

Henry Wallace says Senator Taylor's arrest in Black Russia illustrates the hypocrisy of U. S. democracy. On the contrary, says a New editorial, it illustrates Taylor's own brand of demagoguery. Turn to the editorial page.

# Stassen Out To Cop 23 Ohio Votes From Taft Today

## Republicans Turn Out Early And In Force

By JACK BELL

### Democrats' Vote In State Slow

COLUMBUS, Ohio (AP)—Ohio Republicans came out early and in force today to settle the battle between Senator Robert A. Taft of Cincinnati and Minnesota's Harold E. Stassen for 23 of the state's 33 delegates to the national convention.

Reports from all big cities showed Republican turnout was being handed out in today's primary election in numbers far in excess of what Stassen's Taft later was deciding which of the two would be his opponent.

Stassen's opponent, Frank T. Lausche, was the son of Cleveland was their nominee for Governor.

## Hearings Set Taft-Hartley Law May Be Tightened

WASHINGTON (AP)—Congressional hearings on the question of tightening up the Taft-Hartley law, act today were ordered to begin May 24. Senate and House committees on labor, noted there are threatened nationwide railroad, coal and steel strikes.

Ball is chairman of the special "watchdog" committee set up by the 1947 law. This Senate-House group will hold the hearings.

Railroad Brotherhoods now are exempt from the act. Ball's mention of the threatened railroad strike suggested the committee will study the equivalent of bringing them under the law.

Ball said that the hearings will deal with "specific amendments" and "problems" that have arisen under the act.

One of those problems mentioned is union warfare funds. Payment of pensions from such a fund is the chief point of controversy between John L. Lewis and the United Mine Workers.

Ball also listed as questions for the hearings:

1. The provisions requiring an authorization election before a union shop contract.

The NLRB is flooded with petitions for such elections, but the great majority held so far have been won by large majorities, while in some industries, like construction, where employment is intermittent, holding the elections presents serious administrative problems. Should the law be amended, in the interest of more efficient administration, either to prohibit all forms of compulsory membership in unions, or to eliminate the authorization by election requirement while retaining the other restrictions?

2. What steps can be taken to speed up the handling of both representation and unfair practice cases to final decisions?

3. How should the law's provisions regarding industry-wide bargaining and stoppages be strengthened to meet, for instance, the current threat of a railroad strike, or the situation if the present 80-day injunction period fails to bring about a settlement in a basic industry like coal or steel?

4. What is a sound, permanent solution to the problem of union warfare funds?

There have been recently some strikes and numerous threats of strikes aimed at forcing employers to agree to contracts either violating the law or evading it. Should such strikes or threats of strikes be outlawed?

Judd said he believes three-fourths of the peoples of the world would join an effort to revise UN, so it can be a real instrument to preserve world peace and freedom.

Hays and Judd were the first of a series of Congress members to appear before the House Foreign Affairs Committee on proposals to amend the UN charter to give the UN around Russia's frequent use of the veto.

The committee is starting hearings on the structure of UN and America's relationship to it.

About 30 representatives and Senators have introduced similar resolutions which would put Congress on record for preventing the UN from becoming a permanent body.

Chairman Curney (R-Sp.) told the committee that the UN is a "great step forward in the history of the world, but it is not perfect."

He said the committee is studying the draft of the UN charter and is planning to make suggestions for improvement.

## Stronger U. N. Urged In Congress

Overhauling Of Charter Sought

WASHINGTON (AP)—Congress members of both major parties joined today in urging a stronger United Nations to take the lead in overhauling the UN charter.

Rep. Hays (D-Ark.) and Judd (R-Minn.) called for the United States to take the lead in overhauling the UN charter.

They spoke out firmly for going ahead with the law, if it will co-operate, but without Russia if she refuses to go along.

Hays said: "We do not want to junk the United Nations; we want to save it. We want Russia as a participant in an agency for peace, but if Russia defects every time we need her, we must take steps without her."

Judd said: "We do not want to junk the United Nations; we want to save it. We want Russia as a participant in an agency for peace, but if Russia defects every time we need her, we must take steps without her."

## Situation No Brighter As Today's Talks End

Mediator Sees Walkout May 11

CHICAGO (AP)—A mediation conference with the nation's railroad ended today with no prospect of heading off a strike May 11.

"The situation is no brighter than it was yesterday," said the mediator, Frank Douglas, chairman of the National Railway Mediation Board, said after another meeting with management.

"Neither side has changed its attitude of the carriers," he added. "They are willing to give no more than what is recommended by the Presidential fact-finding board that studied the case yesterday."

Hike recommended

That group recommended that the railroads hike wages of the 80,000 employees threatening to strike by 15 1/2 cents an hour. The railroads agreed to this. The Brotherhoods threatened to strike if the hike was not made in the face of current living costs.

Douglas said he would meet later this afternoon with the Brotherhoods to discuss the strike.
