Green the standard of t

from a member of the Council who won-dered what use bathtubs would be with-out hot water. We don't know the an-swer to his question. It is the other point raised by the real estate men which seems to throw cold water on all the thought and labor and high hopes

Renewed Lease For Squalor

which have gone into the housing ordinance.

The Planning Board left it up to the council to set the time at which the ordinance should become effective, indicating that the Council would probably want to make it so many months, depending on the awaffability of materials labor and so forth. But the real estate men have asked for five years. That is too long a telay, by several years. Housing which is until for human habitation because of "dilapidation, defects increasing the hazard of fire, accidents or other calamities, lack of ventilation, light or sanitary facilities until for human habitation now, not after five more years of the same.

The Council awas property-owners a reasonable period in which to make alteralighs. repairs and improvements. If

terations, repairs and improvements. If either materials or labor should remain either materials or above shouse remains scarce, the Council can always extend the deadline. But to start off by set-ting the date five years ahead would come pretty close to deferring the whole improvement for that length of time, if not permanently. It would be like coming arduously to the point — and suddenly changing the subject.

capital into two armed camps and to this day the observer who strays onto the middle ground runs a grave risk of being shot down by both sides. But

of being shot down by both sides. But R is on the middle ground that a solution will have to be worked out, and plainly no one short of the United States Gdyernment is big enough to stand up and do it. Mr. Roosevelts administration accepted the challenge, and while there is some justice in the charge, that he found a position a little too close to the labor line, he at least, arranged an simistice.

There are no irreconcilable differences between the unions and the boases, but there are irreconcilable attitudes. This has been demonstrated by the Labor-Management Genference, which might have succeeded with the Government as a third and equal party, but was doomed to failure without it. Mr. Truman has tried every known device short of coercion to bring labor

device short of coercion to bring

The Lonely Middle Ground guilible idiots once they have paid, or have had extracted from them, a union initiation fee. They believe in their unions, we think, for the good reason that the unions have served them well, raising their standard of hving over the years and generally protecting their interests. This does not mean that unions cannot go astray—they have done so, are doing so, and probably will continue to do so in many cases. They suffer, of course, from an inversion of the oversimplification that confuses the bosses, and they teach their membership to regard their employers as natural enemies who must be struck regularly, like a going, to prevent their getting out of line. The 1892 they we armed camps and to this development on the struck results of the observer who streve contents.

Sometimes it seems to us that most Americans, even these directly concerned with labor troubles, have never progressed much beyond the common attitudes of 1892, the year of the famous "Homestead Massacre" at Carnegie Steel. Those who sympathized with Carnegie and they were the great majority, felt that the owners were perfectly justified in having armed guards turn their gunson any man who didn't care to leave quietly after rejecting the offered wage, and the few who took the strikers side concluded that her working man would have to do a little shooting of his own if he ever hoped to break the great and evil forces he face.

Well, 1892 is a dim and distant data with the work of the strikers and with the work of the strikers and one a long way since—establishing a good many rights under law and picking, up a good many there by virtue of its increasing strength. It has been a fight attitudes of 1892, the year of the famous

many rights under law and pleaning, up a good many others by virtue of its increasing strength. It has been a fight of course, and it hasn't always remained on the level of polite discussion. But the excesses on both sides have been confined largely to the verbal in recent years, and everathe tensions of the moment have produced nothing worse than a little sidewalk-showing.

It is foolish to regard the labor unions "a not collection of sheep herded to-

as a collection of sheep herded tosether by a handful of flaming radicals
and ex-heodiums for the purpose of (1)
undermining the American Way, or
(2) lining the pockets of its leadership,
of (3) maybe both. The manner in
which the United Auto Workers answered their call, and the overwhelming
majority vote cast by the Sizel Workers,
indicate that there's a little more to
it than that, but still such journalists
as Westbrook Pegler manage to earn
a handsome living by preaching daily
that the AF of L is a refuge for collection of sheep herded that the AF of L is a refuge for panderers and the CIO is controlled by Moscow.

Moscow.

