examine the internal regions of the anatomy of peace. This is a mechanical task, fitting together the bits and pieces of the map of Europe that lie far out on the rim of the central disagreement between Russia and the West. The idealism and the bope that we have the dealism and the bope that accompanied Woodrow Wilson to Paris in 1919 are not included in the mental equipment of James Francis Byrnes. He is a master of compromise, with his way. The second of the

istic, they are committed to imposing their way of life upon all men everywhere they will seek to-establish governments in Europe and Asia friendly to their own interests and hostile to Russia's clear duty, as leader of the world proletarist, to resist this expansion of capitalism with every means at hand. Its immediate objective, in the name of the workers of the world. Karl Marx, and Nicolal Lenin, is to establish communist governments wherever it possibly can, particularly in those states adjacent to Soviet Russia. The mission of both Mr. Byrnes and Mr. Molotov is to bring home the best deal that can possibly be arranged, but it should be obvious that their methods will differ widely. Mr. Byrnes will press for quick settlements, for the restoration of order is a prerequisite for the establishment of representative government. Mr. Molotov will insist on delaying all settlements as long as possible, for disorder makes conversion to communism much easier. And. curiously' each party to this disagreement will be acting, according to his own lights, on the highest possible moral grounds—in the interest, if you will, of the common man.

The best that can possibly come out of Paris is a compromise that will not but the highest possible moral grounds—in the interest, if you will, of the common man.

The best that can possibly come out of Paris is a compromise that will not but the presentation of the proposition is cemented by a ring of friendly states established at the rown insistence, faced by a ring of hostile states established at the fundamental effectore can be no true peace conference until the great powers reach agreement upon one fundamental proposition: The world is broad enough to contain two opposing political systems dedicated to the same end: peaceywhere. Such an agreement seems remote at this reading.

The Baptists Reach A Wise Decision NORTH CAROLINA'S Baptists have destandards of Baptist education, and in so doing will benefit all North Carolinians,

Many problems will arise before the phyical removal of the fine old institution cided to accept the Reynolds family's handsome offer of money and land in ex-change for moving Wake Forest College sical removal of the fine old institution of Reynoldia can's be completed. One Wake Forest alumnus has already suggested, tongue in cheek, that the school colors will have to be changed, along with the dama mater which refers to them in a line about "dear Old Gold and black ..." This, we suspect, comes somewhere near the bottom of the Board of Trustees' list of difficulties, but it may be symptomatic. A great new university will not spring full-blown from the manieured earth of Reynoldia. There are years of hard work and soul-searching ahead before the Baptists realize the dream the Reynolds endowment made possible. But those who called the proposal "the greatest opportunity ever presented to North Carolina Baptista" spoke well. And it is all to threat of the denomination that is leaders and lay membership recognized in a lat to the control of the denomination that is leaders and lay membership recognized in the spirit. The Baptists are above all things, democrats, and it was to be expected that loud diposition to the project would develop at the special state convention. It did. One brother arose with a package of Camels in one hand and a Bible in the other and asked which the Baptists intended to serve. But in the end the vote in favor of transplanting the college was overwhelming. It was, we think, a wise decision. Thousands and thousands of Mecklenburg school children have seen Patrolman Pressley put his astounding pets through their paces. If there is anything to Patrolman Pressley's thesis that it is best to catch 'emyoung—and the evidence is that there is a great deal to it—he has probably contributed as much to the cause of traffic safety as any other individual in these parts. And he's done it on his own time, because he likes children and dogs and wants to see them live and thrive in an age when four-wheeled danger lurks around every corner.

Delmar and Bryan Foy, president of the company, making the film, have communicated their offer to Senator Bilbo in a telegram in perfectly dead-pan vein: "It would enable you to portray a public figure from the South in a manner you deem fitting and proper... Of course, you would have to join the Screen Actors' Guild, but I believe we could work this out on your arrival here."

One feels real regret that chances of Senator Bilobi's forsaking the Senate for the screen are remote. But if he were to do it, the title of the Delmar-Foy movie seems to aigur well for the Senator's success in it. The film will be Cailled It's a Joke-Son.—Louisville Courier-Journal.
