THE SHOE THAT PINCHES

NEW YORK CITYS two most influen-tial newspapers have, in recent days, announced their support of John Foster Dulles for Senator in the special Nov. 8

election. Both papers the Times and the Re-ald Tribune, express satisfaction that the people of New York State have the choice between such outstanding candi-dates ass Mr. Dulles and former governor Herbert H. Lehman. In supporting Mr. Dulles, they do not disparage Mr. Leh-man.

man.

The decisive point in favor of Mr. Dul-les, they agree, is his long and distin-guished service in the realm of foreign affairs. They consider it paramount in the

guished service in the realm of foreign affairs. They consider it paramount in the welfare of the nation to have Mr. Dulles continue, in office so that the Senate might benefit from his intellect and integrily. This emphasis on foreign affairs is not misplaced. Never before in the history of our nation has it been no imperative to elect the Congress men who have a full graup of foreign affairs problems; and especially men of proven internationalist outlook.

not yet understand the importance to us of things which happen abroad. The for-eign affairs shoe doesn't pinch quite so quickly and so painfully as the domestic

eign affairs shoe doesn't jinch quite so quickly and so painfully as the domestic shoe.

Thus New York voters will be more likely to judge the two men on the basis at the consetter of the property of the pr

Or should not some system be esta-blished through which these sick, con-fused persons could receive early psy-chiatric treatment which would, perhaps, return them well and whole as useful citizens of the community?

this pioneer, soon began to think about mental health, later began to do something about it.

With the publication last week of a sixteen-page brochure: "Mental Health in the Queen City", the Charlotte Mental Hygiene Clinic tells the story of what psychiatric and psychological facilities can do to prevent mental ilineas and to aid those who are aiready victims of necessary of the state of the preventies of the control of the prevents will expenditude the Psychiatrists will tell you that one of ten persons will eventually need psychiatric care; one of twenty will at some time have to enter an institution for the treatment of psychiatric disorders.

This gloomy judgment is based, of course, on conditions now conditions in a time when the 'public is only beginning to wake up to the importance of preventive work in mental health.

It is to be hoped — and the work of Charlott's Mental Hygiene Clinic brightens this hope — that increased attention to preventive programs for mental health, not yet mentally sick — are mentally uppet will give mental health expects of the proper of the preventive programs for mental health, not yet mentally sick — are mentally uppet will give mental health expects of the property of the preventive programs for mental health expects of the preventive programs f

R. HORACE JOHNSTON

R. HORACE JOHNSTON

IT WAS an unusual stroke of fate, symbolic in a way, that Morace Johnston was able to spend his last few hours enjoying his two favorite hobbies. One of them was Davidson College which he had at stended as a youth. He had a deep streetion for Davidson, and the had contributed in the had a stroke of the handson, and the dedication of the handson, and the dedication of the handson that the had contributed illustrally and which bear the name of his faither, Charles Worth Johnston.

Saturday afternoon he returned to Whitehall Farm to look over his stable of fine harness racers, the stable which had produced the immortal Bill Gallon and the peerless Rodney. He was with his horses when the attack came.

A reserved man in his later years, Mr. Johnston still had a wonderful sense of humor. He fined good storch, and told them well—g a knetk developed, perhaps,

during his youth when he was very much the young man about town, often with silk hat and opera cape and a penchant for gay escapades.

for gay eccapaces.

But he grew to maturity fast, and proved convincingly that he had as much business acumen and judgment as his father. The extensive enterprises which he headed continued to expand under his capable leadership, at a profit to himself and to the community.

and to the community.

Devoted to his family and active in his church, Mr. Johnston somehow found time to participate in a number of civic activities so that the sum total of his worth to the community was expressed in many different ways.

Horace Johnston was just 59 when he died. But he had managed to pacif more living into those years than most men do in a full litetime.

m The Durham Herald

A DISGRACE TO NORTH CAROLINA

In an editorial reprinted in this news-paper, The Henderson Dispotch com-mented acidly on the Durham-Chapel Hill Righway (Soute 15) and opined that in view of its dangers it was amazing that more fatal accidents had not occurred on its eleven miles.

its eleven miles.

Indeed it is amazing. But fatalities have cocurred on this highway and more will cocur in the future. It is a dangerous, treacherous, nervewracking road to travel and it stands as a disgrace to North Caronal translation.

and it stands as a disgrace to North Carolina.

This newspaper especially appreciates the understanding shown by The Dispatch in its editorial. Durham people who for years now have been trying to get's better road for this distance have had the feeling that others in the state feel that they have been seeking a fancy highway that would be in the nature of a fluxury.

That is not the case. The Chapel-Right Durham Highway is heavily traveled, not Durham Highway is heavily traveled, not interstate motorists (for it is part of an interstate motorists (for it is part of an interstate highway) and by North Carolinians living elsewhere in the state. Even Governor Soott showed an amaxing fenorance of the situation when he characterized the proposed Chapel Hill-Durham boulevard as a "football highway." For that remark the Governor, should have been sentenced to a daily trip over the road for two weeks. In justice to the copy of the weeks in justice to the superars to have modified his first view. It appears that this road will be build

one of these days, and this newspaper does not want to be unduly impatient. But the present road is so much of a meñace that the building of a better road should not be delayed. This highway stands as a dis-grace to the engineers who built it and to the State of North Carolina. It is an en-gineering moistrostly, with its twist and the control of the state of the wrong way.

Dudley Jones was haulen in tobacco and unbuck one hitree from wagon an other horse was still huck and started runnen with wagon round and round and tride stop it and finely run in hen house and tore side out it. That is true. I seen it.—Pleasant Valley Crpt. Carlisle, (Ky.) Nicholas County Star.

If they keep on developing machines that can perform mathematical calcula-tions, compose music, play chess, etc., they'll finally get them so they can tie up a plant by going on strike."—Little Rock Arkanasa Gazette.

A multi-million-dollar drive will be inaugurated by AFL chiefs to elect a "friendly" Congress. They've had nothing but for 20 years, except on rare occasions.
