There Is Still A Question Of Intent

I've a present a state of the s

Case."

It may be that South Carolina's Demoerats will succeed in making the legal point
that their organization is now wholly outside the law. Certainly they have worked
hard to place it there: They have whyed
from the statute books all laws governing
the Democratic primary, they have restabilished their organization as a price
to be promoted to the company of the comtabilished their organization as a price
to be promoted to the company of the comtable of the company of the comtable of the company of the comwhere along the line, they may be able to
convince Judge Waring that he is without
jurisdiction.

We doubt, however, if the matter will end there in any case. The suit is a test case—although the Democrats would hard-ly consider it a friendly one. It is heading

intent is certain to be raised. In the face of it, it is difficult to see how all the mass of legal technicalities behind which the South Carolina Democrats seek to barricade themselves can long stand.

For there is, of course, only one reason for-reorganizing the Democratic Party as a private club and placing it outside the law. That is to deny South Carolina's Negroes the right to cast an effective ballot in any election.

It can, and we suppose will, be argued that the Negroes are still free to vote in the general election. But no jurist can blink the fact that the general election in one-party South Carolina's Nemarity South Carolina's meaningless, and has been made so by the same Democrative of the suppose of th

statutes to remove that condition in South Carolina.

Judge Warnin himself has said: "I don't know what the answer is, but the Issue is whether or not the Negroes are going to vote under the present set-up in South Carolina." It-may be that he will rule that they are not, but it will be interesting to see whether, in that case, the Supreme Court will allow "the present set-up in South Carolina" to stand.

Operation Naval Reserve

Operation Naval Re
THE redoubtable Admiral Halsey has issued a statement of praise for the
United States Naval Resegve, and, recalling
the Bull's forthright manner, we suspect
this is something more than a routine response to a request from his old friends in
the Navy Department. The Admiral concedes that the magnificent job the Navy
turned in in the Pacific was largely the
handswork of a group of seagoing men who
learned their craft in a few hurried months
under the pressure of a naval war already
begun and on the way to being lose, and
the long supply lines and took command
of the smaller ressels were naval reservaints. Some of them had never seen a body
of water larger than a Minnesota I a ke
when they signed up. None was equipped
by prior training for the highly specialized
duties they were called upon to perform.
But when the chips were down they salted
and they fought and they endured the
danger and the boredom of the most ardu-

ous naval war in history. And, of course, they won it.

Admiral Halsey and his colleagues do not believe the United States will again enjoy the margin of time that made her World War II "civilian" Navy possible. It was touch and go this time, particularly after the crippling blow the Japs struck at Pearl Harbor, and the world is growing steadily smaller.

smaller.

So the Navy is calling on all its ex-service men to stand by, It's a request, not an order—an appeal to sign up with the United States Naval Reserve and participate in a part-time training program designed to maintain and improve special skills acquired in wartime. Mecklenburg County Reservists have set a goal of 3,000 "enlist-ments" during their Operation Naval Reserve this week. Any clittens sporting the distinctive USNR insignia in his buttonhole will be delighted to supply the details; if none is handy the Navy office in the Post Office is available to any young salt who cares to come aboard.

Things Are Tough All Over

THE way this communist call was organized one small group directed the operation, sitting back in comfort and living off the communal effort. In normal times it worked out pretty well; the workers were well fed and buy, and if the hours were long they didn't seem to mind.

hours were long they didn't seem to mind.

But things started getting tough a couple
of months ago. The weather was wet and
cold, which made working continues bad
and the started of the

The cell—sticlet speaking it was a col-lection of cells—was in Columbus, Ohio, And the communists were lesses, a swarm being studied by Extension Aplarist Charles A. Reese of Ohio Slate University, Their behavior was not at all unusual, Mr. Reese reports, This sort of thing happens every lime there is a late Spring. As long as there

is honey in the horn the worker bees labor long and hard bringing home more nectar and pollen for the community stores and seem to be quite happy about it. But when the flowers are late in blooming and the stores get low and the drones and the queen feel called upon to institute rationing there is almost always trouble.

Ing there is almost always trouble.

Mr. Reese thinks there is a lesson in this,
Society in the aplarythe points out, is organized along strict communist lines—the
queen, although bearing a royal title, is
actually a commoner who, along with the
drones, performs the necessary function of
propagation. Everybody labors, then, under
a rather strict discipline, presumably for
the common good, but the relationship
seems to depend upon continuing prosperity.

watching his bees, Mr. Reese keeps won-dering how Joe Stalin, and the boys are making out behind the iron curtain. The Russian workers are laboring night and day to rebuilt their battered nation, he un-derstands, but food and consumer goods are scarce and rationing is still the order of the day. He keeps wondering if the boys in the Kremlin are also hearing faint- and fateful stirrings in this very late Spring.

'The Play's The Thing'

THE old town clock at Carshalton, Sur-THE old town clock at Carshalton, Surrey, England, was turned back to the
days of Good Queen Bear recently, when
"Othello" was staged in a saloon by the
Tawerners, a dramatic company sponsored
by the British "Committee for Poetry and
Plays in Pube", which includes such eminent personages as the Bishop of Gloucester,
Poet Laureate John Masefield, and Dame
Sybill Thorndyke. Thus was revived the
cultural influence dispensed in public
houses by the titnerant buskers of Elizabethan times.

At a time when most of the news in Eng-land is bad, and the sadly diluted beverage passing for beer eyen worse, a dash or two of blood and thunder in the grand manner would seem to be a welcome stimulant for the bored patrons of "the poor man's club and form."

Tragic as are the fates of Desdemona and the Moor, some in the barroom audi-ence may have derived amusement trom lines in the play that plead for temperance more eloquently than the late Bishop Can-non at his best:

"Oh God, that men should put an enemy in their mouths to steal away their brains." Can it be that some cunning advocates of British "austerity" used the imm ortal drams as a Trojan horse to smuggle WCTU sentiments into Festung Barleycorn?—Richmond Times-Dispatch.

When they begin to write her up as "the ost sex." woman might as well throw away the slacks and start all over.

Even his detractors feel that Hank Wallace is something special among voice he seems to carry his own wilderness.

The "United Front", to be maintained by shirt manufacturers in their stand against price boosts, will of course have to have all its buttons.

If the new memorial casting at Washington is correct, Thomas Jefferson was nineteen feet tall and well able to handle \$100 worth of food at his birthday spread.

"Lapps desperately need 1,000 reindeer."
It is to be borne in mind that from the reindeer the Lapp derives meat, milk, clothing, housing and a-useful hatrack.

'Oh Boy-A Spotlight!'