American citizens, whether they wear overalls or white collars, do not become

Taking Care Of Our Own

A half-dozen North Carolina coun-ties are currently giving the lie to those who have conduded that years of Fed-eral and State assistance has apped the initiative of local government. Al-though the Legislature voted against embarking upon an ambitious program of State hospital construction in 1946. and the Federal Government has been inactive in this field during the war

inactive in this field during the war years, Scolland Cleveland and Stanly have all gone beyond the talking stage in hospital planning, and other countles are not far behind.
Scotland Country already has \$311,000 off hand for a new hospital, and a promise of some \$35,000 more from the Duke Endowment. The county is so, well fixed, in fact, that Senator Edwin Pate has announced that it will not even try for Federal assistance, although it will probably accept any checks Washington cares to mail down to Laurinburg. have all some beyond the talking stage in hospital planning, and other countless are not far behind.

Scotland County already has \$311,000 off hand for a new hospital, and a promise of some \$35,000 more from the Duke Endowment. The county is so, well fixed, in fact, that Senator Edwin Pate has announced that it will not seven try for Federal assistance, although it will probably accept any checks Washington cares to mail down to have the well and the seven that it will not be seven try for Federal assistance, although it will probably accept any checks Washington cares to mail down to hospital cannaging, unanneae after it is built.

All-this is good and heartening news. There is no more valuable and Passet than strong and active community spirit, and certainly such a spirit is thriving when hospitals begin to spring the power North Carolina without any outside stimulus at all.

was contributed by Negro residents, with

device short of coercion to bring labor and management together, at least long enough to get reconversion underway, and he has failed. Now, whether hikes it or not, he's going to have to venture out into that cold and lonely middle ground and use Federal authority to bring them forward to join him.

was contributed by Negro residents, with sixteen Negroes putting up as much as \$500 each.

Another effect of the interest aroused by the county campsigns is to attract additional physicians to the areas the new hospitals will serve. It is not only the fact that adequate facilities will be provided for young doctors emerging from the armed services; physicians age also impressed by the widespread interest in medical care which these community projects demonstrate.

From The Raleigh News and Observer:

Cotton Is Still King

There are so many prophets who say that King Cotton has not only been dethroned but is on his way out that it is heartening to see there are men who know cotton who see a good future for the fleevy staple. Braxton Bragg Comer of a great cotton family in Alabama, president of a cotton mill and of the Alabama Cotton Manufacturera Association, gives some encouraging views. Asked by John Tenple Graves to be a Columnita one day, Mr. Comer does the unusual thing of writing shout the thing he knows most about. Most columnists of a day write about, subjects upon which they know little, Mr. Comer has no good word for the suff-appointed advisers of farmers. He says that American mills are subjected to the formation of the words and the the South which it was the subjects upon which they formation. Most columnists of a day write about their product that. In Alabama alone subjects upon which they know little, Mr. Comer has no good word for the saft-appointed advisers of farmers: He says they "overlook the fact that there is much land in the South which is much land to the south which is much land to the south which is much consuming nine and a half south which is much consuming nine and a half south which is much consuming nine and a half south which is much consuming the reasonic consideration from our Government.

The Merry-Go-Round

If there were more men in the Army like Gen. Elsen-hower, this newsman would not be so swamped with soldier mail.

I hower, this deweman would not be so awamped with coldier mail.

The other day Sgt, Samuel Cohen of Philadelphia. It was a serious extended a cable tailing of a serious emergency at home. Physicians adversed his return inmoderate process and the serious emergency at home. Physicians adversed his return inmoderate process as the usual Army run-around. He couldn't get a furiouph. Pinally, a friend suggested that Cohen call General "Re" directly.

"What can losse" Othen asked, "What can be considered to the other he should ring the General at his home within the surprise in his voice whether he should ring the General at his home in the continue of the color of the color his eventual. Othen said to try the General's home.

An aids, to Elsenhower answered and listened to Cohen's story, exclused himself for a few minutes, came back to the telephone and add, "Sergean, It you will call back to the telephone and add, "Sergean, It you will call manually and the process of the color of t
