THAT ONE VOTE MARGIN

THE paper-thin margin by which the House of Representatives voted to shove the Rankin veterans pension bill...

Congressman Jones voted for the original Rankin bill in the House Veterans Affairs Committee...

This week after the Rankin bill had been riddled with amendments from the floor, the test came...

CREATING NEW CITIZENS

THERE are many tragedies in the life of the cerebral palsy victim...

Best informed medical men believe that the range of intelligence of the cerebral palsied child...

And, further, it's believed that with the right treatment, new brain centers can be trained to take over...

IT'S THEIR DECISION

THE Charlotte Symphony Orchestra board of directors held the logical thing when it decided to submit the choice of a conductor to a secret ballot...

When all is said and done, the people who have the greatest stake in the local symphony orchestra are the faithful members...

On the contrary, the various boards of directors have, in general, been well-meaning but ineffectual organizations...

HIGHER TRUCK LIMITS

ALREADY passed by the House and now before the Senate is a bill which would increase the maximum weight of trucks in several categories...

The main excuse for the bill given so far is that North Carolina's limits are somewhat lower than those in other states...

According to the Winston-Salem Journal, which quotes figures from the Tennessee Motor Transport Association...

Alabama, 56,000 pounds; Mississippi, 52,000 pounds; Georgia, 50,000; Louisiana, 64,000; Arkansas, 55,000; Missouri, 48,000; Ohio, 60,000; South Carolina, 64,500; Virginia, 50,000; Kentucky, 42,000; and Tennessee, 42,000.

These figures belie the argument that the N. C. limits are too low.

BOY AND BREAD

SOME days ago I saw a small drama enacted in which a loaf of bread and a tricycle were stage props...

The boy, the bread and the tricycle were evidently between a neighborhood store and home when they caught my eye...

The tricycle rider, looked back and seemed pleased, but it was not long until the paper was thrown and the slices of bread began to slip out...

Then the little boy gave up. He collected the bread, thrust it back into the worn covering and then pushed the bundle under the ground.

The effort would have failed had a single one of the 208 voted the other way. Mr. Jones' vote counted more than the others...

Congressman Jones has been deeply concerned over admitted inadequacies and deficiencies in the nation's care of veterans and their dependents...

To help the plight of the more than 100 cerebral palsied children of Charlotte, The association proposes a campaign for \$100,000 to build, equip and maintain for a year a hospital to treat these children.

Best informed medical men believe that the range of intelligence of the cerebral palsied child varies from the level of a normal child to that of a physically normal person.

And, further, it's believed that with the right treatment, new brain centers can be trained to take over the duties of the undeveloped brain cells causing cerebral palsy.

CHARLOTTE, N. C. (The News) - THE most distressing world political situation, we are told with wearisome iteration, is due to economic depression in Western Europe...

Let us profess that statement by giving an appraisal of Frank Graham as I have known him, and I have known him since he entered the University of North Carolina in the Fall of 1905...

My war with Frank Graham and that of many others who appraise, appreciate and love him as I do, is not a personal one. It is a political one.

After that, barring war, when military preparations in Europe have reached completion, when economy there has resumed, when pressure by Europe for our goods has ceased...

1. It represents a unilateral action by North Carolina, without regard for the interests of other states...

2. It appears to set an unreasonably high maximum limit. We've all seen some of the tremendous vehicles which are within the 50,000 pound limit...

3. It is a question for them to decide: for, in the last analysis, it is their orchestra, not the board's.

4. It represents a unilateral action by North Carolina, without regard for the interests of other states...

5. It appears to set an unreasonably high maximum limit. We've all seen some of the tremendous vehicles which are within the 50,000 pound limit...

6. It is a question for them to decide: for, in the last analysis, it is their orchestra, not the board's.

THE classic description of a frontier is the ancient phrasing given in the legend of King...

These developments, incidentally, are being met with a somewhat different political difficulty for the independent Communist-front government...

The Kremlin's pressure campaign against the Yugoslav hierarchy, it must be taken much more seriously than the threat to Finland...

Drew Pearson's Merry-Go-Round

Winson Good At Soothing Truckman

INSIDERS credit vice old Chief Justice Fred Winson for the meek and mild way his friend Harry Truman came to Washington.

Probably no one outside of Boss Truman has more influence with the President than Winson. He has stuck with him at all times, especially when the going was tough. He never gets ruffled, never goes off on tangents.

Winson is one who believes you can't win a fight with the enemy. He is a peace-loving fellow who is not a Communist. He is a man who has been in the White House for a long time.

Gen. Vaughn Scores

GEN. HARRY VAUGHAN, the President's former military aide, says that it was not until he came to a B. O. loan to his admirer, Dictator Peron of Argentina. However, it looks as if Harry had quietly scored an interesting little coup.

Milton Kronheim Jr., a prominent Washington liquor dealer, says that he has been appointed a Municipal Court judge for the District of Columbia.

Michigan Scandals

QOME significant campaign contributions have cropped up in Michigan as a result of the recent election. The interesting question is whether \$17,000 paid by Preston Tucker allegedly to help up the Ferguson probe in Michigan was not a bribe.
