The young man was not billed as a monumental thinker, but his question exhibited a rare clarity of thought.

Of course we must fight the Stallnists at home. Not only must we combat their propagands with truth, but we must also prevent them from carrying out explorage or scholarse.

That much is clear to everyone. The problem arises when you try to determine the most acceptable program for doing

INVESTMENT IN THE FUTURE

THE gentlemen who make up the board of directors of the Charlotte Chamber of Commerce are by no mean vision ary spendthrifts. They are hard-headed businessmen, who know what it mean to add 33 hillion to the City's bonded in-debtedness. And they know that their own business establishments, and those of other Chamber of Commerce members, will bear a major part of the burden of amortizing those bonds.

At the same time, they realize that courageous investment in the City's fu-ture is the best guarantee that Charlotte

more to the success of the campaign than a mere verbal endorsement. All loo often, business interests in American communities take the short-range view of public improvement projects, and worry more about the immediate cost than the long-range benefit. The Charlotte Chamber of Commerce has shown itself increasingly millitant in support of worthy projects in recent years. Yesterday's action by the directors was in the best traditions of that useful organization.

PROFANE DIPLOMACY

ONE of the most useful suggestions we have heard lately in the field of foreign policy comes from the New York World Telegram and Sun. It is that John L. Lewis be appointed as a United States designate to the United Nations Security

Dounest.

The advantages are obvious John L. would act as relief plitcher in the hurling of epithet. He is talents of invective are wasted on William Green, the coal barons and Mr. Truman But in Molotov, vishin-sky and Malik he would meet philological foremen worthy of his verbal steel.

Thus when Moscow puts the Truman Administration in the cannibial category and gently refers to Secretary of the Navy and gently refers to Secretary of the Navy

Matthews as "one of the most thickkulled, most reactionary armor-bearers of
Wall Street," whose "hands" are saturated
with blood," there should be an American
spokesman who can answer in kind.
Mr. Austin is a gentleman and an amateur at this sort of vituperative vocabulary.
K. L. Menchen is alling and Brand of the
"loonoclast" is dead. But we will have John
L. Levis, pastmaster of the burple patch,
epicure of the epithet, professor of the
pyrotechnical phrase, and disher-out of
the linguistic Limberger.
Mr. Truman should appoint John L. and
John L. should accept, if not for patriotic
reasons, then for the fun he and everybody else would get out of it.

In brief, during the past week, the enoury managed to mount a primitive but massive offensive, using this limited sociols of heavy military equipment only in this gareat, but leavishly expending man power everywhere. Albelt with shocking leases, this offensive was frustrated in the American sectors/of the line, justifying the new American self confidence takely reported in this space. In the long South Korean sector however, a major breakthrough hats been achieved. And as these words are written, the outcome is totally uncertain.
