Third Terms They Can Be A Lot Less Harmful Than First Terms

In letters to the editor this week about third-term for President Roosevelt, many people have viewed with alarm ssibility of a dictatorship. It seems to us, trying to view the case jectively, that eight years' experience with a President who has done his best with a president who has done his desi-to preserve the civil libertles that are so essential to democracy is an acceptable guarantee of his lack of such an ambi-tion.

tion.

As much, however, cannot be said of some of his enthusistic disciples in this part of the country. Dictatorable, perhaps, was furthest from their minds, but in the motions they went through it was ons they went through it was

peritously-close. The primary move in establishing a dictatorship is to suspend civil processes by for Krab, prestedy, was what New Newschipper Covernor Olin Johnston of Bouth Carolina did when he took over the highway department by show of arms. And that, presidely, is what New Deal worshipper Covernor Rivers of Ceorgist has done, only he has gone to greater extreme of declanes.

greater extremes of defance.

He has defied his Siate courts and he has defied the Freierst courts. He has pardoned officers of the National Guard who were sentenced to imprisonment for flouting court orders. He has said, quite frankly, that as governor of Georgia he does not propose to have a hishway commissioner using that office to advance his campaign for the governorship, and that he will kick him out, courts or no courts.

Third terms, it may be, are unwise, but rst terms for men who brook no limi-stion upon their authority are worse by

But for ourselves, it leaves us with a decided senantion of relief. Not that we sitogether lack sympathy with the St. John's program of educating the young-men in its balls by instructing the young-men in its balls by instructing the roung-cludwing if the Hundred Greatest Au-thors. It race about time that somebody began to make American education something more than the acquisition of a vague smattering of knowledge concerning a hash of, say, the rock sculptures at Abu-Simbel and Practical Exporting, as an incidental to four years of enthusiantic devotion to football and the Oreck letter fraternities.

Merertheless, we had had our fears,

An Admirable Judge Permits Himself An Unworthy Mood

The 'portrait in type' of Judge M.
Hoyle Sink, to be found elsewhere in this issue of The News, makes him out a fair and square man whom wongdoers dread, lawyers have to respect and newspaper men admire for his forthrightness. With this characterization we have no argument—Indeed, the assignment was at our suggestion.

Dut even a fair and source man can be a fair and source man a fair and source man can.

But even a fair and square man can err, and we think that Judge Sink erred lavishly in his treatment of the superin-tendent of the Morrison Training School,

The circumstances were these. Judge,
irrgwyn, halding court here last Decemer, had ordered the school to receive a and to hold him for an indeter period. The superi tendent denied him admittance, writing Mecklenburg of-ficials that he had no space for him, no
