Aussies' New Vittle Ceiling Reveals Uncontrolled Eating

Curtin killed that effect, however, Curtin killed that effect, however, in the next breath. All other meals, he added, would be limited to 48 cents. What other meals? If these folks have been eating more than three a day, they could stand a little austering. Our-selves, we never heard of anything clse except breakfast.

Mecklenburg Legislators

to content themselves with looking for concealed weapons. Found quite a few,

Towns Stir Up Baseball's Fight

One reason, we venture, that the thousands of boys in the AEF would like to be home these days has two do with baseball, and the furious dramming down the home stretch in the old National League. Those boys over-

of The Charlotte News was established in 1883. The Evening skied 1803 was purchased by and consolidated with The 180 S 1914

rinned to note, came from small towns.

grimed to note, came from small towns. Country towns even.

There was Jimmy Brown from James-ville type, 499°. Enos Slaughter from Rosboro 1909. 4,599°. Coaker Triplett from Booto type, 1,838°, Martin Marion from Richburg. S. C. 1909. 1833° and Max Lanier from Denton 1909. 5773. We don't know that we proved anything with our investigation, except that it's hard to whip Carolinians, and youngsters from the little towns. Anythow, we're glad that the biggest basebail battle in many a year is being fed your own youngsters. It may be the last basebail campaign for a long time, and it seems proper that we get in our usual lick up in the big time.

The weakness of their leadership in the

years before the war, plus their own panic, got them into a situation where

now they are compelled to accept the

now they are compelled to accept the leadership of an avowed trailor.

Open revolt against Pierre Laval would only bring his German masters down upon the French people to take over in his stead. But supine compliance with his order conscripting French labor, both male and female, would contribute measurably to postponing the day when France's conqueror may be dealt with, that nation freed.

It is an unhappy choice to face, but France is in no position to be spared unhappy choices. The terms of the armistice that was signed with Germany

armistice that was signed with Germany envisioned no such co-operation with the Nazi war effort as this which La-val assumes to offer, counting upon the helplesaness and spiritlessness of the French people to let him get away with

It is not enough for France to accept this conscription of labor with a secret resolve to commit sabotage whenever possible; the German mind is capable of detecting and dealing with sabotage. It is time, indeed, for France to revolt against Laval even if the only immediate effect of it is to invite German acceptation of the rest of the country. At least that would draw off a few German divisions from service elsewhere and further complicate the Nazl problem of governing its conquered lands. And it would be a sign that the French prople are with us. Otherwise the assumption with have to be that they are against us.

All Others...

Australia, we see is feeling the pined of war these days. We've known for some time, of course, that the continent was considerably nearer the danger rose than our own. We just found out how much closer. Down Under. Prime Minister Curtin says, there will soon be only "austerity meals."

"austerity meals."

Auster Australia rings like a phonetic bell, but its sound does not satisfy the investigator. We went to Webster, who reported on austerity: "The quality or state of being austere; severity; asceticism."

ticism."

We looked back. After Sept. 21, Curtin says, meals served in public will be limited to three courses, with ceiling prices of 84 cents for lunch, 80 cents for dinner. That wasn't a bad bit of bet-tightening, we thought, though it promised no starvation for the Austere Aussies.

Durham's Is Commended to

Durham's Is Commended to Mecklenburg Legislators

Well worth the attention of Mecklenburg County's defeation to the next Legislature is a law now applying only to Durham and Alamance Counties. First put on the books in 1955, it required the registration of all pistols, automatic pistols and revolvers tout not shotguns and riflesi and a permit for the purchase of new weapons of the purchase of new weapons of the purchase of new weapons of the County of the Coun

too.

Almost everybody concedes the wice caution of keeping track of small arms, both to prevent the free and easy purchase of pistols by those who have no right to them and as a record of courterable. If our Mecklenburg Legislators were to consult the chiefs of City and County police departments, doubtless they would find out that they too would endorse such a law.

For A Brand New World

Dawn Breaks In The Midst Of Our War

WASHINGTON.

While we are all discussing the speech of the President on inflation, which dealt with the problem of how to restrict the purchasing adapt ourselves to the scarcity of consumer's goods, revelations made at the meeting of the American Cherospect that is breath-taking.

They reveal that in the midst of war a new epoch is dawn-ing, at least technically, which reduces the peregnial causes of war to nonsense.

reduces the peregnial causes of war to nonements.

Any sensible person must agree fully with the President's Insistence that we keep order in what remains of our civilian economy. The person of the

inconceivables of only two years ago are today's realities.

100 are today's resilities.

"Ametican chemists are discovering new continents of matter and the world of 1940 has already become an antiunity and the world of 1940 has already become an antiunity and the war is won we will have at our command ten to a hundred times what to a hundred times what we had before in new materials.
"Yew and more verastile synthesis of ammonia, for the state of the synthesis of ammonia, for the synthesis of ammonia, for the synthesis of ammonia, the synthesis of a sy

dow screens without wire," ctc.

