## J. S. Clamps Curbs On Export Of Strategic Goods CHINA TALKS COAL CRISIS WITH LEWIS

### Re-Shipment To Soviet Is Barred

#### Present Curbs Are Broddened

WASHINGTON (AP)—The Government slapped rigid controls on shipment of strategic goods to practically the whole world today to prevent re-shipments to the Soviet bloc.

Communist China and Latin America particularly were covered by the new rules. The move was taken more with the idea of averting future re-shipment difficulties than because of any great current traffic in re-shipment to Russian-dominated areas.

Hitherto the Commerce Department applied these rigid controls only to Europe and adjacent areas, mostly along the southern rim of the Mediterranean.

CANADA EXCLUDED  
The new action extends the controls to exports to any place in the world except Canada, which has always been in a relatively control-free class of its own, even in wartime.

By strategic goods, the department means for the most part industrial items that might contribute to "the potential" of the Soviet bloc. The 40 grouped goods may be re-shipped to Soviet-dominated areas.

Direct shipments of strategic items to the Soviet Union have been under virtual ban since March, 1948.

In announcing the control extension, the department also streamlined its list of commodities covered by the move. The aim is to let licensing for goods now considered non-strategic and also "in plentiful domestic supply."

It put approximately 100 classes of commodities under the new wide license controls while simultaneously dropping 50 other classes of goods from the list of commodities formerly applied to Europe.

The 40 grouped goods may be shipped without license in any quantity and to any destination. The Commerce Department has designated strategic and banned from shipment except by license include:

Special types of military trucks and bus tires and tubes; re-entrant electrical heating coils; cast asbestos and fibers; unmanufactured mica; certain iron and steel products; wire and bronze products; electrical apparatus; transmission and distribution apparatus; large electrical motor; accessories and parts; mining and quarrying machinery; and oil.

The goods dropped entirely from license control, no matter where shipped include:

Optical glass, glass fiber and products; pottery; several asbestos products; and some abrasives; industrial conversion of bitumen and oil-firled boilers; barite and other minerals; and some abrasives; electrical tools; and several types of electrical apparatus.

France, the only goods previously under world-wide controls, in the case of shipments to Canada, were nine classes of refined oils.

### Alleged Kidnapers Jailed; Girl Back Home

Hugh Smith, left, and Jerome Aiford, right, are being held in an undisclosed jail in connection with alleged kidnaping of Mary Spivey, seven-year-old Marion County, S. C. girl. In the center, the little girl is welcomed by her parents, Mr. and Mrs. Joseph Garland Spivey, after she had been returned unharmed. Mr. and Mrs. Spivey are on a farm a few miles from Mullins. Smith and Aiford were arrested shortly after the girl was released. (Photos by Cooper Studio, Mullins, S. C.)

### Sherman Gives Navy The Word: 23 Skidoo

By JERRY KORN  
WASHINGTON (AP)—"Op 23," a naval agency said today, reminded the Admiral's bluff. Congressional attack on defense policy, has been limited by Adm. Forrest P. Sherman, new chief of naval operations.

Shelton, a strong supporter of second forces unification, cracked down on the 30-man unit less than 24 hours after taking over from Adm. Louis Denfeld as the Navy's top uniformed officer.

There were reports some days ago that the Navy's inspection general, Rear Adm. Allen R. McConn, had seized the group's records and was investigating its activities.

"OP 23" was what the Navy called its Operations Division 23. Actually, its full title was Organizational, Research and Policy.

McConn said the fact is the three governments are having difficulty finding a suitable date. He noted that Acheson has to be in Washington on Nov. 16 for the visit to Paris. The only date the Big Three meeting should be set for next week, Acheson could not remain in Paris any later than Nov. 15.

British fears that the Western powers were drifting apart on German policy reportedly brought about the meeting.

Some spoke work for the session already has been done in recent talks at Paris. The only words officials met, even though Germany is the primary subject, their discussions may raise windy. The general conflict with Russia and Germany, Yugoslav situation were mentioned.

### Pair Will Face Trial

MULLINS, S. C. (AP)—Charges were expected to be brought today against two Marion County men held in connection with the alleged kidnap of a little seven-year-old school girl.

Marion County Sheriff, Leon Gaskie, said he would confer with District Solicitor J. Reuben Long at Conway on the matter of the charges.

Gaskie did not indicate that the charges would be but added, "They'll serve time for this stunt."

The child, Mary Spivey, was released unharmed by the men at a farm home near here yesterday morning after their car had bogged down on a country road, Gaskie said.

Shortly afterward, officers arrested the two men and placed them in an undisclosed jail without charge pending further investigation.

The sheriff identified them as Jerome Aiford, 30, a farmer, and Hugh Smith, 22, recently returned from Labor City, N. C., to a farm near Mullins. It was at a nearby farm where her mother was working that Mary alighted from her school bus Wednesday morning and entered the car with the two men as her schoolmates watched.

Gaskie said Aiford and Smith had been seen drinking earlier around Mullins. The sheriff added that suspicious parties to the two men on the strength of descriptions of the car even as they were released.

### Mediator Sees Mine Union Chief

#### Government Moves For Settlement

WASHINGTON (AP)—Cyrus S. Ching today arranged a meeting with John L. Lewis—the first step in new Government efforts to end the coal strike.

Word came for a meeting this afternoon was struck by reliable sources shortly after Lewis made a new bid to effect a settlement with a part of the soft coal industry. Lewis offered to make a trip to Chicago tomorrow for an agreement covering mines in the two states of Illinois and Indiana.

Ching, the Federal mediator chief, arranged to visit Lewis at the mine workers' headquarters here at an unspecified hour in the afternoon.

