MONDAY, JANUARY 31, 1938.

Griet for the Mill

About the merits of Social Se-parity in general, we have no signific. In our society, unemploy-ment and old san insurance are as-increasing as, say, trame lights, supertheless, the taking of judg-ments against five Charlotte and Drivers to the tune of \$1200 for belling to pay up last year remlined in tisst, as the law is written, it is

but it makes up for it in assiduousness:

Three rears for stealing an automobile in 1974. Later he was sent
up for bank robbery and other
up for bank robbery and other
stealing as sent to the sent of the
bery. He had escaped prison twice
before he break with Turner from
Caledonia in February, 1977.
Both these men were motorious
felons long before they became outlaws terrotising two states. The law
had failed, palpably, at reforming
them so that they might reaume
their places in a free society; yet
forebore to send them up for life
ss chronic offenders, and failed to
keep them securely during the successive times it had hold of them.
What this state needs for men
like Payme and Turner is a Baumes
Law, which mean life sentences for
all four-time felons, and an Alcatras
in which to lay them sway. It is
too late now to save Patrolinan Penn,
te there will be other. Turners and h.

STRECTER (N. C.) NEWS-Coll. 2 | Section 1982 | Sect And as for Persident Roosevelt. The Septembers have a devantage of the Milleaner by Southern Personal to John by his Into the parties of Laving to decide whether that use preserve to have the bill passed. Hominally, they are all for it, these Republicans, but they aid and abot the Southerners in keeping it from coming to a rote, and everybody is agreed that only the Praidient can force that.

m. Resping it from coming to a vote, and veryshody is agreed that only the President can force that, if he doesn't, he'll stand to lose the Northern Negro vote, for which he and Democratic Farty leaders have been making a strong bid, And if he does, he'll further silenate the Southern Senators and their constituents.

Uses of a Baumes Law Bill Payne and Wash Turner, with

sour gayne and wash Turner, with the verdick against them Saturday night, have finally come to the end of their rope. But what a long, slack tope it was, and how the law gree then every opportunity to do exactly what they did in the end, which was to kill a nice young High-way Patrolinan.

nsborn, 1927, arrested for vio-of the Harrison Act and

Act and services and services of the services of the Harrison Act and larresty. Raisigh, eight years for store-breaking; escaped prison. Recaptured, he was convicted on an old-charge of stealing an automatic of the services. Rowan County, 1934, 23 years for has retibery. Escaped prison in Pebruary, 1977.

Payne's record is not so extensive

A Characteristic Mood

And Mood 3, as Dr. Frank puts it

"to expose the growing practice in American politics, of which likely may have been guilty at times, of auctioning off the country to a succession of any highly-organized pressure group that can muster enough votes to be impressive."

enough voice to be impressive."
Probably the most highly-organized
pressure group in recent American
experience has been the reterans of
the World War. They have been
no worse than their predecessors of
the Civil War and the Spainish ensagement, but they have been
sight more numerous, and therefore
a sight more unmerous, and therefore
a sight more acquis of the Republican
Parly that a law was enacted granting allowances to World War veterans for disabilities suffered long
after the war was over and in no

erans for disabilities suffered long after the war was over and in no way attributable to their war service. And while it was the Democratic Party, principally, that gave in to the veterans and paid the bonus eight years before it was due, the Republicans did their best to capitalize politically upon it. Their memberahly in the Senate voted 15 to 7 to capitalize and provided the political poli

to override President Roosevelt's veto, and with that help it was overridden.

Speaking of Ghasts

That seems to have been a preity fair ghost story which, with the aid of our Mr. Paul, performed in and around the house on Herrin Avenue. It must have been passably gridly-looking to have scared that tast-driver practically into running its. And when a cittleen was un-

earthed who actually had a wrestling

match with the ectoplasmic visitor

why, yes, it was a pretty salisfactory ghost, calculated to start up
the backhair even on our own skeptical match.

Nevertheiess, by and large, wa still prefer the ghosts of fiction to

and prefer in e ghosts of fiction to practicing khosts. For these latter, rarely show any considerable imagi-nation. The best they can do, usu-sily, is to grean hollowly, clant some chains, open a few doors, shart up draughts, and sigh while you

too late no

ray Patrolman. Look at Turner's record: San Diego, 1921, arrested for grand larcent.

Si Paso, 1822, violation of the Dyer Act. lego, 1921, arrested for grand

WHEN IS A TRUST. OKAY?