Dr. Sline said there was a condition for making the future world bright, and fautastically rich. That freedom of enterprise it should guarantee."

We will all accept this condition. In defeat all our efforts will be used to serve ourselood called and critical mind that is capable of creating "new continents of mater will be stiffed.

But what is freedom of enterprise? Is it the freedom of enterprise. Is it the freedom of enterprise that we have teday? And where lies the difference between the two?

REPORT THE REPORT

By Dorothy Thompso

The inventions are apparently sudden efflorescence. Nine months of war have passed, and decades of scientific development have been telescoped into months and weeks.

M weeks.

But no one can tell us that all this progress has come as a kind of apocalptic revelation that burst on the minds of scientists with Pearj Harbor. Science is not like that; it scareful and methodical. Everything that has been brought out in the last hine months was

there before, latent and unused.
Dr. Stine says. "The war is compressing developments." What does he mean?

Dr. Stine says. "The war is compressing developments." What does he mean?

He mean? that there is a scolal secretic services of profits, regardless of profits, regardless of profits, regardless of control of the services. The services regardless of completies, regardless of control of the whole medical that the services of the whole medical that a service services and that is a service of the services and that is the services of the services

What we are doing now for the purpose of creating instruments of destruction we can do tomorrow to create a grandour providing we have the intelligence, and the morality to recognize that in the new world there is enough for everybody, who have bound the hands of the nation for reasons of personal or group profits are merely destroying themselves,—the pressure of the whole social necessity.

The President said in his speec

—the pressure of the whole social necessity.

The President said in his speech that we must invest a bundred plant with the said in the speech that we must have a bundred purposes. Yes, we must. But a nation that can invest a bundred billion dollars in instruments of destruction in 1943 will be able to invest and the said to the said of the

Sacrifices Back Home

By Paul Mallon

WASHINGTON

WASHINGTON

FON MENDERSON (in a speech before Sales Exerultive Chib, Sept. 8);

White Acadities have we made who have sent no
on, no father, no brother or swettheart to war? Is
here sacrifies involved in mational lucome of 113
nillions of dollars? Is the sacrifice in 400 per cent
uncease in profits; In 71 per cent increases in wares
and saluries, in 75 per cent increases in wares
and saluries, in 75 per cent increases in farm income?

I think yes—plenty Mr. Heuderson is deceiving
both hunself and its listeners.

The farmer who is settled to 25.

ofth humself and his listeners.

The farmer who is getting the 75 per cent increase in income is sactificing greatly in the shorter of farm labor, which makes him do 70 shorter of farm labor, which makes him do 70. The great bulk of the warkers of the country hast had fittle of that 71 per cent increase in wages and salaries, which has gone mostly to the union laborers in defense industries.

union laborers in defense industries. Investigate that of Chovernment workers, for instance, have had not 71 per cent increase, and yet are called upon to pay jour and five times as much iff taxes. This is the same sacraticing condition of most white collar writers and the great middle class of the country, being ground painfully between high taxes and high prices, without a wage increase.

sometime netween high taxes and high piress without a ware increase.

Bushiess, as a class, has sacrificed greatly, much off it to the point of extinction, due to lack of raw naterials.

Bushiess, as a class, has sacrificed greatly, much provide the control of the control of

not "profits."

Life, the statistician that he is, Mr. Henderson looks only at figures which serve to misguide his thoughts, rather than at human helms, few of whom have falled to make sacrifiers for this war, without much muttering.

The lower standard of living that Mr. Roosevelt forestold for most of the people is here. Much of the country is doing its bit without war pay. Mr. Henderson on never statisticize that out of the minds of the people who are atomic the pincip as a pivilege of the people who are atomic the pincip as a pivilege.

that the "luxury of free spending cannol be con-tinued without disaster."

What insur? What free spending? Certainly not for sugar, trees, gaseline, wearlons at beaches, than trips, automobile Journeys, sille hose, the two-way stretchers that women wear. It seems to me Mr. Henderson has pretty well charmled down on both luxures and free spending even if he does not think so.

The People Learn

that ares.

At any rate, it still has the potentiality of a major hase for an offensive northward, exterminating major Japanese bases island-by-island.

The People Learn

The people of the country seem to have adopted out of their personal experiences in this war, a more sensible attitude toward it than many a Washington leader. They have been fed so mutch lish attiff and so much low stuff by Washington that they have been fed so mutch lish attiff and so much low stuff by Washington that they have been fed to be sometime of the war for them by personal experience, as a Southern editor has observed to me. They are no longer alternately frightened or comforted by high and low official advice of the day. They are going pretty much along the even tenor of their ways, along what the experience of their ways, and they want to be a southern the southern that the southern the southern the southern the southern the south was not accept which we have not faced since our mindians were civilized.
