

## Shot Kills Pvt. Duncan

Pvt. William M. Duncan was accidentally shot and killed while on a hunting trip near Fort Leonard Wood, Mo., on June 18, his wife of Charlotte and Pagehead, S. C., has learned. The details of the accident were given in the morning from the War Department.

Funeral plans are incomplete but services will be held at Dudley, S. C., and burial in the Pineville Baptist Cemetery. The Rev. W. E. Penderbark and Chaplain Guy Penderbark will officiate.

Pvt. Duncan entered service from Charlotte, where he made his home for some time. In November, 1943, he had been stationed at Camp Shelby, Miss., and at Camp Butler before going to Fort Leonard Wood.

The son of Mrs. Minnie Penderbark of Pagehead and the late William M. Duncan, Pvt. Duncan was born Feb. 20, 1912, at Salisbury, S. C. He attended East-McKee College, and on June 4, 1936, was married to Miss Jacqueline Manquon Pagehead.

Surviving Pvt. Duncan are his wife, two sons: William Buchanan and Richard Wayland Duncan of Pagehead; a sister, Mrs. Marian Duncan Sowell of Dudley; and a half-brother, C. A. Penderbark Jr. of Pagehead.

## W. Link Moore Rites are Set

Last rites for W. Link Moore, outstanding resident of Pineville who died yesterday in a Charlotte hospital, are set for 5:30 this afternoon at the Pineville Baptist Church. The pastor, the Rev. Mr. Maurer, will officiate, and will be assisted by the Rev. W. H. Frazier, the Rev. Mr. Rayle and the Rev. Mrs. Haynes.

Active pallbearers will be F. A. Butterfield, Robert Hair, L. S. McCorker, Roy Starnes and W. A. Tindell.

Mr. Link was born in Pineville on Sept. 24, 1892. He was stricken in Charlotte last Friday, and was taken to the hospital where he died.

Surviving are his wife, Mrs. Beatrice Earnhardt Moore; two daughters, Miss Annie Margaret Moore and Miss Dorothy Moore; two sons, James Gilbert Moore, U. S. Navy, and William Jack Moore, U. S. Army, overseas; a sister, Mrs. W. F. Windell; and a half-brother, Pryor Moore of Ft. Mill, S. C.

Vinegar brewing was known in the seventeenth century in France.

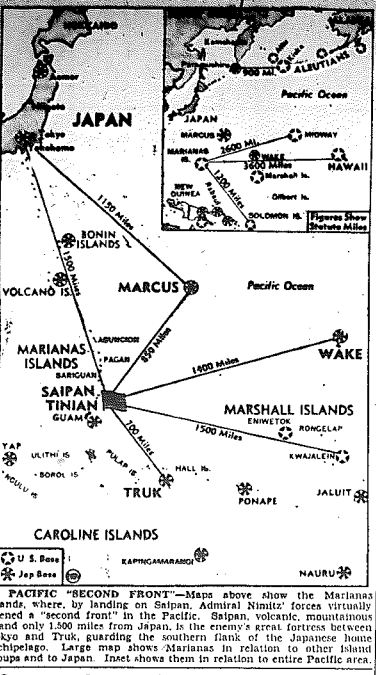

## You're Not Too Old To Feel Young

This is a message for men who have known life but no longer find it thrilling because of the lack of certain vitamins and hormones. Transcend a recent medical discovery combining vitamins and hormones may multiply the vim and vigor and improve your whole attitude toward life. Now it may be possible for middle-aged men to again enjoy the zest, spirit, vitality and pleasure that made their youth a thing to remember. Add your own fresh and robust from your physical strength, combine this with the new hormone, and you will find the zest, spirit, vitality and pleasure that made their youth a thing to remember. Add your own fresh and robust from your physical strength, combine this with the new hormone, and you will find the zest, spirit, vitality and pleasure that made their youth a thing to remember.

## Says Lend-Lease Made Invasion Possible

LONDON — American aid, of the construction of 100 air-dromes, the turning over of a large number of aircraft including 300 gliders and many squadrons of Spitfires and supplying American forces with one-fifth of their food.

An important phase of British aid to Americans, he said, was making available to our troops transports the great liners Queen Elizabeth and Queen Mary.