WASHINGTON—My erstwhile play-mate, Donald Richberg, is right in his proposals for modifying the anti-trust acts to tell business what it can as well as what it cannot do, and to set up some adminis-trative body to vali-

traities body to vali-date proposed cor-porate action pre-serving civil liability in case of injury by integal action. He is right in his proposals and right in his supporting argument. He has

proposals and cause in his supporting argument. He has given this subject study for many year, as have I. I proposed a similar solution in a report of the Wat Industries Board written in 1918. I advocated it in my Senate testimony on NTA in April, 1935, and continuously since in this column and in dozena of

what argument can there be against such a proposal? In probabilities any contract or combination in restraint of trude, the anti-trust sets altempt to inhibit the inevitable. Every contract and combination is to some extent "in restraint of trade," What we have never had is a clear definition of what we really intend to prohibit.

rot withstanding the anti-trust acts,
They Grew Up, we have seen during
As Natural / their life the greatest
Phenomena concentration Not withstanding

fulfile laws condemning what could not be prevented. It would be both debe prevented. It would be both de-ericctive and futile now to attempt to break them up into little pieces. The sensible course in the past would have been to encourage the good they did, for the public and prevent the evil. That would be the sendible course now. That, as I understand it, is the es-sence of Mr. Richbern's proposal. It is a mood of five phases, Dr. Glenn Frank says, in which the Republican Parly should approach its—er—responsibilities. We have an idea that the responsibility of which the party is most acutely conclous is to get latel back into office; but never mind that just mow, and never mind Moods No. 1, 2, 4, 8, 1t is No. 3 that concerns us at the moment.

Up to now, control

Up to now, control of them has been in Law Offers No the Federal Trade Guidance At Commission and the Fresent Department of Justice. The courts have read the word 'unnered and the trade of trade of the trade of th nomic control, that government alone can now make the path plain. Statu-tory definitions of what can and can-not be done may be harrh, but if they are only clear, that will be for better than the present for of almost com-plets uncertainty.

of the lity in which it is now in operation.
It occurs to me that an adopt convenience to the public gould by he addition of some method of Mentilastion on the rear of the wholes. Such an addition would be superflows in the readential sections, where there is nothing to obstruct a view of the large signs at the front of the bus. But the situation is entirely different in the business districts, especially at the platforms on Independence Square, where frequently as many as three busses, all headed in the same direction, stand in a compact group. A prospective pastfrequently as many as three buses, all headed in the same direction, stand in a compact group. A prospective passanger for the easiers acction of the city, for instance, will be hasiering exturant on West Trade Street, confident that one of the trio is, asy, marked "Sastorer." How to determine which? There is no known method except to put the old does into high, against the changing of the traffic light, and with an added burst of speed, cityle entirely sround the parked buses and then begin the inspection from the front.

The writer has personally missed vahicles on several decastoms, which could have been caught hind is but known his quarry. In would seem that the powers that he could wark out a system of simple marks of identification for the rare and of these public carriers. I am sure that I am not alone in my experience.

INCREASE IN PREVALENCE OF SYPHILIS IS BEASON FOR THE GRAVEST ALARM

I have been thinking of late what s I have been thinking of late what a serious condition our country is geting into on account of the ravages of
social disease. Instead of our governments, City, County, and State, spending money for other bings, they should
consider first the health of the nation.
It is alarming, the increase in the jest
year that sphills has made in
well
country, and it should cause everyone
to take notice and sasts in every
way possible to eliminate this disease.

If we are not careful, we shall set

way possible to eliminate this disease.

If we are not careful, we shall get late the condition of some of our Agiguic countries, where people are lyling about in the streets half deed and many of them just waiting for the undertaker. If they have such an individual, to come slong and carry them to Potter's Field. I hope that our medical faculty of this state and of our city will wake up to the serious condition. Everyone should be up and at work while the time is ripe, for darkness will come when we cannot work. I hope that the many who read this will lead a helping hand to this cause, doctors and layrers, preachers and layrers, and laymen, preachers and lawve

Two Cents a Look

(Letter in The Tur Heel)

Dear Sirs:

Now that exams are over and you have exposed me to a but of theoreties.

Now that exams are over and you have exposed me to a but of theoreties problems in economics, I think that this time is ripe for me to ask you the solution of a practical one which has been bothering me for quite a white.

The problem is this: I vanally get the regular twenty-free ent dinner and support at Beach Rall, but in addition I take one extra piece of bread and an extra square of butter. Now if I go through one of the two lines, I'm allowed to get by without paying the extra two cent fee. But if I choose the line with the pretifier eachier I invariably have to pay prettier cashier I invariably have to pay

pretiter cashler I invariably have to pay twenty-seren cents.

If you do a little rapid calculation you till you do a little rapid calculation you will see that four cents a day for seven days amounts to twenty-tipht cents or a little cover the price of one meal. or a little cover the price of one meal, or a little cover the price of one meal. Or making a rational choice depending upon marginal utility. The choice ought to be a comparatively simple one. All I should have to do would be to decide whether, there is in greater marginal utility in the sixtam meal, or whether it lies in getting a close-up of Miss Warran typic a day, seven days a week. twice a day, seven days a week
