maße time advise the City Council how to run the Police Department, a salary of 31,000 is entirely inadequate.