Littleton said that the enormous of Mustangs as an outstanding fighter plane was largely due to British initiative in his design and the Berlin bomber. He added that the United States had given data on a new night fighter which promises to be the most outstanding gunlight yet devised, and that it will go into large-scale manufacture in the United States practically in its British form.

The War Minister also pointed to British research in rocket weapons turned over to United States experts as a part of the British aid to America. He said that American rockets based on British design are now being used with great effect by American forces in the Pacific.

Littleton concluded his speech with a tribute to Gen. Eisenhower. "There is no one to whom I have talked in the British armed forces who has been under the command of Gen. Eisenhower who has not the greatest regard and affection for him," he said.

## Rev. Canipe Declines

The Rev. J. C. Canipe, pastor of the Baptist Church of Boone, who a few weeks ago was elected a unanimous call to become pastor of the Enderly Park Baptist Church of Charlotte, has declined the call, according to information received by the Baptist Board of the local church.

The Rev. Mr. Canipe went to the United States in 1935 after several years as evangelist under the American Baptist Mission Board of the Baptist State Convention. It is known here that Mr. Canipe has been considering two positions—one to accept the Enderly Park pastorate and the other to enter the service with the Mission Board to do special work as he has declined the local pastorate here the position is that he has accepted the latter work.

The pulp committee of the Enderly Park Church which is again on the lookout for a pastor, is composed of Ed. Eicher as chairman, C. Allen, Ray Gaddy and Mrs. Lee Masters.

## Banks Pay Dividends

Three banks in Charlotte announced today that they had declared dividends payable June 30 and several others reported that directors will meet in the near future to take action on dividends.

All reported satisfactory earnings for the second quarter and half-year.

The Morris Plan Bank of Charlotte declared a quarterly dividend of 2 per cent.

The Industrial Loan and Investment Bank declared a semi-annual dividend of 2 per cent, the cash distribution to stockholders being \$45,000.

The Citizens Bank directors authorizing the paying of \$45,000 to its stockholders a 2 per cent semi-annual dividend.

## President Of Stores Named

T. M. Driskill, manager of the Charlotte store of Storch Bros. Stores, Inc., today received the following announcement regarding election of a successor to the late C. C. Rutherford as president of the company.

"Mrs. M. D. Rutherford was elected president of Storch Bros. Stores, Inc., at a special meeting of the board of directors here to fill the unexpired term of her husband, C. C. Rutherford, who died on June 11.

Owen C. Bowden, vice-president, was elected executive vice-president and general manager of the corporation. He has been with the company since May, 1932, having been merchandise manager, assistant to the president, and elected a vice-president in 1940.

An executive committee consisting of Mr. Bowden, Mr. H. C. LaFare, general counsel, and C. S. LaFare, secretary and treasurer, was appointed by the board.

"Mr. Bowden will actively direct the affairs of the corporation, with the assistance of his officers, who are: Charles E. Rutherford, vice-president, now in military service; C. S. LaFare, who has been secretary and treasurer since July 1933, and C. J. Alexander, assistant secretary."

## 'TB' Group Will Meet Tomorrow

The executive committee of the Mecklenburg County Tuberculosis and Health Association will meet tomorrow night in the committee room in the Courthouse at 8.

Claude Cochran, newly elected president of the association, issued the call for this meeting. The newly elected officers will attend.

Members of the executive committee are Mr. Cochran, Mrs. J. B. Bryant, first vice-president; Dr. Morris T. Gilmour, second vice-president; Mrs. H. C. Shode, secretary; Trey W. Stewart, treasurer; Dr. H. L. Seay, member of executive committee; and Mrs. M. H. Courtney, member of executive committee.

## Scouters Club Holds Meeting

The Mecklenburg Scouters Club, now Scouts of America, held its annual summer camping meeting at Camp Steere last night. The members present heard a report from Executive John Hackney on the first week of camping activities, a camp dinner, inspected Camp Steere, and heard a speech on camping and camp projects by W. P. Walther Jr.

Mr. Walther, Scoutmaster of Troop 20, has just returned from Scout Six training camp.

The Scouters, during their tour of Camp Steere, witnessed several demonstrations by the junior staff, and took part in the council meeting and camp fire with the boy campers.

