Not For Us Tom Devey Wents Alliance Of A Kind We Can't See

Tom Dewey, the sly Republican can-dente, hiese a smile behind that mus-teen. In session of the Post-war Ad-visory Ownell of the party, he calmly sat off a homb. Tom Dewey wants a strong and germanent alliance with Great Britain. Casually and indefinite-ity, he proposed a "military" alliance. In this excited taik following, it developed that the Resublicans wanted to make an eilance hinding in every field; mili-tary and economic, especially. For a

the section and continued to developed that the Republicane wanted to make as atlance briefling in every field; military and economic, especially. For a great many citisens of the nation, that such do.

Resentially, so far as Americans are sencerned, the war is being fought for freedess. That, so the theory runs, is seasily why thousands of young men have been dying early in life; they have accriticed golden years in behalf of manifall. Young men who have died because freedom and aggression cannot be linked together in one small world. These who are still to die will meet seath for the same principle. And there are, in the appeading British empire, countiess millions of people for whom allied victory will not mean freedom. It is not, perhaps, American business as to what policies Britain shall follow within its own empire. It would be reserved if Britain were to dictate Philippine policy, for Insistance, But it is another than the freedom business to see that the freedom of the property of the property of the seath of the property of the property of the seath of the ready for centuries in the British ampire has not been consistent with a welley of centuries in the British angier has not been consistent with a welley of centuries in the British angier has not been consistent with a section ideas of what freedom (we made in the proper base of the part may be a first of the part is the part in the British angier has not been consistent with a policy if the proper But is proper and the proper base of the proper But is part of the proper base in the British angien lease of what freedom (we made in the proper But is part of the proper But is an another begun that road, in most of her dominions. What is the reason, Tom Dewey, for American liliance with a policy like this?

Apple Pie

Its Kingdom Is Now Invaded By A Host of Pale Usurpers

In a local restaurant the other day, swiftented with a choice of apple, butteracotch or lemon, a pic-eating custom-as committed the perfect outrage: "Zat all you got? Gimme lemon." at that moassit, we knew the world had changed for the worse, and that things weren't as they were in the old days. Apple ple was lesing its grip on the appetite of America. In the face of the grand old Assetica. In the face of the grand oid raddition of home-cooked pastry, the castial castomer was defiant; he preferred some thick, synthetic aluah to the delight that is apple ple. That man pulled a world down around our cars.

Oh, who reamembers the times would be a world down around our cars.

set a world down around our ears.

Oh, who remembers the times when there was scarce a pie; except apple? The days when the query. "What kinds pie for dinner?" meant what kind of spile, pie? Who can recall the days when, instead of allowing just any kind the first piece of the piece of the

who also blist slown to eat of the fruits or the band, these slays, knowing that a sell top it off with that greatest of the bane-coaled apple plo? Who is interestable stories of the man of the sell that the sell top it is the sell to be sell

of fruit in storage, the sharp, tangy pertness of an apple meant for cook-ing alone, and not intended for eating in the raw? Who remembers? There are fewer of us, year by year. The world goes to the dogs, to the eaters of syn-thetic ples. Our future cannot be bright,

The future of the little people of Italy
becomes more and more mysterious.

Some weeks ago, the Office of War Information spoke for the Italians, and
against their "moronic little king". But
OWI was strongly rebuked. That was
too much of a good thing, American officialdom couldn't afford to be too intensely anti-Fascist. One would have
thought, on that occasion, that the
United States Government was determined to do some monkey business with

tensely anti-Fascist. One would have thought, on that occasion, that the United States Government was determined to do some monkey business with Victor Emmanuel. Now, that grim propent has become a virtual certainty. From London, the historian H. G. Weils has complained that his pleas for Islaina freedom have been suppressed by his Government. Freedom of speech, which was the suppressed by his Government. Freedom of speech, one of the property of the suppressed by his Government. Freedom of speech, one of the property of the suppressed by his Government, freedom of speech, one of liberates freedom for the property of the suppressed by his Government, freedom of speech, one of liberates freedom for the property of the suppressed by the suppressed of liberates freedom for the two most powerful Aliled nations have fall-en in love with the safetus quo. One may expect only that the king and Victor Badoglio will be considered the rulers of Italy, when the time of settlement comes.

There would be denials, in a deep basso, from both capitals, if such a charge were made. The good, gray men who fear to step out of the ruts of conservation would deep that the little people of the world would be made to suffer, after victory. But, all the same, the plan is to continue the abortive rule of the weak House of Savoy 2 years in powers, is actually in the position of an interioper in Italy, after gonerations of miscrable failure in attempting to ratse Piedomont and Sardina to positions of power. Conquering nations, like Brittian and America, have no legitimate, business with the official allence?

The Merry-Go-Round

By Dreie Pearson

Your Legacy

By Rev. Herbert Spaugh

By Rev. Herbert Spaugh

WHAT are you going to hand down to those left behind when you will call the property of the cartiff Monay? Our law course are filled with willing which are being contested by children whe will never feel the same towards one another.

A read your being to payersepeepe and good? They too have a way. A read you be to payersepeepe and good? They too have a way. A pood name a family tradition of honor, a family skill? For years the Swiss have had a reputation for being the linest watch and clock makers in the world. I am told that fathers pass their trade and skill on to sons who in turn pass it on to their children. There is a family administration of the payers of the same and the payers of the paye

fainly ecvaries utries trea nations, essaintegration in beign to follow. The policy of the Axis powers has been DIVIDE AND DESTROY. How well they have been able to use that policy is to be seen in the de-plarable condition of Europe. We in America have tried desperately to be on guard against such danger. We have tried to maintain a national unity and have succeeded to the extent that the material results of our war efforts are already turning the title of battle in our favor.

war efforts are already turning the tide of battle in our favor. How we uced to adopt the same methods down in the smaller confines of the family circles. It's true these are trying times when you have "war nevers." But this is no reason why we, should turn our backs upon our own flesh and blood; criticles those whe are nearest and dearest to us to acquaintance who esty rideals us for it behind our backs.

As I have written many times before in this column, those of our family circle deserve our best in courtesy, appreciation, consideration, love. These are the ties that give us a real family unity, and permittus to leave this old world bequeathing to those behind a name of rengliteourness and honor.
