COURT RULING IS NEEDED

When the Supreme Court refused to hear the appeals of movie writers John Howard Lawson and Dalton Trumbo...

Hence the law of the land at the moment is that a Congressman is not to be a witness as to whether or not he is a member of the Communist Party.

The right of free speech is not absolute, but must yield to the necessities of the public interest.

In the first place, everybody knows the right of free speech is not absolute. A man cannot slander his neighbor.

In the second place, the right of free speech is not an issue in this case. These men were not convicted for what they said.

NEGLECT OF LATIN AMERICA

TOM WALLACE, editor emeritus of the Louisville Times, voiced a note which is being heard increasingly these days when he told the Charlotte Rotary Club this week:

"Between Hudson Bay and Tierra del Fuego stretches the Pacific and the Atlantic. There are enough natural resources to supply, if rightly used, many times the present population of the Americas and the Soviet Union."

The trouble is, Mr. Wallace added, that we are so preoccupied in our battle against Communism in Europe and Asia that we have forgotten the potential material and military benefits from an even greater implementation of the Good Neighbor Policy.

It is probably due to the lack of public confidence in the policy that it is true that psychiatry is not an exact science. It is true that there are differences between psychiatrists, that various 'schools' have grown up.

MURDER ON THE HILL

LAST YEAR a young Chapel Hill man was persuaded to enter a mental institution. His mental and emotional state was diagnosed as dangerous.

Last week he shot and killed a 22-year-old University student who had been his friend. Reason for the killing: the mentally disturbed man believed his friend had stolen a rifle from him.

The next day the young man—Len B. Smithy—killed himself. If Smithy had gone into court as the accused, he would have been acquitted.

THE GROUNDHOG

ALONG about this time of year, when the last of the ice is going out of the willow pond and the bluebirds are building a nest in the apple tree, the groundhog makes his first sleepy-eyed appearance.

lihood and his community standing might be utterly destroyed by an admission of party membership, or even of party sympathies.

In the third place, a good many thoughtful Americans will not be willing to surrender to a Congressional committee the vast power to determine "what it believes to be a threat of substantive evil to the national welfare."

Perhaps the Supreme Court had another reason for declining to review the two cases. Sooner or later it will have to view the conviction of the eleven Communist Party leaders last April.

Let us hope so, for such clarification is needed to put traditional American liberties at rest. It is becoming entangled in a web of suspicion and rumor and intrigue.

War On High Taxes

DARLINGTON, S. C. EDITORS: THE NEWS: LET'S be the people, all of us, declare war on high taxes by only voting for Town, City, and State Federal lawmaking candidates who will at least promise to vote and work for lower taxes.

Let's be the people, all of us throughout this country band together and make the above a "National Slogan." A War Cry on high taxes and on every tax lawmaking politician.

Let's be the people solicit the aid and public-spirited help of the most powerful and effective new conveyors and advertising media to man, namely, the newspaper and radio broadcasting stations in carrying this evil.

Most of our lawmakers are constantly seeking new sources of revenue. Hence in 1949 from 1948, ever since such new revenue, tax money, is raised, we, the people are forced by our lawmakers to pay it, regardless of our welfare and ability to pay.

No other bulk than the depression years of the thirties, hundreds and perhaps thousands of people in South Carolina (and perhaps in some other states) lost their homes, farms and other property on account of high property and other taxes.

Do you know: (1) That one out of every twenty-five of us, men, women and children, are on our town, City, County, State and Federal payrolls.

(2) That one out of every eight of the working people are on such payrolls, and that we, the people are being taxed on the basis of their payrolls.

(3) That \$100 out of every \$410 of the average man's income is taken by or through our lawmakers under laws made by them to pay our high taxes.

(4) That the average man is forced by our lawmakers to work approximately three months out of a year to pay the taxes he is paying.

(5) That a large per cent of our money spent for the ordinary things of life, goes for hidden or unknown taxes imposed on us.

(6) That aside from all other taxes forced upon us, we the people of South Carolina are paying approximately \$1 million in the cost of maintaining the towns and cities of this state in the way of parking meter taxes.

(7) That our present and unprecedented high taxes, based on the making of our money, are paid indirectly by our lawmakers constantly to the State of the high cost of living.

Three Secretaries of State have also come and gone—James Byrnes, James Easton, now latter, and James Marshall, now retired.

HERE in this ancient, lovely city, a new life is precariously growing up amid the ruins of the old. This is the most hopeful phenomenon in Europe...

HERE in Vienna, however, there is a summer of 1948 that the Kremlin will utterly crush out this new European life. There is evidence in fact that the German people were in a more favorable mood than the Soviet atomic bomb was the beginning of a new, different and more threatening Kremlin campaign to win Western Europe for the Soviet empire.

The evidence is composed of a peculiar set of facts. In brief, for the Spring of last year, the Kremlin in fact got ready to grant a peace treaty to Austria. This was by Soviet and Allied forces, and was requiring the evacuation of the Soviet forces on the "line of communications" in Hungary and Romania.

There was much evidence in the negotiations, to indicate that the Soviets intended to stand by a treaty and to get out. For example, part of the price the Kremlin was demanding for the renunciation of Austrian industries stated on the excuse that they were German assets.

Then, suddenly, the treaty negotiations collapsed. The question was a "debit for dried peas sent to feed starving population in Vienna" as a gift from Stalin in the bad time after the war.

WASHINGTON THROUGHOUT Germany today, the German people are being told that the German Government is a "puppet" of the Soviet Union and that the German people are being misled by the German Government.

Sen. Raymond E. Baldwin of Tennessee, a Republican, has introduced a bill to amend the Espionage Act of 1917, to provide for the punishment of anyone who aids the enemy in time of war.
