In return, Tojo would agree simply not to fight the United States just now. Furtherest thing from his mind is ending Japanese aggression in Asia. Indeed, the very terms of the ultimation are designed to give Japan a free hand against China, Ruesta, the Mailay peninsula, the East Indies, and India.

Bolled down, the Japanese are tell-ig us: Get out of Asia and sell us hat we want or we'll knock your ears

what we want or we'll knock your ears off. That is the message Envy Kutinst has brought to Washington. To equal the solid brass in this situation, we might end a special envoy to Berlin and demand that Adolf Hitler pay back the millions of dollars the German Republic borrowed from the United States, plut after the World War. We'd stand just about the same chance of collecting as Mr. Kurisus does.

If the Japanese only knew it, it is the United States, not Japan, that is in position to make demands. Apparently they don't know it and will be obliged to learn the hard way.

Goebbels Turns Emily Post To Stamp Out Decency

In the mind of little Paul Joseph Doebbels there seems to be some uncer-tainty as to whom Germany should alame for starting this war. In the reginning it was Poland, sicked on by ance and Britain, which attacked Ger-

reginning it was roamen, steen on or Synanes and British, which attacked Orthanny after having rejected Hitler's invitation to talk it all over. The fact that the invitation was delivered fours after Neal toops were pouring over the former did not concern little Paul or cause him to retract that version of the events leading up to war.

Later, however, Poland's collapse made about even to a propagandist the story that the had wannoutly set upon mightly Germany. And so little Paul chanced the tune of this hymn of retribution. The esglialitud eventorates were entireling the Reich, and that had brought on the war. Germany was only fighting law way out.

When it began to look as though Germany, through her occupation of vast serviciories, was doing a good deal of vast serviciories.

when it began to look as though ver-iny, through her occupation of vast ritories, was doing a good deal of circlement on her own account, little specirelement on her own account, little Paul added a new verse to his sone. The scause of the war was historic. It all had come about because of a conflict for interests that was as inevitable as it was not arbitrable. But last werk little Paul resurrected an old favorite scape-weat.

The Jews started this war. The Jewish race is of too little potency The Jewish race is of too little potency maternationally for Goebbes to concentrate the war blame upon it, and thus to appeal to anti-Sentites. No, something sees is at the back of this latest singing out of the Jews and the formulation of ten new rules for the so-called Layans to follow in their dealings with the commentary of the comments of the

What's happening, evidently, is that as run-of-mine German is not overcertain is not over-earing or cruel enough to suit little sail and so must be shown the light. It makes a pretty story, does it not, of hu-man decency suppressed?

The Pinch

Not Enough Steel-

Or Too Much Red Tape?

Before accepting the Government's cision to increase the nation's steel section to increase the nation's steel producing capacity to 80 million tons, steeplies among us would like to knew just what kind of shortage is plaching. We have Admiral Lands sectionory that the shipbuilding program was impeded because steel plates and parts received in the shipbuilding program was impeded because steel plates and parts receive not available.
