23 Americans Aboard Liner; None Survive

CAIRO (AP)—A Transworld Airline Constellation plane carrying 55 persons, 23 of them Americans, crashed and burned today north of Cairo, killing all aboard.

The airline announced there were no survivors among the passengers and seven crewmen. Reports from the scene said the plane was so badly burned that only a small section of it remained intact.

The bodies of the victims, many of them Arabians and representing a dozen countries, were not to be recovered until the wreckage was cleared from the scene, it was said.

Officials of the district governor's office in Bahra, province placed the scene of the crash near Elay Road, about 71 miles northwest of Cairo. Eyewitnesses said they saw the wreckage in a "Star of Sargland" plummet to earth in flames.

Earlier the district governor's office had held out hope that six of those aboard had survived, but this was dashed by messages direct from the scene, in which rescue teams had been rushed as soon as a TWA search plane spotted the wreckage in the Nile delta. TWA said the bodies are being removed by plane to Cairo.

The plane was regular run from Bombay to Rome. It crashed shortly after takeoff from Cairo's Farouk field at 1:30 P. M., Thursday. Cairo time is about 2 1/2 hours ahead of New York.

The plane radiated a routine report to the Cairo control tower 20 minutes after it was in the air and then was not heard from again. Although the wreckage was visible from the air soon after the crash, ground rescue teams could not reach the scene of the crash until late afternoon.

Five of the crew of seven aboard the plane were American. The other two were French. Eighteen of the 48 passengers were American and the remainder represented eleven other nationalities. Two passengers were Indian nationalities en route to United Nations meetings in Paris. Another passenger was the Egyptian movie star Lilliane Cohen, whose screen name is Camella. She is known as "the Lana Turner of the Middle East."

The Americans listed aboard include:

Two Florida Towns Bear Storm Brunt

Another Blow Growing at Sea

NEW ORLEANS (AP)—The freakish Gulf hurricane that swept inland last night near Mobile, Ala., appeared today to have delivered its heaviest punch at Panama City, Fla.

No loss of life was reported, and the storm apparently caused little damage elsewhere.

Mayor Carl Gray of the coastal region in extreme northwest Florida said in a radio broadcast a dock was destroyed by high winds and tide. Several other docks and beach property were damaged. He said 3,500 persons were evacuated from low ground to Red Cross shelters.

A tornado—believed an offshoot of the storm—seriously injured two persons and wrecked a dozen houses at Apalachicola, Fla., a regular run from New Orleans.

Secretary of Agriculture Charles F. Brannan told a group of the late O. Max Gardner, at Municipal Airport shortly after arriving last night. Mr. Gardner took the Cabinet member to Shelby for Cleveland County's Miracle Farm Day.

TOKYO (Friday) — (AP)—The Korean Reds threw a major two-division assault against the U. S. 25th Division in extreme south Korea today.

There were fragmentary reports that the Reds also were heavily attacking the U. S. Second Division farther north along the Nakdong River.

AP Correspondent Stan Swinton reported from the southern front just west of Masan that the North Korean invaders struck before dawn at fifteen points after a heavy preparatory barrage.

Fighting was raging today all along that front in what might be the start of a new general Red offensive, Swinton reported.

The new Communist onslaught, which had long been expected but had been delayed, involved snatching of Red efforts to crack the United Nations defense line on the northern and eastern fronts.

Mr. Truman is expected to outline his "firehose" plan just what the people can expect in the way of home-front mobilization.

He sent word to Congress yesterday, even while the conference committee was trying to hammer out an agreement on the economic control measure, that he would strip \$500,000,000 to begin with for administration of the powers the legislation would give him.

It had been expected that the conference would give him a compromise by noon. However, at that time Rep. James H. Doolittle, from the conference committee room and said progress was being made, but he saw no prospect of final agreement before late in the day.