Charlotte Nurse Gets Promotion

The War Department today announced the promotion of a Charlotte nurse, Merce Graduate Ota Mae McSwain, from the rank of second lieutenant to that of first lieutenant. She was promoted here in 1938 and her last known station was in Honolulu. Mrs. McSwain was born in Blackburg, S. C., the daughter of Mr. and Mrs. J. C. McSwain.

LIGHTNING BOUNCES

Scouters have discovered with the aid of a high-speed camera, that lightning flashes "bounce back and forth" between the same points of cloud and ground as many as ten times.

## French Officer Wanted Action On Elba; He Got It, All Right

Editor's Note: Stephen Barber's column in the last issue of the News was a lively one when it came to the subject of the French officer who wanted action on Elba. He got it, all right.

AN AMERICAN FIELD HOSPITAL, Santa Corica, June 18 (Delayed). — The French officer who wanted action on Elba, Maurice, got it, all right. He was wounded in his right arm but otherwise was well-positioned and ready to fight.

As an impressive Allied armada assembled in the fading light Friday night within sight of Elba's peaks, Maurice — a French battalion commander — said:

"I hope there are some Germans there, for if there are not we shall not be able to kill any."

At that time most of us hoped—and expected—that Maurice would be disappointed.

I was hiding aboard a craft packed tight with French Senegalese troops, waiting American signals under flares sent up from the shore a pale strip of beach and the white cottages of a fishing village.

There was still twenty minutes to go, and no opposition. Then it came. From either side of a mile-wide inlet the Jerries opened up. We were caught in a murderous cross-fire. Red, yellow and green tracers and mortar shells whizzed overhead.

It seemed only seconds before we found ourselves in the water. Then on the sand lying flat while the Senegalese touched off Bangalore torpedoes to detonate a path through the minefields and barbed wire.

We began crawling along the guide tape with mortar shells bursting all about us. The Senegalese never faltered, even though many fell.

There was a blinding flash just in front of me. I was tossed into a clump of weeds. One of the Senegalese immediately assumed I was a German because of my unfamiliar uniform and challenged me. I shouted both the challenge and reply words.

COULDN'T WALK

I got up and tried to walk a few yards and found I couldn't. My left leg wouldn't work and I was hit on the right side. I was annoyed. I stayed where I was, trying to get my bearings and machine-gun bullets were racing overhead.

The first thing I knew there seemed to be a lot too much light for comfort. About 100 yards away from the shore, a German craft followed the assault troops was burning fiercely. Lighting up the whole beach for cover.

There an impromptu first aid station was set up in the shelter of a splintered bandstand. The Germans had the range very well and shells were falling all around throwing clumps of dirt and fragments of metal over our first aid station. Soon after daylight we moved to the bed of a dry stream half a mile away.

The riverbed became a collecting point for wounded. We wondered when the doctors would arrive, only learning later that the burning LCI we had seen had carried most of our medical personnel.

Minutes later Capt. Francis staggered into my refuge. He had two bullet holes in his chest—one within inches of his heart. The lone survivor of his squad, he had walked three miles in this condition after slinking with a flame-thrower enemy blockade.

Gradually captured Germans, who said they had arrived on the island only a few days before, filtered into the riverbed. All seemed happy to be out. We were sitting in pain, Francis—who spoke German—interrogated them, learning for me that the burning LCI we had seen had carried most of our medical personnel.

"I want to hear how miserable they are. They think German will be beaten in three days. . . . you see, I am dying."

The Senegalese carried us into a village which was believed safe from shellfire. But as soon as we arrived the Germans began plastering us again. Captured German doctors dressed our wounds.

Fresh from three hours in the water after the medical ship aboard which he was a passenger had been hit, Frank Coniff of

International News joined me and suggested lunch. Frank helped me to a nearby bakery where we helped ourselves to scones, currants and bread.

Visible landing craft began beaching as the shellfire ended.

I was placed on a stretcher for the trip back to Santa. The last thing I heard before leaving the beach was that Commander Maurice's troops and penetrated the island to

Vassar College was originally incorporated as Vassar Female College.

The SULFA DRUG — Sulfanilamide and Sulfonamide of Sile and Soap

If you suffer from Rheumatism, Gout, Arthritis, Pains, Headaches, Stomach Aches, etc., write today for our new Sulfanilamide and Sulfonamide.
