STRANGE POLITICAL LOGIC

TRANGE POLITICAL LOGIC

TURE American voler may view the selection. The control of the control o

MERCY KILLINGS

THE justification for mercy killing, I rather than the guilt of Dr. Hermann N. Sander, will be the question in the minds of most of us as the trial progresses in Manchester, M. H. this week. Dr. Sander has admitted injecting 40 cubic centineters of air into the veins of Mrs. Abble Borroto as the lay dying of Mrs. Abble Borroto as the lay dying of this action on the death certificate, thus bringing it to the attention of the authorities.

ties.

Regardless of the outcome of the trial, the people of this nation will still wonder:

Does man, under any circumstances, have the right to end the life of another hu-

Most of us would answer negatively. The original admonition, "Thou shalt not kill", has been buttressed by law and tradition down through the centuries. Not even

capital punishment by authority of the State for crime against society has been Free advocates of mercy killing, or cuthanasia, will defend by Sander's decision without reservations. Such a terrible responsibility can not conceivably be entrusted to any one man. But there are believers in esthanasia who argue quite inhyrestwel that mercy killings can be justified if the decisions are made by boards representing the medical profession and the lay public. Marchael of the such as the such asuch as the such a

WALLACE IS RIGHT FOR A CHANGE

WALLACE IS RIGHT FOR A CHANGE

IT IS not often that Henry Wallace comes tup with an acceptable loca. When he does so, he should get full credit.

Wallace proposed, in a statement issued over the week-end, that the North Atlanto-Pack signatories issue a joint public declaration that they will not be the first to use atomic weapons.

If had been suggested earlier that both houses of the U.S. Congress and the President join in such a declaration. Wallace goes one step further, and includes those nations which have bound themselves together in a regional defense agreement.

The idea has a great deal of meritates the proposed of the proposed in the stories when the pass and the president in the atomic arms race.

If Americana are gravely aporehendive over the prospects of another World War,

His stock of anecdotes was endless, many of them told at his own expense. He was a gentle person, too. If a child became lost in the Courthouse, he was generally clutch-ing a shiny new coin when reunited with his parents, given him by the kindly old gentleman.

DOUG BRADSHAW—PUBLIC SERVANT

WHERE was one small sign among the many pinned around County Auditor after than approve one small voucher of up Bradshaw's deak that summed up his as of a public servant's job. The sign ("A" to Your Service—That's What I'm His stock of angedess was referent was withdrawn.

Here For."

It was no mere slogan, and like the others, was not put up for decorative purposes. Doug Bradshaw slaways thought of himself as a public servant instead of a public official, and acted accordingly when any resident of Mecklenburg County came

any resident of Mecklenburg County came to him for information. He was an unusually competent public official, well informed, faithful to his official, well informed, faithful to his duties, loyal to the various Boards of Commissioners he served under, and immensely proud of his county of Mecklenburg, and the was rightly hontest. Once, a few years activing them seems of the was rightly hontest.

From The Winston-Salem Journal

WISE DELAY

THE Winston-Salem Board of Aldermen acted wisely, we believe, in deferring definite action on the petition of the Board of Realtors for an end of rent controls in

of Realtors for an end of rent controls in Winston-Sales.

The time may be at hand for the termination of controls here. Although there is acute need for the replacement of hundreds of sub-standard or slum housing units in Winston-Salem, the considerable progress in other fields of housing construction during the past three or four years may, have allevialed the home unit shortage in the middle and low middle income field to the point where the income field to the point where the income field to the point where the income for hold retial charges within reason. But this is mere conjecture. Thus far there has been, insofar as we know, no thorough and detailed survey of the rental housing situation here to determine all the facts in this relation. Such a survey, we understand, however, is proceed by rent control authorities. It should be made, we feel, and all the pertinent facts objectively set forth before definite and final action is taken.

We believe this would be to the advantage of its of the feet and the standard in housing units. An impartial, objective study of the whole
