FR's A Dictator, But

Liberals All That Way With Public Monies One quality inevitably to be upday in a liberal" politician We don't want to labor the Free & Easy

With Public Monies

One quality inevitably to be found in a "liberal" politician is free-handedness with money other people's money. The word means a good deal more than simple profileacy of course, and is generally used in a complimentary sense. Thus, a politician smirks all over when he hears himself introduced or referred-to-as "that great-liberal; the Hon. So-And-So."

On the other; hand, a quality frequently present in politicians usided "Bourbons" is a sort of instinctive frugality. Oh, your genitine Bourbon is not above We don't want to labor the point because there s probably a maze of natural laws in force here, as the salvage law of diminishing returns, saturation points and so on. But we think it should be noted that, in at least one instance, we've been outdone—man for man, that is, Doubletalli

On the other, hand, a quality requently present in politicians realled "Bourbons" is a sort of instinctive frugality Oh, your gentine Bourbons is not above petty graft and bestowing favors on the inferests he representa, but he is a man of comparatively modes' ideas when the formation of the inferests he representations with the properties of the properties and the inferest he representations and the inferest he representations and the ferm steel is mottone of content of the properties and the content in the reality of the properties and t

hese words of heresy:

"There is nothing alfractive about shapoly legs
... men could have them
too, if they wore high heels
... they are just distorted
muscles ... we must get
down to low heels and developed straight, trim legs."

... they are just distorted muscles ... they are just distorted muscles ... the must get down to low heels and developed straight, trim legs."

It must have been a pretty dull audience. So far as we know, there were no guistes, nectacilis. They let him get a way with it, unseathed.

Who is this flickle? And what does he do with himself, walking on the torners? He poses agrave threat for us all, this mand without an eye. Olive him how way and hell ruin the bearing the way and hell ruin the period of nature, office he had mercan grave threat a pallor on our nather than the content of th

we've heid all along that the way and hell ruin the beauties of nature, deface the American losely parallel that of our acces, cast a pallor on our national life, and put the shoe industry out of business.

This is the saddest of commentaries on the defrictencies of our deucational system: the provided of the commentaries on the defrictencies of our deucational system: the provided of the commentaries on the defrictencies of the commentaries on the defrictencies of the commentaries on the defrictencies of the commentaries on the deficiencies of the commentaries of the commentaries of the commentaries of the commentaries of a sileck number ankling by with a swish, and views the finaling of slimbs in flowing line, can shake his head and left chiropody effect.

The commentaries of the changes working upon mendation of the changes working upon mendated by a commentaries of the changes working upon mendational commentaries on the changes working upon mendational commentaries of the changes working upon the changes working know. This bird, when he cyes a slick number ankling by with a swish, and views the flashing of limbs in flowing line, can shake his head and let chiropody take the upper hand. Distorted muscles, he says! That aim what we've been seeing.
