JERUSALEM—(AP)—Military rule was clamped down tonight on 10,000 to 14,000 persons in the Natanaya area to facilitate the search for two British Army sergeants kidnapped early Saturday by Irgun Zvai Lumi, a Jewish underground organization.

CURFEW IMPOSED

Earl Irgun freed the British Army and police to the two sergeants he hoisted of setting and confining as hostages for their return under death sentence.

Reports circulated that Hagana Jewish National Defense Army, which is pledged to maintain law in the Holy Land during sessions of the United Nations Palestine Commission, might resort to search. The organization withdrew from the hunt Saturday because of a "lack of interest."

Two safe robberies, resulting in a total loss of close to \$2,000, were today being investigated by City Police detectives.

The safes were cracked in the office of the Charlotte Theater, 123 W. Trade St., where two money bags, containing \$939.28 in money and currency, were taken, and in the first floor office of the Aetna Loan & Finance Co., 111 W. Third St., where approximately \$1,000, including \$200 in cash and \$800 in checks, were stolen.

At the Charlotte Theater the safe was rolled from the private office of Manager Walter Griffith into the main office where it was battered with an axe, and the door pried off with a chisel and a brace and bit.

A hackman was used to open the small safe inside of a large cabinet at the loan company office.

Vessel Works In Cork Harbor
CORK, Eire.—(AP)—A German sea captain who preferred Ireland's plenty to voyages beyond Germany, yesterday put his British-chartered vessel to work today in Cork Harbor.

He had had no report to the British Control Commission for Germany, the ship's operators, who had presumed there to be no route to a German port.

Local authorities have made no move to interfere with the presence of Schneider, his wife and two daughters and a German crew of four—all of whom are living aboard. They have the only coal in Cork Harbor.

The Admiralty, an oil-burner, will run on her own fuel supply. Shipping men said the difficulties when the British Control Commission for Germany, the ship's operators, who had presumed there to be no route to a German port.

Urges 'A Fair Test' President Voices Appeal On Prices

Hunt Made For Kidnaped Britons

WASHINGTON—(AP)—President Truman appealed to coal and steel producers today to wait until a "fair test" has been made of the effects of the coal wage settlement before making any price increases.

"The President, in a statement, said the effect of the wage settlement is being misinterpreted by the bare statement that it amounts to an increase of about 6 cents per hour in the wages of miners."

"It is only reasonable to ask coal and steel producers to wait until a fair test has been made of the actual effects of the wage advance under conditions of maximum production," the President asserted.

"If prices are raised at once and a wave of increases in related prices upsets our economy, we never will know what would have happened if the coal and steel producers had been willing to wait."

"The risk involved by continuing present prices of coal and steel is long enough to learn what the industry actually is doing, production will be maintained, and the agreement is not serious, especially since the coal and steel industry will greatly reduce the hazards of renewed inflation."

Measure Is Sent On To Truman With veto Slated

President Will Act Quickly

WASHINGTON—(AP)—The Senate passed the \$4,000,000,000 income tax reduction bill today, sending it to the White House where a veto is awaited.

The vote was 82 to 22, which was two short of the two-thirds margin the supporters of the act would have to run in order to make the bill law over President Truman's objections.

Three Senators were absent—Wagner, Democrat, New York; McNamara, Democrat, New Hampshire; and McClellan, Democrat, New Jersey.

The House already has cleared the bill by a margin of nearly 3 to 1.

The crucial test will come, possibly later this week, when the two houses vote on overriding the veto.

McClellan, Democrat, Arkansas, said that while he is not a Republican, he is a "defensible in justice" for taxpayers in 35 states to have no opportunity to participate in the community property plan.
