"You'd think some of these men would be tired of sitting down after lolling all day in office!"

Two Doctrines

How can we live with the Japanese in the happy world of peace? You may take your choice of policies...

The war is ended. Let us now busy heads. This has been my policy since organization of the present Cabinet...

The Japanese are not sorry for what they have done. They are proud and they are not sorry for the tortures they have inflicted on American soldiers...

The Japanese are not sorry for what they have done. They are proud and they are not sorry for the tortures they have inflicted on American soldiers...

That is the point which should be clearly understood. I am a soldier and so do not put me in a position where I am required or by what seems the bestial elements in their nature can be eradicated...

We're no way of knowing just how much North Carolinians spent on smoking last year, but strictly as a by-product they managed to burn off over 250,000 acres of woodland, and destroy over 500,000 worth of timber...

A good part of the nation's remaining—and still dwindling—forest resources is in the South, but that is not sufficient explanation for the terrific rate at which we burned off woodlands in the South...

REP VOORHIS of California. Mr. Speaker, it is a true fact that in the first days of the war I was in California...

570,000 acres, with a damage of \$1,194,366. And this despite the fact that North Carolina's annual lumber production is about twice that of South Carolina.

Even so, it is not a record to be proud of. Our loss in dollars and cents is a reality of little consequence when viewed in light of the rapid disappearance of forest reserves.

A Caution
There is an understandable impatience among citizens who are impatient to build an economy. They like to see all restrictions lifted and all selling prices removed...

During the next closed-session, debate really got hot. Most vocal opponent of the bill was GOP Senator Hawks of New Jersey...

Debate Gets Hot
The Truman memo on the Kilgore bill was kept secret at first. During one session of the Senate Finance Committee...

Vanderberg Storms
"The Senate committee is not going to retreat in public while the President retreats in private," GOP Senator Vanderberg of Michigan...

It Can Be Done
If every day were Labor Day, North Carolina would get the kind of highway traffic control it needs...

Deaths were below last year's total. But that in itself was not the really significant figure. To run up that record highway patrolmen had to tread on a dry stone where they are aware of several thousand others of minor traffic violations...

Well, if that's what it takes, it takes course it is what we can get that kind control from the Highway Patrol and the Safety Division every day during the year...

Do you say that we cannot afford to spend more money on patrolling the highways? We killed almost 1,000 citizens in highway accidents in 1940...

Fairy story: "I owe my wonderful physical condition to walking and dieting white gas and food were rationed. Naturally, I shall continue with both."

Mathematicians report the discovery of a new and entirely incomprehensible geometric shape. But then, the world always looks like that on a Monday.

STATESMEN AT WORK
(Serious, facetious and comic excerpts from the Congressional Record).
REP VOORHIS of California. Mr. Speaker, it is a true fact that in the first days of the war I was in California...

WASHINGTON
No one on Capitol Hill will admit it openly, but President Truman's "no conscription money" plan regarding the \$25-a-week unemployment bill was cleverly used...

Other Republican Senators looked on amused at the conservation of the Democratic colleagues. GOP Senator Hatcher of Maine leaned over to his Democratic New England colleague, Brian McMahon of Connecticut...

The Truman memo on the Kilgore bill was kept secret at first. During one session of the Senate Finance Committee, Senator George had the memo in front of him and admitted that he had it, but did not read it aloud...

During the next closed-session, debate really got hot. Most vocal opponent of the bill was GOP Senator Hawks of New Jersey, former head of the National Association of Manufacturers...

Mr. Truman Goes Where He Can
By Samuel Crofton
NEW YORK
HERE is something amusing in the earnest efforts being made by so many public watersheds to sell out to the right. Maybe it is going where he can't cross a stream, one step in the water to please those purists who demand that he travel in an absolutely straight line...

WAKE UP, CITIZENS! We are back in the dark ages. It is hard to believe that my paper, dated Sept. 10, 1941, informed the very community of 924 of our mentally ill as being held in 76 county jails because of their mental condition...
