A New Set Of Morals

The United States is a newcomer to the great game of international power politics, and our first steps have been tentative and uncertain. We still continue the moral with the practical, and all of us do not yet understand that from here on out we pay for what we get, and exact pay for what we get. and exact pay for what we get. and exact pay for what we get. This a good many citizens are disturbed because the House chose to amend the UNRRA appropriation bill, setting forth certain clear conditions alraying men must meet before they are entitled to our charity. Our such condition is the establishment of a free press, or at least the guarantee of the free movement of alein newspapermen within the boundaries of any country receiving UNRRA food No country, the House decided, shall receive any barrier — technical political, legal or economic — to obtaining, dispatching or disseminating the news . . Next, Manasco implied that the Pull Employment Bill would give the Chief Executive power to reduce the value of stecks and bonds.