LEAVES STEEL FOLKS  
The time was left uncertain because Lewis was on his way here from steel strike talks in New York. This afternoon's conference, authoritative sources indicated, may pave the way to a joint meeting between Lewis and soft coal operators next week in Washington.

The kind of settlement Lewis had made unsuccessful last week for negotiations looking toward a settlement with Indiana operators alone.

In effect, he expanded that to a two-day proposal with a telegram today to Gov. Adlai Stevenson. Lewis said he proposed to be for negotiations starting tomorrow afternoon in Chicago.

Stevenson said that if Illinois operators can't be brought into the settlement, he would perhaps be negotiated for Illinois' 40,000 mine alone.

There have been increasing signs that Lewis would like to achieve a settlement in the steel strike where CIO President Philip Murray has been in the lead.

Pressure is growing for Government action in the steel situation if the operators and Lewis make no progress toward an agreement.

Stevenson said that if Lewis would like to achieve a settlement in the steel strike where CIO President Philip Murray has been in the lead.

There have been increasing signs that Lewis would like to achieve a settlement in the steel strike where CIO President Philip Murray has been in the lead.

### 1950 Campaign Warming Up GOP Leader Answers Truman

By JACK BELL  
WASHINGTON (AP)—Guy C. Gabrielson, Republican national chairman, said today the Truman brand of government is taking more from the American people than it costs them to eat and is piling up debts for their children to pay.

Gabrielson cracked back in a statement at what he called President Truman's "justification" of the record of the GOP 40th Congress in an address at St. Paul last night.

TRUMAN PLANS TOUR  
Reports from Mr. Truman's homebound train said he was so pleased with the reception he had on his trip to the twin cities that he is more inclined than ever to make a full-fledged stump tour next year in behalf of Congressional candidates who will back his program.

There are signs, too, that foreign policy may yet develop into a major issue. The foreign policy split among Republicans points that way.

Gabrielson said President Truman had talked a lot at St. Paul about Thomas Jefferson. He suggested that Mr. Truman study Jefferson's assertion that:

"A wise and frugal government, which shall restrain men from injuring one another, which shall leave them otherwise free to regulate their own pursuits of industry and improvement, and shall not take from the mouth of labor the bread it has earned—this is the sum of good government."

That is a definition which might, with great profit to the nation, be pondered by the head of an Administration which is the sum of good government."

### VA Gives Order In Which GI Dividends To Be Paid

WASHINGTON (AP)—The order of payment of the \$2,800,000 special insurance dividend to World War II veterans will be included in the first final-draft group.

Applications will be broken down into groups as they are received. These groups then will be separated into ten processing units by the last serial digit—0 to 9. There is a voucher writing machine for each of the ten groups, and it is hoped to handle a total of 200,000 accounts daily.

After all last-digit serial numbers have been processed, the procedure will be repeated based on the second digit.

For veterans who had more than one serial number while in service, VA said it will use the number which appears on the National Service Life Insurance certificate.

In explaining the process it said the full serial number has nothing to do with the order of payment—merely the last three digits. Likewise, the number of the card which VA sends to applicants acknowledging claims has nothing to do with it.

After all last-digit serial numbers have been processed, the procedure will be repeated based on the second digit.

For veterans who had more than one serial number while in service, VA said it will use the number which appears on the National Service Life Insurance certificate.

### 3 Powers Will Meet In Paris

By JOHN M. HIGHTOWER  
WASHINGTON (AP)—The Big Three, U. S., British and French, agreed to meet in Paris to discuss Germany and other problems but the State Department said today the exact date for the conference is still up in the air.

Prime Minister Winston Churchill called premature an announcement that the Big Three would meet in London that the British and French foreign ministers and Secretary of State Acheson would gather at Paris next Wednesday or Thursday.

McConnell said the fact is the three governments are having difficulty finding a suitable date. He noted that Acheson has to be in Washington on Nov. 16 for the visit to Paris. The only date the Big Three meeting should be set for next week, Acheson could not remain in Paris any later than Nov. 15.

British fears that the Western powers were drifting apart on German policy reportedly brought about the meeting.

Some spoke work for the session already has been done in recent talks at Paris. The only words officials met, even though Germany is the primary subject, their discussions may raise windy. The general conflict with Russia and Germany, Yugoslav situation were mentioned.

### U. N. Group Hits At Albania, Bulgaria 2 Nations Accused Of Aiding Greek Rebels

By GEORGE PALMER  
"LAKE SUCCESS"—The United Nations Committee today accused Albania and Bulgaria of aiding Greek guerrillas.

The joint resolution further called for the continuance of the U. N. Special Commission on the Balkans UNSCOC and urged all countries to place an arms embargo on the two Balkan nations until they cease helping the guerrillas.

The Soviet resolution, which led neighbor states for menacing the peace. The proposal, sponsored by the United States, Britain, China and Australia, also called upon Albania and Bulgaria to stop aiding the guerrilla forces.

### Couple Found Fatally Stabbed

NEW YORK (AP)—Two persons tentatively identified as a woman and a man were found fatally stabbed today in a suite at the Hotel Alhambra.

The woman's body was nude and the man's body, sprawled across a bed beside her, was clad only in shorts. A hunting knife was found on the floor. Police said it might be a case of murder.

In the woman's pocketbook was a State Department card issued to a Turkish diplomat.

The woman's department number 113-D, division number 11,604. The woman appeared to be about 32.

A United Nations pass found in the man's clothing gave his name as Wei Yuan Kuo and indicated he was employed in the U. N. Secretariat in New York. He was about 27 years old.

The bodies, each stabbed several times, were found by the hotel bell captain when he went to the seventeenth floor suite to find out why the telephone had been off its hook for some time.

Furniture in the two-room suite was in order and there was no sign of a struggle. An occupant of an adjacent room said he heard no unusual noises in the night.
